However, where any figures may have been sourced from third-party industry sources, such figures may be rounded-off to such number of decimal points as provided in such respective sources. In this Draft Red Herring Prospectus, (i) the sum or percentage change of certain numbers may not conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row. Non-GAAP Financial Measures

Certain measures included and presented in this Draft Red Herring Prospectus, for instance EBITDA, EBITDA margin, interest coverage ratio, net debt to EBITDA ratio, return on capital employed and return on equity (**Non-GAAP Measures**), are supplemental measures of our performance and liquidity that are not required by, or presented in accordance with, Ind AS, IFRS or U.S. GAAP. Further, these Non-GAAP Measures, are not a measurement of our financial performance or liquidity under Indian GAAP, IFRS or U.S. GAAP and should not be considered as an alternative to net profit/loss, revenue from operations or any other performance measures derived in accordance with Ind AS, IFRS or U.S. GAAP or as an alternative to cash flow from operations or as a measure of our liquidity. We compute and disclose such Non-GAAP financial measures and

such other statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance. In addition, Non-GAAP Measures used are not a standardised term, hence a direct comparison of Non-GAAP Measures between companies may not be possible. Other companies may calculate Non-GAAP Measures differently from us, limiting its usefulness as a comparative measure. See ‘Risk Factor - Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance such as EBITDA, EBITDA margin, interest coverage ratio, net debt to EBITDA ratio, return on capital employed and return on equity have been included in this Draft Red Herring Prospectus. There are significant differences between Ind AS, U.S. GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. For details in connection with the risks involving differences between Ind AS, U.S. GAAP and IFRS, see ‘Risk Factor - Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the Restated Consolidated Financial Information prepared and presented in accordance with SEBI ICDR Regulations contained in this Draft Red Herring Prospectus.’ on page 76. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should, accordingly, be limited.

Currency and Units of Presentation

In this Draft Red Herring Prospectus, unless the context otherwise requires, all references to (a) ‘Rupees’ or ‘₹’ or ‘Rs.’ or ‘INR’ are to Indian rupees, the official currency of the Republic of India; and (b) ‘US Dollars’ or ‘US\$’ or ‘USD’ or ‘\$’ are to United States Dollars, the official currency of the United States of America.

However, where any figures that may have been sourced from third-party industry sources are expressed in denominations other than million, such figures appear in this Draft Red Herring Prospectus expressed in such denominations as provided in their respective sources.

Industry and Market Data

Unless stated otherwise, industry and market data used in this Draft Red Herring Prospectus has been obtained or derived from publicly available information as well as a report titled “*Broking Industry in India*” dated March 19, 2025 prepared and issued by CARE, appointed by us pursuant to an engagement letter dated September 16, 2024, and exclusively commissioned and paid for by us in connection with the Issue (**CARE Report**). A copy of the CARE Report is available on the website of our Company at www.anandrathi.com/investors. CARE was appointed by our Company and is not connected to our Company, our Directors, our Promoters, our Key Managerial Personnel and our Senior Management. For risks in relation to commissioned reports, see ‘*Risk Factor - Certain sections of this Draft Red Herring Prospectus include information from the CARE Report which has been commissioned and paid for by the Company in connection with the Issue and any reliance on such information for making an investment decision in the Issue is subject to inherent risks*’ on page 71.

Except for the CARE Report we have not commissioned any report for purposes of this Draft Red Herring Prospectus and any market and industry related data, other than that extracted or obtained from the CARE Report, used in this Draft Red Herring Prospectus has been obtained or derived from publicly available documents and other industry sources.

The data used in industry sources and publications may have been re-classified by us for the purposes of presentation. Data from these sources may also not be comparable. The data used in the industry sources and publication involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the ‘*Risk Factors*’ on page 34. Accordingly, investors should not place undue reliance on, or base their investment decision on this information.

Further, the extent to which the market and industry data used in this Draft Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources. In addition, certain data in relation to our Company used in this Draft Red Herring Prospectus has been obtained or derived from the CARE Report which may differ in certain respects from our Restated Consolidated Financial Information as a result of, inter alia, the methodologies used in compiling such data. Accordingly, investment decision should not be made based solely on such information.

In accordance with the SEBI ICDR Regulations, the section ‘*Basis for Issue Price*’ on page 147, includes information relating to our peer companies and industry averages. Such information has been derived from publicly available sources. Such industry sources and publications are also prepared based on information as at specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base this information on estimates and assumptions that may prove to be incorrect.

FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain “forward-looking statements” which are not historical facts. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “can”, “could”, “expect”, “estimate”, “intend”, “may”, “likely”, “objective”, “plan”, “propose”, “project”, “seek to”, “will”, “will continue”, “will achieve”, “will pursue” or other words or phrases of similar import but are not the exclusive means of identifying such statements. Similarly, statements that describe our strategies, objectives, plans, goals, future events, future financial performance and expected results of operations, or financial needs are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations, and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

These forward-looking statements, whether made by us or a third-party, are based on our current plans, estimates, presumptions and expectations and actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to, inter alia, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the industries in which we operate.

Certain important factors that could cause actual results to differ materially from our expectations include, but are not limited to, the following:

- Our Broking Segment and MTF Business contribute a substantial share of our revenue. Any reduction in our revenue from Broking Segment or from our MTF Business could have a material adverse effect on our business, results of operations, cash flows and financial condition.
- Any downturn or disruption in the securities markets, which are affected by general economic and market conditions in India and globally, may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.
- Our Company has received a notice from SEBI seeking a compliance report in respect of the ‘fit and proper’ person criteria in terms of the SEBI (Intermediaries) Regulations, 2008. Any adverse order in these proceedings could have a material adverse impact on business, results of operations and financial condition.
- Our Company has made various private placement offers of secured redeemable unlisted non-convertible debentures (NCDs) to a select group of persons including a qualified institutional buyer (QIB) during Fiscal 2023, Fiscal 2024, and Fiscal 2025, with each private placement offer having a distinctive international securities identification number (ISIN). Some of the initial subscribers further transferred the NCDs allotted to them within 6 months from the date of allotment of the NCDs. While the total number of the initial subscribers and / or the total number of unique NCD holders after the down-sale in respect of a private placement offer under a distinct private placement offer/ISIN did not exceed 200 unique NCD holders in any financial year, if the private placement offer/s under a distinct ISIN are clubbed together, then the aggregate number of unique NCD holders exceeded 200, which could be considered as non-compliance of the provisions of Sections 25 and section 42 of the Companies Act and applicable provisions of the Companies Act and securities laws. Our Company has filed an application u/s 454 of the Companies Act 2013 for adjudication with the RoC. Over last two months (i.e. February 2025 and March 2025) a significant amount and number of NCDs have been redeemed and the total number of unique NCD holders during each of the financial years across all offers / ISIN are now less than 200, we cannot assure you about the outcome of this adjudication and/or that there will be no penalty levied on or action taken against our Company in this regard.
- Anand Rathi Commodities Limited (**ARCL**), one of our Group Companies and few of its director(s) have been charge sheeted under various provisions of law. Any adverse outcome in the aforesaid proceedings would have a material adverse effect on the reputation of the Anand Rathi group and which could in turn have a material adverse impact on our business.

- One of our Group Companies, Anand Rathi Commodities Limited (**ARCL**), and one of our Promoter, Pradeep Navaratan Gupta, amongst others have been accused and summoned for predicate offences under the Prevention of Money Laundering Act, 2002. Any adverse outcome in these proceedings would have a material adverse effect on the reputation of the Anand Rathi group and which could in turn have a material adverse impact on our business.
- A Special MPID Court, Mumbai (**MPID Court**) has ordered issuance of summons against our Corporate Promoter and 2 of our Directors, in connection with the NSEL litigation. Any adverse outcome in the aforesaid proceedings would have a material adverse effect on the brand and reputation of the Anand Rathi group and which could in turn have a material adverse impact on our business, financial condition and results of operations.
- ARCL's application for registration as commodity derivatives broker has been rejected by SEBI and it has been barred from making a fresh application seeking registration for a period of 6 months from November 29, 2022 or till acquittal of ARCL by the courts pursuant to the chargesheet filed by the EOW, whichever is earlier. Any adverse outcome in the aforesaid proceedings would have a material adverse effect on the brand and reputation of the Anand Rathi group.
- We are subject to extensive statutory and regulatory requirements and supervision. Any failure to comply with applicable law or changes in the regulatory framework could result in action being initiated against us by relevant authorities which may have a material adverse impact on our business, results of operations and financial condition.
- We rely heavily on our network of Authorised Persons associated with us. Loss of a significant number of Authorised Persons, or failure to expand our network of Authorised Persons may have an adverse impact on our business, results of operations and financial conditions. Further, we could be liable for the lapses of our Authorised Persons.

For further details on factors that could cause actual results to differ from expectations, see '*Risk Factors*', '*Industry Overview*', '*Our Business*' and '*Management's Discussion and Analysis of Financial Condition and Results of Operations*' on pages 34, 165, 206 and 338 respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated and are not a guarantee of future performance.

We cannot assure you that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements to be a guarantee of our future performance.

Forward-looking statements reflect current views as of the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management's beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Directors, the Book Running Lead Managers nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with the SEBI ICDR Regulations, our Company and the Book Running Lead Managers will ensure that the investors in India are informed of material developments pertaining to our Company from the date of this Draft Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges for this Issue.

8. ARCL's application for registration as commodity derivatives broker has been rejected by SEBI and it has been barred from making a fresh application seeking registration for a period of 6 months from November 29, 2022 or till acquittal of ARCL by the courts pursuant to the chargesheet filed by the EOW, whichever is earlier. SECTION II: RISK FACTORS

An investment in equity shares involves a high degree of risk. Prospective investors should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. The risks described in this section are the risks and uncertainties that we believe are material, and are not the only ones relevant to us or the Equity Shares but also includes the industry and segments in which we currently operate. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our businesses, results of operations, financial condition and cash flows. If any of the following risks, or a combination of risks, or other risks that are not currently known or are currently deemed immaterial, actually occur, our businesses, results of operations, financial condition and cash flows could be adversely affected, the trading price of the Equity Shares could decline, and you may lose all or part of your investment. To obtain a complete understanding of us, prospective investors should read this section in conjunction with 'Industry Overview', 'Our Business', 'Financial Indebtedness' and 'Management's Discussion and Analysis of Financial Condition and Results of Operations' on pages 165, 206, 334 and 338, respectively, as well as the financial, statistical and other information contained in this Draft Red Herring Prospectus.

In making an investment decision, prospective investors must rely on their own examination of us and the terms of the Issue including the merits and risks involved. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in the Equity Shares. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. Unless otherwise indicated, all financial, operational, industry and other related information derived from the CARE Report and included herein with respect to any particular year, refers to such information for the relevant calendar year. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section.

Internal Risk Factors

- Our Broking Segment and MTF Business contribute a substantial share of our revenue. Any reduction in our revenue from Broking Segment or from our MTF Business could have a material adverse effect on our business, results of operations, cash flows and financial condition.**

Our broking and related services (**Broking Segment**) has consistently been our largest business vertical and contributes a substantial share to our revenue from operations. Further, we also offer our clients margin trading facility (**MTF Business**) to enable them to leverage their eligible collaterals, by funding their requirements in the cash delivery segment of equities. Our income from broking and related services, and our interest income from margin funding in the 6 months ended September 30, 2024, and in Fiscals 2024, 2023 and 2022, are set out below.

Particulars	6 months ended September 30, 2024		Fiscal 2024		Fiscal 2023		Fiscal 2022	
	Revenue (in ₹ million)	% of revenue from operations	Revenue (in ₹ million)	% of revenue from operations	Revenue (in ₹ million)	% of revenue from operations	Revenue (in ₹ million)	% of revenue from operations

Total	3,459.45	78.32%	5,337.37	78.29%	3,714.83	79.41%	3,389.67	80.06%

*income from Broking Segment also includes income from delayed payment charges & depository income

Our Brokerage Income is directly proportionate to the trading volume and order size. The number of orders and the trading volume are affected by a variety of external factors that are beyond our control such as the general macroeconomic conditions, particularly, in India, the monetary and taxation policies of the Government of India, prevailing market conditions, the prevailing regulatory framework, fluctuation in interest rates, inflation etc. In addition, our business operations are subject to regulatory limits on brokerage fee rates and net worth requirements imposed by the exchanges.

In addition, our Brokerage Income is also driven by the number of clients, in particular individual investors, to whom we cater and the size of these transactions. Set out in the table below are the number of clients in our Broking and Margin Funding businesses we catered to, in the 6 months ended September 30, 2024, and in Fiscal 2024, Fiscal 2023 and Fiscal 2022.

Particulars	6 months ended September 30, 2024	Fiscal 2024	Fiscal 2023	Fiscal 2022
No. of clients catered to in Broking Segment	1,19,929	1,27,792	1,07,848	1,10,347
No. of clients catered to in Margin Funding Business*	10,535	9,480	6,424	5,412

* All clients of the Margin Funding Business are also clients of the Broking Segment. The number of clients of the Broking Segment is, therefore, inclusive of clients of the Margin Funding Business.

If there is a significant decline in investor participation in equity markets, or if we are unable to maintain and grow our client base, particularly, higher yield clients, and, or, if our service levels are not upto client expectations our Broking and Margin Funding businesses could be adversely affected. See also the risk factor – *Any downturn or disruption in the securities markets, which are affected by general economic and market conditions in India and globally, may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects* on page 36.

Further, while our income from broking and related services increased by 3.65% from ₹ 3,061.01 million in Fiscal 2022 to ₹ 3,172.67 million in Fiscal 2023, our profit for the period decreased by 25.70% from ₹ 507.99 million in Fiscal 2022 to ₹ 377.45 million in Fiscal 2023. For details, see 'Management's Discussion and Analysis of Financial Condition and Results of Operations – Fiscal 2023 compared to Fiscal 2022'. Accordingly, we cannot assure you that there will not be volatility in our profits, or our profits will be commensurate with our revenue from operations.

We offer our clients both physical and digital/online modes of execution of transactions and our revenues from Broking and Margin Funding businesses are also affected by the service levels offered by our employees and the efficiency and seamlessness of our online and mobile application platforms (**Digital Platforms**).

We face significant competition in our Broking and Margin Funding businesses and, there is no exclusivity arrangements with clients. Accordingly, if our competitors are able to provide better services, lower margins, better rates of interest on margin funding or if their products are perceived to be more appealing to clients, they could migrate all or a part of their business to our competitors and hinder our ability to retain and attract new clients. Further, if we are required to reduce our margins to retain existing clients or attract new clients it could adversely affect our Broking Segment. Any adverse impact on our

Broking Segment due to any of the aforementioned factors including the external and macroeconomic factors and the regulatory environment in India, could have a significant adverse impact on our business, results of operations, profitability, cash flows and financial condition.

2. ***Any downturn or disruption in the securities markets, which are affected by general economic and market conditions in India and globally, may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.***

We operate in the financial services industry in India where we conduct our business and generate substantially all of our revenues. From the bottom of Covid-19 to December 2024, the BSE Sensex and the NSE Nifty indices witnessed significant growth at a CAGR of 22.8% and 23.7% respectively, despite encountering periods of fluctuation. (Source: CARE Report) We and, in particular, our Broking and Margin Funding businesses are, highly dependent on the securities market, which is significantly affected by global macroeconomic factors, and in particular, macroeconomic factors affecting India. The Indian equity markets are affected by a variety of factors including growth in India's GDP, taxation, monetary and other policies of the Government of India, laws and regulations that affect trading, political measures and regulatory developments, and general political stability, inflation, interest rate levels, change in consumer spending and saving patterns such as a shift from one category of investment to another, currency exchange rates and foreign investment including perceived unattractiveness of the Indian markets. Accordingly, a downturn in the Indian securities markets, persistent or short term, could adversely impact trading and investment patterns, result in decline in trading volumes and size, and, consequently, adversely impact our business, prospectus, results of operation and financial condition.

In addition, global factors such as global economic instability or recession, geopolitical tensions, war or hostilities, cybersecurity threats or attacks and other forms of disruption to or curtailment of global communication could result in a macroeconomic downturn and have an adverse effect on the financial services industry in India and, consequently, on our business, results of operation and financial condition. Capital markets around the world are susceptible to macroeconomic risks such as COVID-19 pandemic and, geo-political tensions. In line, India's capital market also witnessed high volatility during COVID-19, general elections in India, geo-political tensions between Russia-Ukraine, hostilities between Israel and Palestine/Lebanon/Iran. (Source: CARE Report) While this did not significantly affect our business, we cannot assure you that similar instances will not adversely affect our business, results of operations and financial condition.

3. ***Our Company has received a notice from SEBI seeking a compliance report in respect of the 'fit and proper' person criteria in terms of the SEBI (Intermediaries) Regulations, 2008. Any adverse order in these proceedings could have a material adverse impact on business, results of operations and financial condition.***

Our Company had received a notice from SEBI dated June 19, 2023, (**Impugned Notice**) under Clause 6 of Schedule II of the SEBI (Intermediaries) Regulations, 2008, as amended (**SEBI Intermediaries Regulations**) directing us to submit a compliance report with respect to compliance with the 'Fit and Proper' criteria set out in the SEBI Intermediaries Regulations within 15 days of the date of the Impugned Notice. The Impugned Notice has been issued in connection with a chargesheet dated December 2, 2022, filed by the Economic Offences Wing, Mumbai (**EOW**) against Pradeep Navratan Gupta, one of our Individual Promoters and our Chairman and Managing Director, in connection with the EOW's investigation into the alleged irregularities at National Spot Exchange Limited. The 'Fit and Proper' criteria were amended on November 17, 2021, pursuant to which a pending chargesheet by any enforcement agency in matters concerning economic offences is a ground for disqualification and accordingly, the pending chargesheet against Pradeep Navratan Gupta, is a ground for disqualification from holding his position in the Company as Director.

Our Company and Pradeep Navratan Gupta have filed a writ petition (no. 2327 of 2023) under Article 226 of the Constitution of India (**Writ Petition**), in the High Court of Judicature at Mumbai (**High Court**) challenging, amongst others, the constitutional validity of the various amended provisions of the SEBI Intermediaries Regulations including Clause 6 of Schedule II which were amended pursuant to the SEBI (Intermediaries) (Third Amendment) Regulations, 2021 which came into effect on November 17, 2021. The Hon'ble High Court pursuant to its order dated July 6, 2023, accepted the statement of the legal counsel on behalf of SEBI that given the pendency of the matters before the Court and the challenges that are raised, SEBI is not presently insisting on compliance within 15 days. The matter is pending in the Bombay High Court and the next date of the hearing is April 03, 2025. Also, currently, no other proceeding or action has been initiated or penalty imposed, by SEBI in this regard. Any adverse outcome

in the aforesaid proceedings would require Pradeep Navratan Gupta to resign and could also result in our Company being subjected to action by SEBI, which could have a material adverse impact on our business, results of operations and financial condition.

4. *Our Company has made various private placement offers of secured redeemable unlisted non-convertible debentures (NCDs) to a select group of persons including a qualified institutional buyer (QIB) during Fiscal 2023, Fiscal 2024, and Fiscal 2025, with each private placement offer having a distinctive international securities identification number (ISIN). Some of the initial subscribers further transferred the NCDs allotted to them within 6 months from the date of allotment of the NCDs. While the total number of the initial subscribers and / or the total number of unique NCD holders after the down-sale in respect of a private placement offer under a distinct private placement offer/ISIN did not exceed 200 unique NCD holders in any financial year, if the private placement offer/s under a distinct ISIN are clubbed together, then the aggregate number of unique NCD holders exceeded 200, which could be considered as non-compliance of the provisions of Sections 25 and section 42 of the Companies Act and applicable provisions of the Companies Act and securities laws. Our Company has filed an application u/s 454 of the Companies Act 2013 for adjudication with the RoC. Over last two months (i.e. February 2025 and March 2025) a significant amount and number of NCDs have been redeemed and the total number of unique NCD holders during each of the financial years across all offers / ISIN are now less than 200, we cannot assure you about the outcome of this adjudication and/or that there will be no penalty levied on or action taken against our Company in this regard.*

During Fiscal 2023, Fiscal 2024 and Fiscal 2025 (till November 30, 2024), our Company has made various private placement offers of NCDs to a select group of persons including our Corporate Promoter i.e., Anand Rathi Financial Services Limited and one of our Group Companies, i.e., Anand Rathi Global Finance Limited, a QIB, being a systemically important non-banking financial company, on a private placement basis, with each private placement offer having a distinctive international securities identification number (ISIN). Details of the NCDs allotted during these periods (as on December 14, 2024) are set out below:

Particulars	Number of separate, independent and individual offers (bearing separate ISIN numbers) through which NCDs were issued	Number of subscribers / original allottees	Number of unique subscribers/ original allottees	Amount raised through issue of NCDs (in ₹ million)
Fiscal 2023	13	98	88	1,235.00
Fiscal 2024	33	58	36	1,280.00
Fiscal 2025*	39	71	66	577.00
Total				3,092.00

*from April 1, 2024 till November 30, 2024.

During Fiscal 2023 and Fiscal 2024, some of the initial subscribers (including our Corporate Promoter i.e., Anand Rathi Financial Services Limited and one of our Group Companies, i.e., Anand Rathi Global Finance Limited), further transferred the NCDs subscribed by them resulting in the aggregate number of unique NCD holders exceeding 200 investors, within a timeframe of 6 months from the respective date of allotment, which could be considered to be in violation of the provisions of Sections 25 and section 42 of the Companies Act and applicable provisions of the Companies Act and securities laws. While the total number of the initial subscribers and / or the total number of unique NCD holders after the down-sale in respect of a private placement offer under a distinct private placement offer/ISIN did not exceed 200 unique NCD holders in any financial year, if the private placement offer/s under a distinct ISIN are clubbed together, then the aggregate number of unique NCD holders exceeded 200. Accordingly, our Company has filed an adjudication application under section 454 of the Companies Act 2013 before the Registrar of Companies, Mumbai, which is currently pending. Further, SEBI through its email dated March 26, 2025 has sought certain details in relation to the NCDs issued by our Company, and we have through our emails dated March 26, 2025 and March 28, 2025 submitted the requisite data to SEBI.

Our Company has obtained opinions from a retired Judge of the Bombay High Court and a Senior Advocate who have opined that the restriction on total number of allottees under Section 42 of the Companies Act 2013 read with Rule 14 of the Companies (Prospectus and Allotment of Securities) Rules, 2014 relate to a particular private placement offer or issue under a distinctive ISIN or at ISIN-level or on a per-ISIN basis alone, and the restriction does not apply to all private placements under distinctive ISINs

in a given financial year while considering the prescribed limit or cap of allotment to 200 persons. Over the last two months (i.e. February 2025 and March 2025) a significant amount and number of NCDs have been redeemed and the total number of unique NCD holders during each of the financial years across all offers / ISIN are now less than 200 as per the details mentioned below as on March 29, 2025:

Particulars	Private placement offers (distinct ISINs) under which NCDs were issued	Total number of subscribers/ original allottees in the Financial Year	Total number of unique NCD holders in all (considering down sale) private placement offers (all ISINs) in the Financial Year (post redemption)	Amount outstanding (in ₹ million)
Fiscal 2023	13	98	187	503.80
Fiscal 2024	33	58	189	590.00
Fiscal 2025	39	71	113	423.00
Total				1,516.80

Note: The number of unique NCD holders and amount outstanding set out in the above table are based on the beneficiary position statement dated March 28, 2025.

For details, please see ‘*Outstanding Litigation - Outstanding actions by statutory and/or regulatory authorities*’. We cannot assure you of the outcome of the said adjudication application. We also cannot assure you that our Company will not be held in violation of applicable laws and that there will be no penalty or further action against our Company in this matter.

8. *ARCL's application for registration as commodity derivatives broker has been rejected by SEBI and it has been barred from making a fresh application seeking registration for a period of 6 months from November 29, 2022 or till acquittal of ARCL by the courts pursuant to the chargesheet filed by the EOW, whichever is earlier. Any adverse outcome in the aforesaid proceedings would have a material adverse effect on the brand and reputation of the Anand Rathi group.*

Pending investigation by EOW in the NSEL matter, EOW forwarded its interim report dated April 4, 2015 to the Forward Markets Commission (**FMC**), seeking its intervention in relation to potential violations of codes of conduct or licensing terms. Subsequently, on October 28, 2016, in purported exercise of powers under Regulation 24 of the SEBI Intermediaries Regulations, 2008 (**Intermediaries Regulations**) read with Section 19 of the SEBI Act, SEBI issued a Notice dated October 28, 2016 (**Notice**) to ARCL calling upon to show cause as to why appropriate recommendation should not be made against ARCL in terms of Regulation 27 of the Intermediaries Regulations, read with Section 12(3) of the SEBI Act, 1992, in relation to the application of the ARCL for registration as commodities derivatives broker. ARCL responded to the allegations set out in the Notice on January 6, 2017. Subsequently, on April 24, 2017, a show cause notice was issued by SEBI under Regulation 28(1) read with Regulation 7(2) of the SEBI (Intermediaries) Regulation (**2017 SCN**), based on an enquiry report dated April 11, 2017 submitted by a bench of designated authorities, which recommended rejection of an application submitted by ARCL for registration as a commodity derivative broker, and initiation of prosecution proceedings under the FCRA. Subsequently, the Serious Fraud Investigation Office (**SFIO**) issued a report dated August 31, 2018 which was sent by the SFIO to SEBI.

Pursuant to personal hearings and submission of detailed written submissions, SEBI on December 27, 2018 issued another show cause notice (**2018 SCN**) calling upon ARCL to show cause as to why the information brought on record by the report filed by SFIO should not be considered while deciding the application for registration. Pursuant to personal hearings, the Whole Time Member, SEBI (**WTM**), vide order dated February 25, 2019 (**2019 Order**), declared that ARCL is not a fit and proper person to hold, directly or indirectly, the certificate of registration as commodity derivatives broker, and accordingly, rejected the application dated December 16, 2015, filed by ARCL for registration as commodity derivatives broker. The 2019 Order does not hold that any of the allegations and/or the recommendations contained in the recommendation report of the Designated Authority as proved and simply concluded that ARCL is guilty, by association, only on account of them being members of the said NSEL. ARCL challenged 2019 Order in appeal (**SAT Appeal**) before Securities Appellate Tribunal, Mumbai (**SAT**). NSEL also filed an Appeal no. 566 of 2019 to challenge the said order of WTM. SAT vide its order dated June 09, 2022 (**SAT First Order**) allowed the SAT Appeal and quashed the 2019 Order (i.e. order dated February 25, 2019) passed by the WTM.

Thereafter, SEBI issued a Supplementary Show Cause Notice dated July 07, 2022 (**Supplementary SCN**) under Regulation 25(1) of the Intermediaries Regulations. Further, SEBI pursuant to its letter dated August 02, 2022, provided to ARCL, the letter dated July 18, 2022 purportedly received by it from NSEL. ARCL received a Notice of Hearing dated August 04, 2022 (**Notice of Hearing**) under Regulation 25(6) of the Intermediaries Regulations in furtherance of the Supplementary SCN on August 08, 2022.

ARCL filed its reply dated September 05, 2022, to the Supplementary SCN. The personal hearing on the Supplementary SCN was held before the Designated Authority of SEBI (**Designated Authority**) on September 06, 2022. Thereafter, Designated Authority issued its report dated September 30, 2022 (**the Report**) and a Show Cause Notice dated October 11, 2022 (2022 SCN) was issued by the Designated Authority (along with a copy of the Report), purportedly under Regulation 27(1) of the Intermediaries Regulations. As per the Report, the Designated Authority had proposed/recommended that the Registration Application of ARCL as a commodity broker may not be considered for another 3 (three) years from the date of the SEBI order. By way of the 2022 SCN, ARCL was asked to show cause as to why action as recommended by the Designated Authority should not be imposed on ARCL in terms of Regulation 27 of the Intermediaries Regulations, as deemed fit by the 'Designated Member' of SEBI, i.e. the WTM. ARCL filed its reply dated November 09, 2022 to the 2022 SCN read with the Report. Pursuant

to on personal hearing on November 15, 2022 and Written Submissions dated November 25, 2022, the WTM passed an order on November 29, 2022 (**2022 Order**) decided to reject ARCL's application for registration as commodity derivatives broker and barred ARCL from making a fresh application seeking registration for a period of 6 months from the date of the 2022 Order, i.e. November 29, 2022 or till acquittal of ARCL by the courts pursuant to the chargesheet filed by the EOW, whichever is earlier. The debarment period of six months has already expired. ARCL has filed an appeal before the SAT (**Second Appeal**) to quash and set aside the 2022 Order of debarring ARCL from making a fresh application seeking registration for a period of 6 months. Any adverse outcome in the aforesaid proceedings would have a material adverse effect on the brand and reputation of the Anand Rathi group.

The Enquiry Report has recommended issuance of regulatory censure on our Company for the alleged violations. SEBI's notice dated February 21, 2025, has asked us to show cause as to why appropriate actions should not be taken against our Company. Our Company has submitted a response dated March 17, 2025 to the Enquiry Report with SEBI. The enquiry proceedings pursuant to the Enquiry Report are currently pending. Our Company has also received administrative warning letters from SEBI for certain non-compliance with respect to SEBI circulars and regulations. Our Company has received an administrative warning dated March 12, 2025 from SEBI with respect to SEBI's inspection letter dated February 25, 2025 for inspection conducted in relation to 'Client Onboarding process' Company from January 1, 2024 to August 31, 2024 for (i) not taking separate authorization from clients for availing running account facility; (ii) not providing new SEBI scores website URL for investor grievance redressal mechanism; (iii) not making provision of exchange selection as per choice in online account opening form. The administrative warning letters require us to *inter alia* rectify the discrepancies / deficiencies and take appropriate corrective actions and inform SEBI of the actions taken by our Company. Further, our Company has also received an observation letter dated March 28, 2025 from SEBI with respect to inspection conducted in relation to '*Cyber Security & Cyber Resilience and Framework of Technical Glitches*' wherein SEBI *inter alia* observed delays in reporting RCA (i.e., root cause analysis), failure in reporting an unauthorized access incident within the required 6-hour timeframe, absence of Board approval for the information security management system policy and a misconfiguration in the password policy, having no established solutions for addressing identified vulnerabilities, and not providing adequate documentation to support compliance with various clauses from certain NSE and SEBI circulars, and has sought our response within 7 days from receipt of the letter.

In addition, the regulatory and statutory framework within which we operate our business evolves with time. Further, the change could be in response to various aspects including global regulatory trends, corporate governance and ESG norms. Accordingly, the laws and regulations applicable to our business are subject to amendments, revisions, replacements etc. including pursuant to action by government or regulatory authorities or further to intervention or directions of the judicial and quasi-judicial authorities including the Securities Appellate Tribunal. For example, according to a recent study, 91.1% of individual traders (about 73 lakh traders) lost money in the F&O segment in FY24. During FY22-FY24, 1.13 crore unique Individual traders incurred a combined net loss (i.e. trading loss inclusive of transaction costs) of ₹1.81 lakh crore in F&O. In FY24 alone, Individuals incurred about ₹75k crore in net losses. (*Analysis of Profits & Losses in the Equity Derivatives Segment (FY22-FY24) – SEBI*) Consequently, SEBI has recently enhanced the measures applicable to the equity index derivatives framework. Such measures may affect our trading volumes and increase operational costs, which may affect our business, financial condition, and cash flows. We cannot assure you that changes in applicable laws will not impose onerous conditions on our business activities, require us to change existing systems, policies and procedures. Any onerous conditions imposed by relevant authorities, or material changes required to our systems, policies and procedures may increase our compliance cost or adversely affect our business operations. For further details see '*Key Regulations and Policies*' on page 226.

Total number of Authorised Persons	1,123	1,062	1,587	1,535
Number of Authorised Persons who ceased their association with our Company during the period	189	1,066 ²	201	246
Number of new Authorised Persons appointed	250	541	253	393
Attrition rate (%)⁽¹⁾	17.30%	80.48%	12.88%	16.83%

(1) Attrition rate (%) = Authorized Persons who left / Average number of authorized persons

(2) We terminated the contracts with Authorised Persons who were inactive or undertaking nominal business.

The growth in our Authorised Persons network has also contributed to the growth of our business. Accordingly, the inability to consistently grow our network of Authorised Persons could also adversely impact our business, financial condition and growth prospects.

Further, in terms of the prescribed contract with Authorised Persons and in accordance with applicable law, we are responsible and liable for the acts of omission and commission of the Authorised Persons

and, or, their employees, and accordingly, we may be held responsible for various actions of the Authorised Persons and their employees including for:

- failures, errors and, or, mistakes on the part of such persons;
- fraud or misconduct, including mis-selling by such persons;
- operational failure on the part of such person; and
- non-compliances with, or violation of, applicable laws.

While the contract with the Authorised Persons sets out our inter-se rights and obligations and requires the Authorised Persons to comply with applicable laws, we cannot assure you that there will be no failure on the part of Authorised Persons for which we could be made liable. For instance, on August 23, 2024, SEBI pursuant to a joint inspection conducted by SEBI and the NSE levied a penalty of ₹ 0.70 million on our Company for *inter alia* not conducting proper inspection of Authorised Persons. Further, on July 7, 2024, SEBI issued a warning to our Company for having failed to inspect a large number of our Authorised Persons in Fiscal 2022. Further, a penalty of ₹ 0.10 million was levied on our Company by the MCX pursuant to ‘final action taken letter’ dated March 28, 2023, for certain lapses including one of our Authorised Persons promising assured returns.

11. ***Any failure to obtain, renew and maintain requisite statutory and regulatory permits, licenses and approvals for our operations from time to time may adversely affect our business.***

Our business is subject to compliance with the rules, regulations, bye-laws and circulars prescribed by various entities including SEBI, AMFI, depositories, and stock and commodity exchanges, and other regulatory authorities, and the terms and conditions of the approvals, licenses, registrations and permissions obtained for operating our business. Some of the approvals, licenses and registrations may elapse in the ordinary course of business and we make applications for renewal as required in accordance with applicable law, while certain other registrations are valid until they are suspended or cancelled by the issuing authority but are subject to payment of registration fee at periodic intervals. Further, in accordance with the regulations formulated by SEBI and other regulatory authorities, we are required to intimate or obtain approvals, as the case may be, amongst others, for changes in our Board, changes in our shareholding pattern, and undertaking certain corporate actions.

Government and regulatory licenses and approvals may also be tied to conditions, some of which may be onerous to us and require substantial expenditures. We cannot assure you that in the future that the licenses, approvals and permits applied for or held by us will be issued, approved or renewed in a prompt manner, or at all, under applicable law. Our failure to renew or obtain such licenses and approvals in a timely manner, or at all, and comply with the provisions of the applicable laws and regulations could lead to suspension or cancellation of our registration or imposition of sanctions by the relevant authorities, including penalties.

If we are unable to make applications and renew or obtain necessary permits, licenses and approvals on acceptable terms, in a timely manner, at a reasonable cost, or at all, it could materially and adversely affect our financial condition and results of operations. For further details, please see the section entitled “Government and Other Approvals” on page 394.

12. ***We rely on the Indian exchanges for a significant portion of our business, and we are registered with such exchanges and are subject to the rules and regulations framed by such exchanges. Any disruption in the functioning of the exchanges or a disruption to our connection with the exchanges or failure to comply with exchange rules and regulations could have a material adverse effect on our business and results of operations.***

Our Broking Segment relies on the Indian exchanges, including NSE, NSE IFSC, BSE, MCX, MSEI, IIBX, ICEX and NCDEX, and the clearing corporations to execute and settle all our clients’ transactions. Our electronic brokerage platform and our systems for brokerage clients are connected to the exchanges and all orders placed by our clients are fulfilled through the exchanges. Any disruption in the functioning of the exchanges or a disruption to our connection with the exchanges could result *inter alia* in delayed execution or non-execution of transactions which could lead to our clients incurring losses, for which they could make a claim. Further, any prolonged disruption in the functioning of the exchanges or in our connection with the exchanges could have a material adverse effect on our business and results of operations.

To use the services of these various exchanges, we are required to be registered as their members. This registration subjects us to various exchange regulations and periodic inspections by such exchanges. We cannot assure you that we will be able to strictly comply with such regulations or that such inspections would not find any violations by us. Failure to comply with such regulations or the observations pursuant to inspection could lead to fines, penalties, suspension of our registrations, and in extreme circumstances, termination of our registration. For instance, the NSE has pursuant to an inspection undertaken passed an order dated June 6, 2020, levying a penalty of approximately ₹ 6.00 million on us, which it debited from our exchange dues account. We have preferred an appeal before the Securities Appellate Tribunal which is pending. If our registration with the exchanges is terminated, we will be unable to provide broking services, which will have a material adverse effect on our business, financial condition and results of operations.

13. ***Our continued success and growth will be dependent on our ability to retain and grow our client base and network of Authorised Person and relationship managers. Failure to retain and augment our client base could have a material adverse effect on our business, financial condition and growth prospectus.***

Our business operations have grown significantly in the recent past which is to a large extent correlated to the growth in our active client base (*Active clients are clients who have undertaken transactions in a Fiscal or in the 6 months ended September 30, 2024*), our average revenue per client (i.e., broking revenue over NSE Active Clients for the period) (**ARPC**), and the number of Authorised Persons who are associated with us. Accordingly, our ability to sustain our growth is materially linked to our ability to retain and expand our client base and network of Authorised Person and relationship managers. The table below sets out our number of Active Clients.

Particulars	As on September 30, 2024	As on March 31, 2024	As on March 31, 2023	As on March 31, 2022
Total number of Active Clients*	172,091	175,699	154,470	154,109

* Active clients means clients who have generated revenue during the relevant Financial Year / period.

During the 6 months ended September 30, 2024, and in Fiscals 2024, 2023 and 2022 our revenues from operations and our ARPC are set out in the table below.

*Not annualised

Further, relationship management has been one of the cornerstones of our client acquisition and retention model and, as on September 30, 2024, we employ 1,212 relationship managers and will need to provide better and customized services and products to differentiate ourselves and to retain our existing client base and attract new clients. Our ability to retain and augment our client base will depend on our ability to continuously provide service levels that are expected by our clients. As on September 30, 2024, we had 23 outstanding investor grievances with a claim value aggregating ₹ 18.50 million, pertaining to, amongst others, deficiency in service, incorrect or excess charge being levied, discrepancy in transaction statement etc. which are at various stages of resolution. Failure to retain and augment our client base could have a material adverse effect on our business, financial condition and growth prospectus.

14. ***We have high working capital requirements. Any failure in arranging adequate working capital for our operations may adversely affect our business, results of operations, cash flows and financial condition.***

Our business operations are subject to high working capital requirements. Set out in the table below are select aspects of our financial assets and financial liabilities, derived from our audited standalone financial statements.

Currently, we meet our working capital requirements through a mix of internal accruals and working capital facilities from scheduled commercial banks, loans from ARFSL, our Corporate Promoter, other related parties, and loans from others. Additionally, we have also raised capital through the issuance of secured redeemable non-convertible debentures. We also intend to utilise a portion of Net Proceeds towards funding our working capital requirements. For further details of the proposed objects of the Issue, see ‘Object of the Issue’ on page 139. As on December 31, 2024, our total outstanding borrowings (excluding vehicle loans) aggregating ₹ 18,654.84 million.

While we believe that our internal accruals, working capital facilities outlined above and the portion of the Net Proceeds of the Issue towards working capital, will be sufficient to address our working capital requirements, we cannot assure you that we will continue to generate sufficient internal accruals and, or, be able to raise adequate working capital from lenders to address our future needs. Our inability to meet our present working capital requirements or our enhanced working capital requirements will have an adverse impact on our results of operation, business and financial condition.

In addition, our Promoters viz., ARFSL, Anand Nandkishore Rathi and Pradeep Navratan Gupta, have also extended guarantees for some of the debt facilities availed by our Company. While no guarantee given by our Promoters has been invoked by the relevant lender, any invocation of such could adversely impact the ability of our Promoters to service these obligations. Further, any inability to continue to provide such guarantee or their inability to honour such guarantee could result in an acceleration of such facilities and, or, adversely impact our ability to raise debt which could impact our cash flows, result in cash flow mismatch and adversely affect our financial condition. For further details pertaining to our indebtedness, see ‘Restated Consolidated Financial Information’ and ‘Financial Indebtedness’ on pages 277 and 334, respectively.

15. ***We have incurred indebtedness including in the form of loans from banks and through the issuance of debt securities and may incur substantial additional indebtedness. Conditions and restrictions imposed on us pursuant to such indebtedness could adversely affect our ability to obtain financing in the future.***

As of December 31, 2024, our total sanctioned and outstanding indebtedness (including fund-based and non-fund based borrowings) was ₹ 24,290.46 million and ₹ 18,654.84 million, respectively. The indebtedness we have incurred includes financing from banks and from other entities including related

parties and through the issuance of secured redeemable non-convertible debentures. The level of our indebtedness could have several important consequences, including but not limited to the following:

- a significant portion of our cash flow may be used for repayment of our existing debt, which will reduce the available cash flow to fund our business operations;
- defaults of payment and other obligations under our financing arrangements may result in an event of default, acceleration of our repayment obligations and enforcement of related security interests over our assets;
- Fluctuations in market interest rates may require us to pay higher rates of interest for future financing and will also affect the cost of our borrowings; and
- our ability to obtain additional financing in the future or renegotiate or refinance our existing indebtedness on terms favourable to us may be limited.

Additionally, our financing agreements contain certain conditions and restrictive covenants that require us to obtain consents from respective lenders prior to carrying out specified activities and entering into certain transactions. Our lenders require us to obtain their prior approval for certain actions, which, amongst other things, restrict our ability to undertake various actions including incur additional debt, alter our share capital etc, which may hamper our efforts to improve our operating margins and carry out our growth strategies. While our Company has received necessary approval from its lenders and the debenture trustees (for the non-convertible debentures issued by our Company) to undertake this Issue, we cannot assure you that we will be able to obtain approvals to undertake any other aforementioned activities as and when required or comply with such covenants or other covenants in the future. For further details regarding our indebtedness, see ‘*Restated Consolidated Financial Information*’ and ‘*Financial Indebtedness*’ on pages 277 and 334, respectively.

Any failure to observe the covenants under our financing agreements or obtain the necessary waivers may *inter alia* lead to the termination of our credit facilities, trigger-cross default provisions, result in non-availability of further debt funding under the facilities either in whole or in part, or the acceleration payment obligations under such facilities, and, or, could lead to us having to restructure of our borrowings. Any of the above could strain our cash flow and affect the availability of funds for our business activities, which could adversely affect our results of operations.

16. ***We are dependent on technology in carrying out our business activities and information technology forms an integral part of our business. Failure or inadequacies in our information technology systems may hamper our ability to compete effectively which may result in lower revenue, higher costs and would adversely affect our business and results of operations.***

Our operations rely heavily on the effectiveness of our information technology systems and their ability to accurately and comprehensively record and process a large number of transactions on a daily basis and in a timely manner to provide a seamless transactional experience for our clients. In 6 months ended September 30, 2024, and Fiscals 2024, 2023 and 2022, we processed an average of 136,925, 117,029, 103,335, and 117,687 daily transactions, respectively. Therefore, our IT systems, and our ability to continually adapt such systems to evolving technologies and industry standards and practices, are critical to our continued success.

While we have put in place systems to ensure the efficacy and effectiveness of our operations including to ensure compliance with the applicable laws such as cyber security and data privacy, we continually work on strengthening our information technology systems to meet our clients’ requirements and keep pace with technological developments. Nevertheless, a prolonged disruption, or failure, of our information processing or communications systems would limit our ability to process transactions and could hamper our operations and adversely affect our competitiveness. While there have not been prolonged disruptions or failures of our IT systems, there have been various instances of technical software glitches such as the portfolio not being visible on our trading application, the last traded prices not being updated and critical failure of risk management application server for a few hours which resulted in regular automated fund information to the exchanges being delayed.

We are required to have business continuity plans and review them periodically, maintain disaster recovery centers and periodically conduct drills to test these measures, and even though we have taken necessary steps in this regard, we cannot assure you that there will not be unforeseen circumstances or that our disaster recovery planning is adequate for all eventualities. Further, failure to continually update

such plans or if our data recovery centers prove inadequate or if these are not properly maintained, our business and results of operations could be adversely affected, and we could be subject to regulatory action and penalties. For instance, on September 30, 2024, SEBI imposed a penalty of ₹ 1.00 million on us for *inter alia* failing to adequately adhere to the applicable regulatory framework with regard to business continuity plans and disaster recovery centers.

Further, with the rapid evolution of technology systems, the threats to such systems also multiply and we face varied challenges in dealing with threats including cyber-attacks, such as hacking, phishing and trojans, which could potentially exploit our network and disrupt services to clients and/or result in the theft of sensitive internal company data or client information. While we have an established cyber security policy to address and deal with cyber security and other technology related threats and risks, we cannot assure you that we will be able to prevent attacks before they occur or mitigate or minimise the risk if such threats materialise. In addition, while our systems are largely automated it is still subject to, and requires, human intervention and involvement at different levels, and we cannot rule out the possibility of human error affecting our technology systems.

Further, our technology systems are also vulnerable to disruptions due to catastrophic events, natural disasters, capacity constraints during peak trading times or times of unusual market volatility, power failure, computer viruses, spam attacks, ransom ware, distributed denial of services attacks, unauthorized access, data leakage and other similar disruptive events which we may not be able to prevent or mitigate against. An external information security breach, such as hacker attacks, frauds, virus or worm infestation of our IT systems, or an internal problem with information protection, such as failure to control access to sensitive systems, could materially interrupt our business operations or cause disclosure or modification of sensitive or confidential information. Disruptions to, or instability of, our technology or external technology, or failure to timely upgrade our online or mobile brokerage platforms could harm our business, reputation and prospects.

Our information security, including the security of our IT systems and back-office operations, are managed by us directly, and through our related parties. In particular, we rely on one of our related parties, Anand Rathi IT Private Limited, for software development and activities including for carrying out KYC verification and for call center and back-office operations. The proper functioning of our internet-based trading system, order routing system, back-office systems, settlement system, risk management system, financial controls, accounting, client database, client service and other data processing systems, together with the communications networks linking our IT systems with relevant exchanges, banks, depositories, registrar and transfer agents and client interfaces, is critical to our business and our ability to compete effectively. Our business activities would be materially disrupted in the event of a partial or complete failure of any of these IT systems, communication networks or their backup systems and procedures. While we have cyber risk insurance in place, any failure of, or inadequacies in our IT systems would impair our ability to service our clients and execute trades on behalf of clients, which could materially and adversely affect our competitiveness, financial condition, cash flow and results of operations. For further details see '*Risk Factors - We face various risks due to our reliance on third-party intermediaries, vendors and service providers. If these risks materialise it may result in litigation or regulatory action against us, which may have a material adverse effect on our business, reputation, financial condition and results of operations*' on page 65.

17. ***We could be subject to claims by clients or actions by regulators or both for alleged mis-selling. Any case of mis-selling, or fraud, could result in claims and fines against us and could have a material adverse effect on our business, financial condition, cash flows, results of operations and reputation.***

We sell our third-party distribution products to our clients who, in choosing the appropriate product, are assisted by our employees or Authorised Persons who explain the benefits of such product, disclose product features and advise clients on whether to continue with a particular product or change products. We cannot assure you that the process undertaken by our Company's personnel in assisting clients in purchasing such third-party products will be comprehensive or that it will not be viewed as being inadequate and we cannot rule out misconduct or malfeasance on the part of our employees or intermediaries or both. Such misconduct / malfeasance could include activities such as making mis-selling, fraudulent promises of high returns on investments, recommending inappropriate products and, or, recommending incorrect fund management strategies. Any case of inadequacy of our processes, mis-selling, or fraud, could result in claims and fines against us and could have a material adverse effect on our business, financial condition, cash flows, results of operations and reputation.

18. ***Our Company, Promoters, Subsidiary, Directors, Key Managerial Personnel, Senior Management, and Group Companies are involved in certain legal and regulatory proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, financial condition, cash flows, and results of operations.***

There are outstanding legal and regulatory proceedings involving our Company, Promoters, Subsidiary and Directors which are pending at different levels of adjudication before various fora. Such proceedings could divert the management's time and attention and consume financial resources in their defence or prosecution. The amounts claimed in these proceedings have been disclosed to the extent that such amounts are ascertainable and quantifiable and include amounts claimed jointly and severally, as applicable. Any unfavourable decision in connection with such proceedings, individually or in the aggregate, could adversely affect our reputation, business, financial condition, and results of operations.

With respect to details of criminal proceedings and statutory/ regulatory proceedings involving our Key Managerial Personnel and Senior Management, and outstanding material litigations involving our Group Companies, see ‘*Outstanding Litigation and Material Developments*’ on page 369. We cannot assure you that any of these matters will be settled in favour of our Company, Subsidiary, Promoters, or Directors, Key Managerial Personnel, Senior Management, or our Group Companies, respectively, or that no additional liability will arise out of these proceedings. An adverse outcome in any of these proceedings may have an adverse effect on our business, financial position, prospects, results of operations, and our reputation. For further details, see “*Outstanding Litigation and Material Developments*” on page 369.

Further, one of our Group Companies, Anand Rathi Wealth Limited has received a communication from the SEBI on August 29, 2024, requesting certain information in relation to an ongoing investigation. SEBI is currently investigating a case concerning suspected insider trading with regard to corporate announcements made on April 12 and April 8, 2024, regarding the consideration of a buyback. Our Company has already provided the majority of the requested information on various dates. The company currently is in the process of gathering the remaining details to be submitted to SEBI. In terms of SEBI (Issuing Observations on Draft Offer Documents Pending Regulatory Actions) Order, 2020, this Draft Red Herring Prospectus may be kept in abeyance for a period of 30 days or for such longer time as SEBI decides.

19. ***We are exposed to credit risk arising out of receivables in our day-to-day operations. If these credit risks materialise it would increase the level of our non-performing assets, and expose us to significant losses.***

We may suffer significant losses from credit exposures from our clients and counterparties. Our Broking Segment, in particular, is subject to the risk that a client or counterparty may fail to perform its obligations or that the value of any collateral held by us to secure the obligations might become inadequate.

We are exposed to credit risk arising out of receivables from clearing houses of exchanges which comprise initial margins placed with clearing houses and receivables relating to sales of securities which the clients have traded but are not yet settled. We square off and settle positions in client accounts through a trading system in accordance with our risk management policies. We are also exposed to credit risk with regard to our fixed deposits placed with banks – during the 6 months ended September 30, 2024, and in Fiscals 2024, 2023 and 2022, our income from deposits with banks was ₹ 610.87 million, ₹ 897.39 million, ₹ 422.80 million and ₹ 386.33 million.

We are dependent on a number of parties like brokers, exchanges, banks, registrars and share transfer agents, clearing houses and other intermediaries for transaction execution and, or, our day-to-day operations. Difficulties in assessing credit risks associated with our day-to-day lending operations may lead to an increase in the level of our non-performing assets, which could adversely affect our business prospects, financial condition and results of operations. Set out in the table below are our trade receivables for the periods indicated.

(in ₹ million)

Particulars	As on			
	September 30, 2024	March 31, 2024	March 31, 2023	March 31, 2022
Total trade receivables	2,691.21	2,475.93	2,051.03	1,429.89
Provision for credit impaired	(14.90)	(5.84)	(12.95)	(15.20)
Trade receivables considered good	2,676.31	2,470.09	2,038.08	1,414.69

While we have put in place risk management systems to monitor risk arising out of the open positions of the clients in our Margin Funding Business if any of these counterparties do not perform their obligations due to bankruptcy, lack of liquidity or for any reason whatsoever, and any collateral or security they provide proves inadequate to cover their obligations at the time of the default, we could suffer significant losses and it would have an adverse effect on our financial condition, cash flows, results of operations and cash flows. Any claim that we have would also be subject to enforceability of such claims. We are responsible for contracts entered into by us on behalf of our clients. Although we attempt to minimize our exposure to specific clients, these measures may not be sufficient. For example, we provide a margin lending product to our clients, allowing them to trade on the basis of margins that they deposit with us. While we had 'Nil' non-performing assets in our Margin Funding Business in each of the 6 months ended September 30, 2024, and in Fiscal 2024, Fiscal 2023 and Fiscal 2022, if our clients suffer significant losses and the margin that they deposited with us proves to be inadequate, due to unseasonal volatility or otherwise, we may suffer significant financial losses. Additionally, we also extend permissible short-term credit to our clients and face credit risks relating to such receivables if there is an adverse market movement.

20. *We distribute, on a non-exclusive basis, financial products of third-party institutions including mutual funds, structure products and portfolio management services. Failure to scale up our distribution business revenue and successfully cross-sell our products could adversely affect our results of operations and growth prospects.*

While our Broking Segment has consistently been our largest source of revenue, our revenue from distribution business has shown consistent growth. We distribute, on a non-exclusive basis, financial products of third-party institutions including mutual funds, structure products and portfolio management services, for which we have entered into agreements with the relevant third party entities. Set out in the table below is a break-up of the contribution of our distribution business to our revenue from operations, during the 6 months ended September 30, 2024, and in Fiscals 2024, 2023 and 2022.

Particulars	6 months ended September 30, 2024		Fiscal 2024		Fiscal 2023		Fiscal 2022	
	Revenue (in ₹ million)	% of revenue from operations	Revenue (in ₹ million)	% of revenue from operations	Revenue (in ₹ million)	% of revenue from operations	Revenue (in ₹ million)	% of revenue from operations
Mutual Fund commission income	160.80	3.64%	185.33	2.72%	145.17	3.10%	112.49	2.66%
Income from sale and distribution of financial products	80.25	1.82%	154.66	2.27%	191.72	4.10%	167.51	3.96%
Referral commission income	79.50	1.80%	124.59	1.83%	95.36	2.04%	39.86	0.94%
Total	320.55	7.26%	464.58	6.82%	432.25	9.24%	319.86	7.56%

As demonstrated above our revenues from our distribution business has grown at a CAGR of 20.52%, between Fiscal 2022 and Fiscal 2024. Our distribution business is an important aspect of our overall growth and is not as inextricably linked to the performance of the securities and commodities markets as our Broking Segment. Accordingly, our distribution business could continue to be steady source of revenue even in a downturn. The primary source of our distribution business, though, are our broking clients. Set out in the table below are the details of our broking clients to whom we cross-sold our distribution business products.

Particulars	6 months ended September 30, 2024	Fiscal 2024	Fiscal 2023	Fiscal 2022
No. of Active Clients	172,091	175,699	154,470	154,109
No. of Active Clients to whom we sold distribution business products	68,682	64,383	59,454	56,660
% of Active Clients to whom we cross-sold distribution products	39.91%	36.64%	38.49%	36.77%

Accordingly, our continued success and overall growth will be dependent on our ability to scale up our distribution business and successfully cross-sell our products, and any failure in either scaling up our distribution business and, or, successfully cross-sell our products could adversely affect our revenue from operations, profitability and our growth prospects.

21. ***We operate in an intensely competitive environment and our ability to succeed and grow is dependent on our ability to effectively compete in all aspects of our business.***

The Indian financial services industry is intensely competitive and the Broking Segment is particularly competitive with a sizeable number of large and small operators. As of December 12, 2024, there are almost 4,895 SEBI registered brokers under the equity segment. (Source: CARE Report) While a number of these entities may be smaller in size, each of these entities is a competitor. Further, a number of these entities both Indian and foreign could also be significantly larger than us in size, which would give them the benefits of economies of scale and other advantages. We compete on a number of factors including pricing, margins, products and services offered, and technology (i.e. the efficiency, speed, user interface, and ease of operability of our digital and online platforms. In addition, our brand and the reputation of the Anand Rathi group is one of the key aspects of our competitiveness.

Our competitors may have, amongst others, the following advantages over us:

- substantially greater financial resources and access to more capital and at lower cost;
- better technological systems and processes;
- a larger base of clients, including high value clients, and authorised persons;
- a better established and larger branch network;
- better pricing and margins;
- better products and service offerings;
- better sales and marketing strategies; and
- more diversified operations which allow utilisation of funds from profitable business activities to support business activities with lower, or no profitability.

For details of our peers who we compete with please see 'Our Business - Competition' on page 225.

India is one of the youngest countries in the world, with about 55% of the population under 35 years of age, in 2021. This young demographic is inclined towards digital solutions and wealth creation, with growing interest in investing in capital markets. (Source: CARE Report) While we provide online and digital platforms to investors, our competitors' products/offering may be more appealing, offer better user interface and features, be better marketed, etc. which could adversely affect our ability to target and expand our client base. Further, many of our product and service offerings in the stock broking segment are easy to replicate. This increases the risk of competition from commercial banks, other service

providers and distribution platforms to enter the market. Further, any consolidation in the Indian securities industry would also expose us to additional competitive pressures. These competitive pressures may affect our business, and our growth will largely depend on our ability to respond in an effective and timely manner to these competitive pressures. Over time, the industry has evolved significantly, largely due to technological advancements, with online trading platforms revolutionizing the way trades are executed. The shift to online stock trading has given rise to discount brokers in India. These brokers are gaining popularity due to their low, fixed brokerage fees, which apply regardless of trade value. (*Source: CARE Report*) We face competition from discount brokers as well. Our business, financial condition, cash flows, results of operations and prospects may be materially and adversely affected if we are not able to maintain our market position, sustain our growth, develop new products or broaden our client base and address new emerging trends and requirements. In addition, competitive pressures and regulatory changes may also lead to downward pressures on our brokerage commission rates, which could also affect our financial condition and results of operations.

Further, technology is an essential aspect of our business operations, and we expect that the superior or more user-friendly effective technology is going to be a key aspect of future growth and competition. Some of our competitors may be nimbler and may have greater resources at their disposal to adapt to the evolving technological and other changes, which could hamper our ability to retain existing clients and Authorised Persons and grow our business, in addition to adding to pricing pressure, and any or a combination of any of the above, may adversely affect our results of operations and financial condition. For a comparison of certain financial aspects of us and our peers, please see '*Basis for the Issue Price - Comparison of accounting ratios with listed industry peers*' on page 149.

22. ***Certain corporate records of our Company are untraceable and our Company has inadvertently, in the past, made corporate filings with factual inaccuracies.***

Our Company has been unable to trace certain corporate records pertaining to list of allottees Form MGT-14 for submission of Board resolution for appointment of our chief financial officer, ROC challans for certain Form-2 (return of allotment) submitted by our Company with the RoC and list of allottee in relation to an allotment of equity shares by our Company. Our Company had engaged an independent practicing Company Secretary, Anjana Sharma & Associates to trace these records as per digital records maintained in the records of the RoC and our Company's records. The independent practicing Company Secretary, was unable to trace the said corporate records, as set out in its certificate dated December 13, 2024.

Additionally, there have been two instances of factual inaccuracy and incorrect filing in our corporate filings and records. Inadvertently, in terms of the Board resolution dated December 31, 1999, 30,000 equity shares were allotted to Metro Woven Sacks Ltd. instead of Network Synthetics Pvt. Ltd. Details of the allottees have been added based on the list of allottees enclosed to Form 2 filed by our Company with the RoC for the allotment dated December 31, 1999 wherein 48,000 equity shares were allotted to Network Synthetics Pvt. Ltd. While the Board resolution dated February 3, 2001 states that our Company allotted 133,785 equity shares, the Form 2 filed by our Company with the RoC for this allotment, inadvertently, states that our Company allotted 115,385 equity shares on February 3, 2001 instead of 133,785 equity shares. While our Equity Share Capital is accurately reflected in the records of the Ministry of Corporate Affairs, and no action has been initiated by the RoC against our Company with respect to such inaccuracies, we cannot assure you that the RoC will not take any action in the future in this regard.

23. ***A significant decrease in our liquidity could negatively affect our business, in particular the Broking Segment, reduce client confidence in us and may also adversely impact our brand.***

Our liquidity is dependent upon our timely access to, and costs associated with raising, capital. Our funding requirements historically have been met from a combination of loans, issuance of non-convertible debentures and working capital facilities as well as equity contributions. As of December 31, 2024, our total sanctioned and outstanding indebtedness (including fund-based and non-fund based borrowings) was ₹ 24,290.46 million and ₹ 18,654.84 million, respectively. For details of our outstanding borrowing please see '*Financial Indebtedness*' on page 334.

Maintaining adequate liquidity is crucial to our operations, particularly, our brokerage operations, including key functions such as transaction settlement and margin funding and other business activities with substantial cash requirements. We place margins with clearing houses of respective exchanges,

which may fluctuate significantly from time to time based on the nature and volume of our clients' trading activity. Although we meet our liquidity needs primarily through cash generated from operating activities, internal accruals and debt, we are not permitted to raise debt beyond a specific limit, specifically to fund our margin funding requirements. A reduction in our liquidity could affect our ability to trade on the exchanges, and reduce the confidence of our clients in us, which may result in the loss of client accounts, all of which would affect our revenues, business prospects and growth.

We provide broking services across the equity, commodity, derivatives and currency segments, for which we offer margin-based products on our brokerage platform, wherein clients are required to deposit the prescribed initial margin for the transaction executed by us on their behalf and thereafter pay the balance amount. Accordingly, if a client fails to pay the balance amount on or before the due date, then it may affect our liquidity. In the event of high market volatility or adverse movements in share prices, it is possible that clients may not, or may be unable to, honour their commitment, and, consequently, any inability on our part to pay the margins or honour the pay-in obligation to the exchanges, or both, may be detrimental to our business, reputation and profitability.

Factors that may adversely affect our liquidity position include a significant abrupt increase in our broking services, volatile markets, and settlement of large transactions on behalf of our brokerage clients. We use cash generated from our operating activities and external financing to meet our liquidity or regulatory capital requirements. During periods of disruption in the credit and capital markets or changes in the regulatory environment, potential sources of external financing could be limited and our borrowing costs may increase. External financing may not be available to us on commercially acceptable terms, or at all, due to disruptions in the credit and capital markets, changes in regulations relating to capital raising activities, general market conditions for capital raising activities, and other economic and political conditions outside our control.

Any of the risks highlighted above in relation to a decrease in our liquidity, could have a material adverse effect on our brand, business, results of operation and prospects.

24. ***There have been certain instances of delays in payment of statutory dues by our Company in the past. Any delay in payment of statutory dues by our Company in the future may result in the imposition of penalties and in turn may have an adverse effect on our Company's business, financial condition, results of operation and cash flows.***

25. ***We may fail to detect money laundering and other illegal or improper activities on a timely basis, which may lead to criminal and, or, regulatory proceedings against us which could have a material adverse effect on our reputation, business operations, financial condition and results of operation.***

We are required to comply with applicable anti-money laundering laws and regulations. These laws and regulations require financial institutions to establish sound internal control policies and procedures with respect to anti-money laundering monitoring and reporting activities. Such policies and procedures require us to, among other things, establish or designate an anti-money laundering framework, conduct client identification in accordance with relevant rules, duly preserve client identity information and transaction records and report suspicious transactions to relevant authorities.

We deal with a large number of clients and continuously onboard new clients including through our Authorised Persons and handle large volumes of monetary transactions. While we comply with applicable laws while onboarding our clients and with regard to preservation of records, and believe that we have put in place robust systems and oversight mechanisms, and there have been no instances of misuse of our operations for money laundering or other illegal activities, we cannot assure you that we will be able to preclude misuse of our operations by malfeasant entities or that we will be able to identify money laundering and other illegal activities in a timely manner or at all.

If the controls and measures implemented for detecting or eliminating money laundering or other improper or illegal trading activities are considered inadequate under applicable laws and regulations by any regulatory, governmental or judicial authority, we may be subject to penal action, freezing or attachment of our assets, imposition of fines, or both. We cannot assure you that the controls and measures implemented by us are adequate to detect or eliminate instances of money laundering or illegal trading activities in a timely manner or at all. Any such lapse may adversely affect our reputation, business operations, financial condition and results of operations.

26. ***Regulatory, legislative or self-regulatory developments regarding privacy and data security could adversely affect our ability to conduct our business and impact our financial condition. Further, we face substantial legal and operational risks in safeguarding personal information and it may not be possible to completely eliminate the risk of security breaches.***

Our business is subject to complex and evolving laws and regulations, including laws governing the privacy and protection of personal information of individuals. The protected parties include:

- our clients;
- our Authorised Persons;
- our employees; and
- employees of our intermediaries, counterparties, vendors and other third parties.

The acquisition and secure processing, transmission and storage of sensitive, personal, confidential and proprietary information are critical elements of our operations, including our trading, clearing and settlement, and research businesses. We are exposed to significant risks related to data protection and

data security due to, among others, our electronic broking platform involving extensive data transmission and processing, our reliance on licensed technologies and outsourced employees for some of the key components of our IT systems and their maintenance. Moreover, privacy and data protection laws constantly evolve and complying with additional requirements could increase our operational costs, affect product development and require significant oversight which could affect operational efficiencies.

Our information security, including the security of our IT systems and back-office operations, are managed by us directly, and through our related parties. In particular, we rely on one of our related parties for software development and activities including for carrying out KYC verification. We rely on our in-house security systems and employees, and those of certain third-party vendors and service providers in conducting our operations. Those technologies, systems and networks may become the target of cyber-attacks or information security breaches that could result in the unauthorized release, gathering, monitoring, misuse, loss or destruction of our or our clients' confidential, proprietary and other information, identity theft or disruptions of and errors within our systems. Data security breaches may also result from fraud, other misconduct or lack of adequate safeguards by our employees, third-party vendors, business associates, and clients, clerical and recordkeeping errors or other unintentional accidents caused by any of these parties, all of which could harm our reputation and subject us to regulatory action or claims for damages.

We cannot assure you that our existing security measures will prevent all security breaches, intrusions or attacks. A party, whether internal or external, that is able to circumvent our security systems could have access to confidential information or cause significant disruptions to our systems. Security breaches or attacks could result in our competitors obtaining strategically important information about us and give them a competitive advantage over us and could cause us reputational harm or lead to regulatory sanctions, litigation and, or, loss of business. Further, with the evolving nature of technology and the threats thereto, we may need to expend significant resources to protect against security breaches, intrusions, attacks or other threats or to address problems including reputational harm and litigation, caused by breaches.

Furthermore, we cannot ensure that all of our clients, intermediaries, vendors, counterparties and other third parties have appropriate controls in place to protect the confidentiality of the information exchanged between them and us, particularly where information is transmitted by electronic means. We could be exposed to litigation or regulatory fines, penalties or other sanctions if personal, confidential or proprietary information of clients, intermediaries, employees or other third parties were to be mishandled or misused, such as situations where such information is:

- erroneously provided to parties who are not permitted to have the information; or
- intercepted or otherwise compromised by third parties.

Any failure in our system or any security breach including theft of data, whether internal or external, on our system may have a significant impact on our business operations. Such failure of our system or security breach may also result in the loss of information and personal data that we have collected and stored. For instance, between September 27, 2024 and September 30, 2024, an unknown person breached our computer network and obtained the KYC records of approximately 0.16 million clients, in addition to causing a loss of ₹ 5.7 million (plus GST) to our Company, for which we have filed a complaint with the relevant police authorities. There can be no assurance that security measures taken by us will be sufficient to prevent security breaches. Further, our Company may be subjected to additional costs in the event of any security breach and consequent loss of personal data or may be subjected to legal proceedings, the outcome of which may have an adverse effect on the revenue.

27. *Our Corporate Promoter has pledged 29.75% of its equity shareholding in our Company. If the pledge is invoked its shareholding and control over our Company could be reduced to that extent*

As on date of this Draft Red Herring Prospectus, ARFSL, our Corporate Promoter has pledged 13,195,293 Equity Shares aggregating 29.75% of our total Equity Share Capital, (**Pledged Shares**). We cannot assure you that if or when the pledge will be released. If the pledge is invoked for any reason, our Corporate Promoter's shareholding and control over the Company in our Company will be reduced to that extent. Further, if the pledge against all the Pledged Shares is invoked it could result in a change in control of our Company.

28. *If research reports disseminated by us contain errors, then it could have a material adverse effect on our business, financial condition or results of operations.*

As of September 30, 2024, our research team comprises 60 employees and covers 318 companies across sectors. Our research team provides our clients with research covering recommendations on various quantitative and qualitative research requirements relating to the securities markets such as equity fundamentals, derivatives, commodities, and mutual funds, in addition to macroeconomic or industry-related research. Research analysts and the report generated are subject to the applicable SEBI framework. Although, we exercise due care and caution prior to issuing research recommendations and we comply with applicable law, the accuracy, adequacy or completeness of such information cannot be guaranteed *inter alia* because our research report and the recommendation contained therein are based on information obtained from third party sources and information that is generally available in the public domain. Errors or omissions in the information or for the results obtained from the use of such information may cause our research findings to be incorrect. Further, certain industry and market data may be subject to assumptions, and methodologies for assumptions vary widely among different data sources. Additionally, such assumptions may change due to various factors which are beyond our control. Accordingly, there can be no assurance that our assumptions, or those relied upon by us, will be accurate or that such assumptions will not change – any such change could affect the accuracy of our research findings. While there have been no instances in the immediately preceding 3 Fiscals and in the 6 months ended September 30, 2024, inaccurate research report or recommendations may expose us to client complaints, have a materially adverse effect on our brokerage and distribution businesses, and may subject us to regulatory action which may harm our reputation, which could subsequently have a material adverse effect on our business, financial condition or results of operations.

29. ***We are heavily reliant on our Promoters, Key Managerial Personnel, and Senior Management. Failure to retain or replace them will adversely affect our business.***

The success of our business operations is attributable to our Promoters, Key Managerial Personnel and Senior Management. We believe that the experience of our Promoters, our Key Managerial Personnel and Senior Management team has enabled us to experience consistent growth and profitability as well as a robust liquidity and capital position. We benefit from the strategic vision, expertise and experience of our Promoters and our Executive Directors who continue to be integral to our operations, growth and profitability. Our business is also benefitted by the brand image and the goodwill enjoyed by the Anand Rathi group.

Our ability to sustain our growth depends upon our ability to attract and retain key personnel, developing managerial experience to address emerging business and operating challenges and ensuring a high standard of client service. The trust and confidence our clients place in us are largely a reflection of the skills, reputation, and leadership provided by our Key Managerial Personnel, senior management and, given that relationship management has been one of the cornerstones of our client acquisition and retention model, our relationship managers also are an important aspect of our success. The following table sets forth the attrition rate of our KMP (excluding our Chairman and Managing Director and Whole Time Directors) and senior management for the periods indicated below:

Particulars	6 months ended September 30, 2024	Fiscal 2024	Fiscal 2023	Fiscal 2022
Total number of KMP and senior management	9	10	9	7
Attrition rate of KMP and senior management* (%)	10.53%	Nil	12.50%	Nil

* Attrition rate has been calculated as the number of employees who have resigned during the period, divided by the number of employees at the end of the period.

To further strengthen our retention of key employees and directors, we have put in place an employee stock option (ESOP) scheme (ESOP Scheme 2023) as amended and approved on November 15, 2024. For further information relating to our ESOP Scheme, see 'Capital Structure - Employee stock options scheme' on page 135.

If we are unable to retain our existing pool of KMP and senior management, unable to hire additional qualified personnel, our ability to expand our business will be impaired and our results of operations could be adversely affected.

30. ***We face certain risks related to our distribution business including a reduction in commission paid to us which may have an adverse effect on our business, financial condition, cash flows, results of operations and prospects.***

We distribute financial products issued by third-party institutions, including through our digital and online platforms. These financial products include mutual funds and portfolio management services, for which we have entered into agreements with the relevant third-party entities. The structure of third-party products that we distribute and services that we refer clients to may be complex and involve various risks, including credit risks, interest risks, liquidity risks and other risks. Further, we do not have any control over the performance of these products or the management of the third-party entities which issue these products. In the 6 months ended September 30, 2024 and in Fiscal 2024, Fiscal 2023, and Fiscal 2022, our revenue from the sale of third-party products was as set out in the table below.

Particulars	6 months ended September 30, 2024		Fiscal 2024		Fiscal 2023		Fiscal 2022	
	Revenue (in ₹ million)	% of revenue from operations	Revenue (in ₹ million)	% of revenue from operations	Revenue (in ₹ million)	% of revenue from operations	Revenue (in ₹ million)	% of revenue from operations
Mutual Fund commission income	160.80	3.64%	185.33	2.72%	145.17	3.10%	112.49	2.66%
Income from sale and distribution of financial products	80.25	1.82%	154.66	2.27%	191.72	4.10%	167.51	3.96%
Referral commission income	79.50	1.80%	124.59	1.83%	95.36	2.04%	39.86	0.94%
Total	320.55	7.26%	464.58	6.82%	432.25	9.24%	319.86	7.56%

We face certain other risks in relation to our distribution business, including:

- any adverse change in the relationship with a third-party provider or decrease in distribution commissions which are generally set by the third-party providers whose products and services we distribute;
- regulatory changes affecting distribution arrangements, including commission levels; and
- changing client preferences with respect to products that we distribute.

Further, clients may choose to directly buy financial products from the third-party entities, without routing such purchases through us. Any or a combination of the above risks could have a material adverse effect on our business, financial condition and results of operations.

While as a third-party distributor, we are not directly liable for any investment loss from, or default of, the products we distribute to our clients, we may be subject to client complaints, litigation and regulatory investigation, which could have an adverse effect on our reputation and business. For example, we may not be able to identify and quantify the risks of these products, fail to identify fraudulent, inaccurate or misleading information from the third-party provider, and our sales employees may fail to disclose such risks to our clients, in which case, our clients may invest in financial products that are too risky for their risk tolerance and investment preference, and may suffer a significant loss. This may also subject us to client complaints and litigation and negatively affect our reputation, client relationships, results of operations and business prospects. Please also see risk factor “*We could be subject to claims by clients or actions by regulators or both for alleged mis-selling.*” on page 48.

31. ***We have in the past entered into related party transactions and may continue to do so in the future, and there can be no assurance that we will not achieve more favourable terms if such transactions are not entered into with related parties.***

We have in the ordinary course of business entered into transactions with related parties in the past and from time to time, we may enter into related party transactions in the future including availing of unsecured loans. While we believe none of such transactions are prejudicial to the interests of our Company, all such transactions have been conducted on an arm's length basis, in accordance with the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transactions and contain commercially reasonable terms, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties.

The table below provides details of our aggregate amount of related party transactions (income) and as a percentage of our revenue from operations for the 6 months ended September 30, 2024, Fiscal 2024, Fiscal 2023 and Fiscal 2022:

For further information on our related party transactions, see 'Summary of the Issue Document – Summary of Related Party Transactions' and 'Restated Consolidated Financial Information - Note 43 Related Party Disclosure' on page 312.

Further, it is likely that we may enter into additional related party transactions in the future. While such related party transactions will be undertaken in accordance with the applicable requirements under the SEBI Listing Regulations, and there have been no conflicts of interest in the current Fiscal and the immediately preceding 3 Fiscals we cannot assure you that we will be able to address such conflict of interest in future. For further detail, see 'Risk Factor - Some of our Group Companies and some of our directors are associated with companies which operate in a similar line of business as our Company,

which may lead to competition with these entities and could potentially result in a loss of business opportunity for our Company.’ on page 73.

32. ***Our financial performance is subject to interest rate risk, and an inability to manage our interest rate risk may have a material adverse effect on our business prospects, financial condition and results of operation.***

Interest rates are highly sensitive and fluctuate based on many factors which are beyond our control, including the monetary policies of the RBI, de-regulation of the financial services sector in India, domestic as well as international economic and political conditions, inflation and other factors.

Our results of operations, including our interest income from margin funding are dependent on our ability to manage our interest rate risk. Our funding arrangements also include both fixed and floating rate borrowings. As on September 30, 2024, 34.33% and 65.67% of our outstanding debt was on fixed and floating rates of interest, respectively. Our finance costs in the 6 months ended September 30, 2024, and in Fiscal 2024, Fiscal 2023 and Fiscal 2022, are set out below.

Particulars	For 6 months ended September 30, 2024	Fiscal 2024	Fiscal 2023	Fiscal 2022
Finance costs (₹ million)	649.54	965.40	494.60	373.01
Finance costs as a % of revenue from operations	14.70%	14.16%	10.57%	8.81%

Further, we charge interest at a fixed rate in our Margin Funding Business, which generated revenues of ₹ 554.63 million, ₹ 759.25 million, ₹ 542.16 million and ₹ 328.66 million in the 6 months ended September 30, 2024, and in Fiscal 2024, Fiscal 2023 and Fiscal 2022, respectively. Any volatility resulting in an increase in interest rates may adversely affect our business due to, amongst others, reducing profitability margin on our financing products. In the event of a declining interest rate environment, if our cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, it could adversely impact our interest income from financing activities and net interest margin. Additional risks arising from increasing interest rates, among others, include a reduction in the number of clients availing of margin funding and an increase in defaults on margin funded facilities. Further, interest rates may also affect our clients’ investment profile and high interest rates may reduce the attractiveness of equity or equity-linked investments of our clients.

There can be no assurance that we will be able to adequately manage our interest rate risk. If we are unable to effectively manage our interest rate risks, it could have an adverse effect on our business prospects, financial condition and results of operations.

33. ***Our consolidated revenue has grown significantly in the recent past, and our continued growth is dependent on our ability to effectively implement our business strategies. Any slowdown in our growth, whether in absolute terms or relative to industry trends could adversely affect our market position and a loss of our market position could adversely affect our ability to sustain our growth.***

Our revenue from operations grew at a CAGR of 26.90% between Fiscal 2022 and Fiscal 2024. Our revenue from operations during the 6 months ended September 30, 2024, Fiscal 2024, Fiscal 2023 and Fiscal 2022 was ₹ 4,417.18 million, ₹ 6,817.88 million, ₹ 4,678.26 million and ₹ 4,233.65 million, respectively. Our continued growth will be dependent on our ability to effectively and efficiently implement our business strategies. In addition, our growth is dependent on various factors including competitive pressures, and our ability to *inter alia* increase our average revenue per client, augment and diversify our client base, and improve our digital capabilities. For further details please see ‘Our Business – Strategies’ on page 214. Sustained growth may place significant demands on our administrative, operational and financial resources, which we may be unable to handle. Our growth will also depend on external factors affecting the Indian securities markets. For further details see risk factor *Any downturn or disruption in the securities markets, which are affected by general economic and market conditions in India and globally, may have a material adverse effect on our business, financial condition, cash flows,*

results of operations and prospects on page 36. Any slowdown in our growth, whether in absolute terms or relative to industry trends could adversely affect our market position and a loss of our market position could adversely affect our ability to sustain our growth.

34. ***We depend on the accuracy and completeness of information about clients and counterparties for our business. Any misrepresentation, errors in or incompleteness of such information could adversely affect our business and financial performance.***

We rely significantly on the information furnished to us by, or on behalf of, clients (including in relation to their financial transactions and past credit history) for various aspects of our business operations, such as new client enrolment, appointing new Authorised Persons and servicing our clients. We may also rely on certain representations from our clients as to the accuracy and completeness of the information provided by them. We may receive inaccurate or incomplete information as a result of inadvertence, negligence or deliberate misrepresentation. Our risk management measures may not be adequate to prevent such activities or detect inaccuracies in such information in a timely manner, or at all, which may expose us risks including pertaining to allegations of fraud, money laundering etc, and expose us to regulatory and criminal proceedings, which may adversely affect our reputation, business prospects, financial condition and results of operations.

35. ***Downgrading of our credit rating could adversely affect our results of operations and financial condition***

Any downgrading of our credit rating may adversely affect our ability to borrow debt funds or increase the cost of our debt funding.

36. ***Our business is significantly linked to the strength of the Anand Rathi group brand name which we are permitted to use. Any dilution of the brand, would adversely affect our business and financial condition. Further, inability to obtain or protect our intellectual property rights may adversely affect our business.***

We rely heavily on the brand value and reputation of the Anand Rathi group brand name which has a diverse range of financial services business under its umbrella. We are permitted to use the brand name 'Anand Rathi' for legitimate business purposes pursuant to a brand usage letter dated March 11, 2019, issued by ARFSL, our Corporate Promoter for which we pay brand usage charges based on our profit before tax and gross revenue, calculated in the prescribed manner. The trademark  has been

registered by ARFSL. Our use of the brand is subject to the continued permission to use it. Set out below are our expenses towards brand charges paid to ARFSL.

Particulars	For the 6 months ended September 30, 2024		Fiscal 2024		Fiscal 2023		Fiscal 2022	
	Amount (in ₹ million)	% of revenue from operations	Amount (in ₹ million)	% of revenue from operations	Amount (in ₹ million)	% of revenue from operations	Amount (in ₹ million)	% of revenue from operations
Brand charges	15.35	0.35%	34.14	0.50%	23.43	0.50%	19.09	0.45%

Our success depends in part on our ability to leverage the strength of the Anand Rathi group brand name. Any harmful effect on the Anand Rathi group brand name, due to an adverse change among clients with regard to the perceived service quality of other companies in the Anand Rathi group, its credibility or financial viability, or any other factor affecting the brand could cause clients to be less interested in our products and services. If the strength of the Anand Rathi group brand name is diluted for any reason, our business and financial condition may be adversely affected. If we unable to use the brand for any reason whatsoever our business, results of operation and financial condition may be adversely affected.

Further, as on the date of this Draft Red Herring Prospectus, our Company has made an application for

registration of trademark and , which are currently objected. In the absence of registration of these trademarks, our ability to protect our intellectual property may be diluted to such extent, and could adversely affect our reputation and business which could in turn adversely affect our financial performance and the market price of Equity Shares. We also cannot assure you that these trademarks which are objected, will be registered in our name, and we will continue to enjoy uninterrupted use of these trademarks. Any claim of intellectual property infringement from third parties, regardless of merit or resolution of such claims, could force us to incur significant costs in responding to, defending, and resolving such claims, and may divert the efforts and attention of our management and technical personnel away from our business. Our inability to obtain or maintain our trademarks in our business, could adversely affect our reputation, goodwill, business prospectus, and results of operations. Further, these applications are made in India under the provisions of the Trade Marks Act, 1999. Accordingly, upon registration, our Company will only be able to protect its rights in relation to these marks in India only. There can be no assurance that our rights to use such marks will be equally protected in any jurisdiction outside India

We also cannot assure you that ARFSL will renew the trademark registration or that we will continue to be permitted to use the brand. Further, the use of the brand name or logo by third parties or any adverse impact on the brand could adversely affect our reputation and business, which could, in turn, adversely affect our financial performance. We may also be susceptible to claims from third parties asserting infringement and other related claims. Since the 'Anand Rathi' brand is not owned by us, our ability to take steps to protect the unauthorised use of the brand is limited. Any of the foregoing could adversely affect our business, results of operations, cash flows and financial condition.

37. ***We face various risks due to our reliance on third-party intermediaries, vendors and service providers. If these risks materialise it may result in litigation or regulatory action against us, which may have a material adverse effect on our business, reputation, financial condition and results of operations.***

We rely on third parties, such as stock exchanges, clearing houses and other financial intermediaries to facilitate our financial transactions. In addition, we rely on other third-party entities, as may be applicable, to help distribute our products. We are exposed to various risks related to the business of such third parties, including the following:

- fraud or misconduct, including mis-selling, by such third parties;
- operational failure of such third parties' systems;
- adverse change or termination in our relationship with such third parties;

- failures in legal or regulatory compliance, inadequate due diligence in sales process, or inadequate controls, including KYC checks (which in our case are undertaken by a related party entity) by such third parties;
- regulatory changes relating to the operations of such third parties;
- violation of laws and regulations, including those relating to licensing or registration of sales intermediaries, by such third parties; and
- regulatory actions due to improper business practices of such third parties.

If any of the above risks materialise it may result in litigation or regulatory action against us, which may have a material adverse effect on our business, reputation, financial condition and results of operations. For further details, please see the section entitled “*Outstanding Litigation and Material Developments*” on page 369.

We also outsource certain of our operations to third-party service providers and rely on such third-party service providers for some of our operational needs. We cannot assure you that our third-party service providers or service providers will comply with regulatory requirements or meet their contractual obligations to us in a timely manner, or at all. Third-party service providers or service providers may breach the agreements they have with us because of factors beyond our control. They may also terminate or refuse to renew their agreements because of their own financial difficulties or business priorities, potentially at a time that is costly or otherwise inconvenient for us. In addition, if our third-party service providers or providers fail to operate in compliance with regulations or corporate and societal standards, we could suffer reputational harm by association, which could affect the ‘*Anand Rathi*’ brand, and would likely cause a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

We also rely on third parties to provide certain critical trading infrastructure and software. If the third parties upon which we rely cannot expand system capacity to handle increased demand, or if any of their systems fail to perform or experience interruptions, malfunctions, disruptions in service, slower response times or delays, then we could incur reputational damage, regulatory sanctions, litigation and loss of trading, any of which could materially adversely affect our business, financial condition and results of operations.

In addition, we license certain software and technology from third parties. Any premature termination of our license agreements or the loss of the ability to use such software or technology for any reason would have an adverse impact on our business and operations. Rapid changes in our industry or technology may also result in our licensed technologies being recalled or discontinuation of support for outdated products or services. Any deficiencies in the infrastructure used, or processes adopted, by such third parties could have a material adverse effect on our business, results of operations and prospects.

38. ***There are operational risks associated with our business activities which, if realised, may have a material adverse effect on our business, financial condition, cash flows, results of operations and growth prospects.***

We face various operational risks related to our business operations including:

- human and systems errors, including in the confirmation, entry or settlement of transactions, due to the complexity and high volume of transactions;
- deviations from defined processes and inadvertent errors;
- delay or failure to timely execute instructions or complete transactions including transactions pertaining to the transfer, pledge or un-pledge securities to and from depository participants;
- failure to establish and maintain an effective controls and compliance oversight over our employees;
- failure of technology in our processes, including risk management and settlement processes, causing errors or disrupting our operations;
- delay or disruption in timely completion of obligations by market and other intermediaries including banks, exchanges, depositories and other participants;

- failure of our complex automated risk management systems due to incorrect or inadequate algorithms;
- failure to comply with other applicable laws, regulations, accounting norms or regulatory policies; and
- inadequate due diligence, including with respect to client verification and KYC processes.

If any or a combination of the foregoing were to occur, it could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.

Additionally, we also face the risk of regulatory penalties from the exchanges or regulators for failures of routine operational processes. In the past, we have been penalised by the regulators and exchanges for non-compliance with regulations, rules and byelaws relating to operational failure, including in connection with cases of operational failures beyond our control, and we cannot assure you that such failures, consequent penalties will not be imposed in future. For certain instances of action against us by SEBI, please see 'Risk factor - We are subject to extensive statutory and regulatory requirements and supervision.' on page 41.

40. ***Objects of the Issue for which the funds are being raised have not been appraised by any bank or financial institutions. Any variation in the utilization of our Net Proceeds as disclosed in this Draft Red Herring Prospectus would be subject to certain compliance requirements, including prior Shareholders' approval.***

We propose to use the Net Proceeds towards long-term working capital requirements and general corporate purposes. For details, see "Objects of the Issue" on page 139. The proposed deployment of Net Proceeds has not been appraised by any bank or financial institution or other independent agency and is based on internal management estimates based on current market conditions and historic level of expenditure. Any variation in the utilization of the Net Proceeds may be on account of a variety of factors such as our financial condition, business and strategy and external factors such as market conditions and the competitive environment in which we operate, which may not be within the control of our management, and would be subject to various other approvals, which include obtaining prior approval of the Shareholders of the Company and applicable law. Various risks and uncertainties, including those set forth in this "Risk Factors" section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. Accordingly, the use of the Net Proceeds to fund our growth and for other purposes identified by our management may not result in actual growth of our business, increased profitability or an increase in the value of our business and your investment.

41. ***We have a large pool of employees and employee benefits expense is a significant portion of our total expenses. Also, our operations could be adversely affected by strikes or increased wage demands by our employees which could adversely affect our operations and our profitability.***

We operate in a human resource intensive industry and if our relationship with our employees deteriorates, we may experience labour unrest, strikes or work stoppages. While we consider our current employee relations to be good, and we have no trade unions in our Company, we cannot assure you that we will not experience disruptions at work due to disputes or other problems with our work force, which may adversely affect our ability to perform our obligations under our contractual arrangements. Any disputes may also result in disruptions in our operations, which may adversely affect our business and results of operation. In addition, disputes with our employees could also impact our reputation. While we have not faced any significant disputes with our employees, as a collective, we cannot assure you that there will be no such issue in future.

We will need to recruit new employees, who will have to be trained and integrated into our operations. We will also have to train existing employees to adhere properly to the ever-evolving regulatory environment, internal controls and risk management procedures. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, require additional hiring, reduce the quality of client service, divert management resources, increase our exposure to high-risk credit and impose significant costs on us.

Further, we cannot assure you that we will not incur similar or increased levels of contingent liabilities in the future.

45. ***If we are subject to any frauds, theft, or embezzlement by our employees, Authorised Persons or others we are associated with, it could adversely affect our reputation, results of operations, financial condition and cash flows.***

Our operations may be subject to incidents of fraud, theft or embezzlement by our employees, Authorised Persons or other persons we are associated with. While there has not been any instance of material fraud, theft, or embezzlement in the 6 months ended September 30, 2024 and in the immediately preceding 3 Fiscals, we cannot assure you that we will not experience any fraud, theft, embezzlement or similar incidents in the future, which could adversely affect our financial condition and business. Further, we also incurred negative cash flows as set out above from our investing activities. 47. ***Our Company has not declared dividends in the immediately preceding 3 Fiscals and the current Fiscal. We cannot assure you that our Company will be in a position to pay dividends in the future. Our Company has not declared any dividend in immediately preceding 3 Fiscals and the current Fiscal. In terms of our dividend policy our Company will pay dividends in future depending on a variety of factors including (i) profits for the year and future outlook of our Company; (ii) working capital needs and operating cash flow of our Company; (iii) capital expenditure requirements of our Company; (iv) our investment plans and related cash utilisation; (v) past dividend trends; (vi) regulatory constraints impacting business, bank interest rate on surplus funds, dividend pay-out ratios of the peer companies, macro-economic factors and general business environment, and any other factors that our Board may deem fit. Further, our Promoters will continue to hold a significant portion of our post-Issue paid-up Equity Share capital and will have a significant ability to control the payment and, or, the rate of dividends. Additionally, we may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. Therefore, we cannot assure you that our Company will be able to declare dividends, of any particular amount or with any frequency in the future. We cannot assure you that we will have the right to occupy these premises in the future, or that we will be able to continue with the uninterrupted use of these premises, including due to any non-compliance by, or disputes as to title of, the counter-party which may impair our operations and adversely affect our financial condition. We cannot assure you that we will be able to renew the leave and license / rent agreements in a timely manner or at all. Further, identification of a new location to house our operations and relocating our offices to the new premises may place significant demands on our senior management and other resources and also involve us incurring significant expenditure. Any inability on our part to timely identify a suitable location for a relocated office could have an adverse impact on our business.

Our Promoters, some of our Directors, Key Managerial Personnel and Senior Management may be regarded as having an interest in us other than reimbursement of expenses incurred and normal remuneration or benefits. Our Promoters and certain Directors may be deemed to be interested to the extent of Equity Shares held by them as well. Further, the sale of Equity Shares by our Promoters could adversely affect the market price of the Equity Shares. Also, the perception that any such sale may occur could also adversely affect the market price of the Equity Shares. We cannot assure you that our Promoters will not dispose of, pledge or encumber their Equity Shares in the future or that such sale will not adversely affect the market price of the Equity Shares.

52. ***An inability to maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability.***

Our operations are subject to various risks and hazards which may adversely affect revenue generation and profitability. or more large claims, or that the insurer will not disclaim coverage as to any future claim. Our insurance policies may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. In addition, we renew our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at an acceptable cost or at all.

53. ***Some of our Group Companies and some of our directors are associated with companies which operate in a similar line of business as our Company, which may lead to competition with these entities and could potentially result in a loss of business opportunity for our Company.***

Anand Rathi Commodities Limited and Anand Rathi Wealth Limited, our Group Companies, also operate in a similar line of business to our Company and our Subsidiary. Further, Anand Nandkishore Rathi, one our Individual Promoters, and Pradeep Navratan Gupta, one of our Individual Promoters and our Chairman and Managing Director, are also on the board of directors of Anand Rathi Wealth Limited. For further details, please see 'Our Promoters and Promoter Group' and 'Our Group Companies' on pages 262 and 271, respectively. The interest of our Promoters may conflict with our interests or the interests of our Shareholders, and may favour these companies in certain situations, or not direct opportunities to our Company. Any of the above may adversely impact our business, financial condition and results of operations.

54. ***Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance such as EBITDA, EBITDA margin, interest coverage ratio, net debt to EBITDA ratio, return on capital employed and return on equity have been included in this Draft Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable.***

We have, in this Draft Red Herring Prospectus, included various operational and financial performance indicators and certain non-GAAP measures. Some of these measures may not be derived from our Restated Consolidated Financial Information and may not have been subjected to an audit or review by our Statutory Auditor, and each of which is a supplemental measure of our performance and liquidity and not required by, or presented in accordance with Ind AS, IFRS or U.S. GAAP. Further, such measures and indicators are not defined under Ind AS, IFRS, U.S. GAAP or other accounting standards, and, therefore, should not be viewed as substitutes for performance, liquidity or profitability measures under such accounting standards. The manner in which such operational and financial performance indicators including industry-related statistical information are calculated and presented, and the assumptions and estimates underlying or used in such calculation, may vary from that used by other similarly placed companies in India and other jurisdictions.

In addition, such measures are not standardised terms, hence a direct comparison between companies may not be possible. Other companies may calculate such measures differently from us, limiting the usefulness of such Non-GAAP measures as a comparative metric. Further, these measures should not be considered in isolation or construed as an alternative to cash flows, profit/ (loss) for the periods or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS. Investors are accordingly cautioned against placing undue reliance on such information in making an investment decision and are cautioned that they should consult their own advisors and evaluate such information in the context of the Restated Consolidated Financial Information and other information relating to our business and operations included in this Draft Red Herring Prospectus.

External Risk Factors

Risk relating to India

56. ***Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.***

The Indian economy and capital markets are influenced by economic, political and market conditions in India and globally. Our results of operations and cash flows are significantly affected by factors influencing the Indian economy.

Factors that may adversely affect the Indian economy and, consequently, our results of operations, may include:

- high rates of inflation in India could increase our costs without proportionately increasing our revenue, and as such decrease our operating margins;
- high rates of interest could result in an increase in the cost of funds for us as well as our clients;
- any slowdown in economic growth or financial instability in India;
- any exchange rate fluctuations;
- any scarcity of credit or other financing, resulting in an adverse impact on economic conditions;
- prevailing income conditions among clients;
- volatility in, and actual or perceived trends in trading activity on, the relevant market's principal stock exchanges;
- changes in existing laws and regulations in India;
- epidemics, pandemics or any other public health concerns in India or in countries in the region or globally, including in India's various neighbouring countries, such as the pathogenic strains of influenza in birds and swine, the M-pox virus (which has recently been declared a public health emergency of international concern) and the COVID-19 pandemic;
- political instability, terrorism or military conflict in the region or globally, including in various neighbouring countries;
- occurrence of natural or man-made disasters;
- any downgrading of debt rating of India by a domestic or international rating agency; and
- instability in financial markets.

57. ***A slowdown in economic growth in India could adversely affect our business.***

The structure of the Indian economy has undergone considerable changes in the last decade. These include the increasing importance of external trade and of external capital flows. Any slowdown in the growth of the Indian or global economy or the financial services industry or any future volatility in securities or commodities market could adversely affect our business, financial condition and results of operations. India's economy could be adversely affected by a general rise in interest rates, fluctuations in currency exchange rates, adverse conditions affecting commodity prices or various other factors.

Further, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy and government policy may change in response to such conditions. The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any global financial turmoil, particularly in the United States, the EU, China or Asian emerging market countries, may have an impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss of investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets, and could have an adverse effect on our business, financial condition and results of operations and the price of the Equity Shares.

58. ***A downgrade in India's sovereign debt ratings, may affect have an adverse impact on our business, financial condition and the trading price of the Equity Shares.***

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing and the interest rates and other commercial terms at which such financing is available, including raising any overseas additional financing. A downgrading of India's credit ratings may occur, for example, upon a change of government tax or fiscal policy, which are outside our control. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

59. ***We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could adversely affect our business.***

The Competition Act, 2002, of India, as amended (**Competition Act**) regulates practices having an appreciable adverse effect on competition (AAEC) in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC is considered void and results in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, shares the market by way of geographical area or number of guests in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC in the relevant market in India and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise.

On April 11, 2023, the Competition (Amendment) Bill 2023 received the assent of the President of India to become the Competition (Amendment) Act, 2023 ("**Competition Amendment Act**"), amending the Competition Act and giving the CCI additional powers to prevent practices that harm competition and the interests of consumers. It has been enacted to increase the ease of doing business in India and enhance transparency. The Competition Amendment Act, *inter alia*, modifies the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the CCI and empowers the CCI to impose penalties based on the global turnover of entities, for anti-competitive agreements and abuse of dominant position. The Competition Commission of India has on September 9, 2024, issued The Competition Commission of India (Combinations) Regulations, 2024, which came into effect on September 10, 2024, and which repeals The CCI issued Competition Commission of India (Procedure for Transaction of Business Relating to Combinations) Regulations, 2011. The impact of these regulations is yet to be ascertained.

The Competition Act aims to, among others, prohibit all agreements and transactions which may have an AAEC in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. We are currently not a party to an

outstanding proceeding, nor have we received any notice in relation to non-compliance with the Competition Act and the agreements entered into by us. However, if we are affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations and prospects.

60. ***Adverse geopolitical conditions such as an increased tension between India and its neighbouring countries, the Russia-Ukraine conflict, the conflict between Israel and other countries in West Asia, could adversely affect our business, results of operations and financial condition.***

Adverse geopolitical conditions such as increased tensions between India and its neighbouring countries, resulting in any military conflict in the region could adversely affect our business and operations. Such events may lead to countries including the Government of India imposing restrictions which could have an adverse effect on the Indian economy. Further, any restriction on commodities, or other factors cause global supply chain disruptions could have an impact on global prices and could have an adverse effect on the commodities markets in India could be affected. For instance, the government of India has imposed additional tariffs in the nature of countervailing duty and anti-dumping duty on a number of items imported from China. Any such measure or reciprocal duties imposed on Indian products by China or other countries may adversely affect our results of operations and financial condition could have a chilling effect on trade and commerce between the nations which could lead to uncertainty in the securities and commodities markets, inflate costs etc. Further, prolonged Russia-Ukraine conflict and the armed hostilities between Israel and other countries in West Asia, impacting, *inter alia*, global trade, prices of oil and gas could have an inflationary impact on the Indian economy, result in higher interest rates and adversely affect our business, results of operations and financial condition.

61. ***Governmental actions and changes in policy, laws and regulations and their interpretation could adversely affect our business, result of operations and financial condition.***

The Government of India and the State Governments in India have broad powers to affect the Indian economy and our business in numerous ways. Any change in the existing policies of Government of India and, or, State Government, or foreign government policies, or new policies affecting the economy of India or any foreign country, affecting foreign investment into India, could adversely affect our business operations. Moreover, we also cannot assure you that the Central Government or State Governments in India, will not implement new regulations and policies which will require us to obtain additional approvals and licenses from the Government and other regulatory bodies or impose onerous requirements and conditions on our operations. We cannot predict the terms of any new policy, and we cannot assure you that such a policy will not be onerous. Such new policy may also adversely affect our business, cash flows, financial condition and prospects. In addition to changing laws and regulations, the interpretation of extant laws and regulations also could undergo change over time resulting *inter alia* in uncertainty, and such changes may adversely affect our business, result of operations and financial condition.

62. ***The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

63. ***Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the Restated Consolidated Financial Information prepared and***

presented in accordance with SEBI ICDR Regulations contained in this Draft Red Herring Prospectus.

We have not attempted to quantify the impact of U.S. GAAP or any other system of accounting principles on the financial data, prepared and presented in accordance with Ind AS for the 6 months ended September 30, 2024, and in Fiscal 2024, Fiscal 2023 and Fiscal 2022 included in this Draft Red Herring Prospectus, nor do we provide a reconciliation of our financial statements to those of U.S. GAAP or any other accounting principles. U.S. GAAP differs in significant respects from Ind AS. Accordingly, the degree to which the Restated Consolidated Financial Information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Ind AS and SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Red Prospectus should accordingly be limited. Additionally, Ind AS differs in certain respects from IFRS and therefore financial statements prepared under Ind AS may be substantially different from financial statements prepared under IFRS.

64. ***Investors may have difficulty enforcing foreign judgments against us or our management.***

We are incorporated under the laws of India and all our Directors and Key Managerial Personnel reside in India. A majority of our assets, and the assets of our Directors and officers, are also located in India. Where investors wish to enforce foreign judgments in India, they may face difficulties in enforcing such judgments. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India exercises reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions. In order to be enforceable, a judgment obtained in a jurisdiction which India recognises as a reciprocating territory must meet certain requirements of the Code of Civil Procedure, 1908, of India (**Civil Code**). Further, the Civil Code only permits enforcement of monetary decrees not being in the nature of any amounts payable in respect of taxes or, other charges of a like nature or in respect of a fine or other penalty and does not provide for the enforcement of arbitration awards. Judgments or decrees from jurisdictions not recognised as a reciprocating territory by India cannot be enforced or executed in India. Even if a party were to obtain a judgment in such a jurisdiction, it would be required to institute a fresh suit upon the judgment and would not be able to enforce such judgment by proceedings in execution. Further, the party which has obtained such judgment must institute the new proceedings within three years of obtaining the judgement.

As a result, you may be unable to: (i) effect service of process outside of India upon us and such other persons or entities; or (ii) enforce in courts outside of India judgments obtained in such courts against us and such other persons or entities. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if it viewed the amount of damages awarded as excessive or inconsistent with Indian practice. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the RBI to repatriate any amount recovered pursuant to the execution of such foreign judgment, and any such amount may be subject to income tax in accordance with applicable laws.

Risks relating to the Equity Shares

65. ***Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares held as investments in an Indian company are generally taxable in India. Any capital gain realized on the sale of listed equity shares on a Stock Exchange held for more than 12 months immediately preceding the date of transfer will be subject to long-term capital gains in India at the specified rates depending on certain factors, such as whether the sale is undertaken on or off the Stock Exchanges, the quantum of gains and any available treaty relief. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of Securities Transaction Tax ("STT"), on the sale of any Equity Shares held for more than 12 months immediately preceding the date of transfer. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any capital gains realized on the sale of listed equity shares held for a period of 12 months or less immediately preceding the date of transfer will be subject to short-term capital gains tax in India.

In terms of the Finance Bill (No.2), 2024, with effect from July 24, 2024, taxes payable by an assessee on the capital gains arising from transfer of long-term capital assets (introduced as Section 112A

of the Income-Tax Act, 1961) shall be calculated on such long-term capital gains at the rate of 12.5%, where the long-term capital gains exceed ₹125,000. The stamp duty for transfer of certain securities, other than debentures, on a delivery basis is currently specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Short-term capital gains, arising from the sale of such equity shares on a stock exchange would be subject to tax at the rate of 15% (plus applicable surcharge and *cess*) for transfers taking place before July 23, 2024. However, per the amendment sought by the Finance Bill, short-term capital gains will be taxed at 20% for transfers taking place after July 23, 2024.

Under the Finance Act 2020, any dividends paid by an Indian company will be subject to tax in the hands of the shareholders at applicable rates. Such taxes will be withheld by the Indian company paying dividends. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source pursuant to any corporate action including dividends. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals.

66. ***Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time taken for such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the proceeds received by Shareholders. For example, the exchange rate between the Indian Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

67. ***The Equity Shares have never been publicly traded and the Issue may not result in an active or liquid market for the Equity Shares. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price.***

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Indian Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, there will be liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Issue.

The market price of the Equity Shares after the Issue can be volatile as a result of several factors beyond our control, including volatility in the Indian and global securities markets, our results of operations, the performance of our competitors, developments in the Indian and global financial services industry, changing perceptions in the market about investments in this sector in India, investor perceptions of our future performance, adverse media reports about us or our sector, changes in the estimates of our performance or recommendations by financial analysts, significant developments in India's economic liberalisation and deregulation policies, and significant developments in India's fiscal regulations. In addition, the Stock Exchanges may experience significant price and volume fluctuations, which may have a material adverse effect on the market price of the Equity Shares.

General or industry specific market conditions or stock performance or domestic or international macroeconomic and geopolitical factors unrelated to our performance may also affect the price of the Equity Shares. In particular, the stock market as a whole in the past has experienced extreme price and volume fluctuations that have affected the market price of many companies in ways that may have been unrelated to the companies' operating performances. For these reasons, investors should not rely on recent trends to predict future share prices, results of operations or cash flow and financial condition.

68. ***The requirements of being a publicly listed company may strain our resources.***

We are not a publicly listed company and none of our securities are listed on any stock exchange. We have not, consequently, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI Listing Regulations, which will require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and, or, we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies. Further, as a publicly listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition.

69. ***Any further issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding.***

We may be required to finance our growth through future equity offerings. Any future equity issuances by us, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares including through exercise of ESOPs, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by our Company may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares. We cannot assure you that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

70. ***Subsequent to the listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measures and Graded Surveillance Measures by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.***

SEBI and the Stock Exchanges, in the past, have introduced various pre-emptive surveillance measures with respect to the shares of listed companies in India (the "**Listed Securities**") in order to enhance market integrity, safeguard the interests of investors and potential market abuses. In addition to various surveillance measures already implemented, and in order to further safeguard the interest of investors, the SEBI and the Stock Exchanges have introduced additional surveillance measures ("**ASM**") and graded surveillance measures ("**GSM**").

ASM is conducted by the Stock Exchanges on Listed Securities with surveillance concerns based on certain objective parameters such as price-to-earnings ratio, percentage of delivery, client concentration, variation in volume of shares and volatility of shares, among other things. GSM is conducted by the Stock Exchanges on Listed Securities where their price quoted on the Stock Exchanges is not commensurate with, among other things, the financial performance and financial condition measures such as earnings, book value, fixed assets, net worth, other measures such as price-to-earnings multiple and market capitalization.

Upon listing, the trading of our Equity Shares would be subject to differing market conditions as well as other factors which may result in high volatility in price, and low trading volumes as a percentage of the combined trading volume of our Equity Shares. The occurrence of any of the abovementioned factors or other circumstances may trigger any of the parameters prescribed by SEBI and the Stock Exchanges for placing our securities under the GSM and/or ASM framework or any other surveillance measures, which could result in significant restrictions on trading of our Equity Shares being imposed by SEBI and the Stock Exchanges. These restrictions may include requiring higher margin requirements, limiting trading frequency or freezing of price on the upper side of trading, as well as mentioning of our Equity Shares on the surveillance dashboards of the Stock Exchanges. The imposition of these restrictions and curbs on trading may have an adverse effect on the market price,

trading and liquidity of our Equity Shares and on the reputation and conditions of our Company. Any such instance may result in a loss of our reputation and diversion of our management's attention and may also decrease the market price of our Equity Shares which could cause you to lose some or all of your investment.

71. ***There are restrictions on daily movements in the trading price of the Equity Shares, which may adversely affect a shareholder's ability to sell Equity Shares or the price at which Equity Shares can be sold at a particular point in time.***

Following the Issue, our listed Equity Shares will be subject to a daily "circuit breaker" imposed on listed companies by the Stock Exchanges, which does not allow transactions beyond certain volatility in the trading price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian Stock Exchanges. The percentage limit on the Equity Shares' circuit breaker will be set by the Stock Exchanges based on historical volatility in the price and trading volume of the Equity Shares. The Stock Exchanges are not required to inform our Company of the percentage limit of the circuit breaker, and they may change the limit without our knowledge. This circuit breaker would effectively limit the upward and downward movements in the trading price of the Equity Shares beyond the circuit breaker limit set by the Stock Exchanges. As a result of this circuit breaker, we cannot give you any assurance regarding the ability of shareholders to sell Equity Shares or the price at which shareholders may be able to sell their Equity Shares.

72. ***The determination of the Price Band and the Issue Price is based on various factors and assumptions and the Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.***

The determination of the Price Band is based on various factors and assumptions and will be determined by our Company in consultation with the BRLMs. Furthermore, the Issue Price of the Equity Shares will be determined by our Company in consultation with the BRLMs, through the Book Building Process. These will be based on numerous factors, including factors as described under 'Basis for the Issue Price' on page 147 and may not be indicative of the market price for the Equity Shares after the Issue. The factors that could affect the market price of the Equity Shares include, among others, broad market trends, our financial performance and results post-listing, and other factors beyond our control. We cannot assure you that an active market will develop, or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing. Further, the current market price of some securities listed pursuant to certain previous issues managed by the BRLMs is below the respective issue price.

73. ***There is no guarantee that our Equity Shares will be listed on the BSE and the NSE in a timely manner or at all.***

There is no guarantee that our Equity Shares will be listed on the BSE and the NSE in a timely manner or at all. In accordance with Indian law, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue. In accordance with current regulations and circulars issued by SEBI, our Equity Shares are required to be listed on the BSE and the NSE within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

74. ***You may not be able to immediately sell any of the Equity Shares you subscribe to in this Issue on an Indian Stock Exchange.***

The Equity Shares are proposed to be listed on the Stock Exchanges. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and commence trading, including the crediting of the investor's demat accounts within the timeline specified under applicable law. Further, in accordance with Indian law, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue. The Allotment of Equity Shares in the Issue and the credit of Equity Shares to the investor's demat account with the relevant depository participant and listing is expected to be completed within the period as may be prescribed under applicable law. Any failure or delay in obtaining the approvals or otherwise commencement of trading in the Equity Shares would

restrict investors' ability to dispose of their Equity Shares. We cannot assure you that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence within the prescribed time periods or at all which could restrict your ability to dispose of the Equity Shares.

75. ***Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

76. ***Financial difficulty and other problems in certain financial institutions in India could have a material adverse effect on our business, results of operations, future cash flows and financial condition.***

Indian financial system may be affected by financial difficulties faced by all or some of the Indian financial institutions whose commercial soundness may be closely related as a result of credit, trading, clearing or other relationships. This risk, which is sometimes referred to as 'systemic risk', may adversely affect financial intermediaries, such as clearing agencies, banks, securities firms and exchanges. Any such difficulties or instability of the Indian financial system in general could create an adverse market perception about Indian financial institutions and banks and adversely affect our business.

77. ***Financial instability, economic developments and volatility in securities markets in other countries may also cause the price of the Equity Shares to decline.***

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. For instance, the economic downturn in the U.S. and several European countries during a part of Fiscals 2008 and 2009 adversely affected market prices in the global securities markets, including India. In addition, China is one of India's major trading partners and a possible slowdown in the Chinese economy as well as a strained relationship with India, could have an adverse impact on the trade relations between the two countries. Further, events like the collapse of the Silicon Valley Bank could also cause an economic downturn. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general.

A loss of investor confidence in the financial systems of other emerging markets may cause increased volatility in Indian financial markets and the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of the Equity Shares.

78. ***Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely impact the trading price of the Equity Shares.***

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted, subject to certain exceptions, if they comply with the valuation and reporting requirements specified by the RBI. If a transfer of shares is not in compliance with such requirements and does not fall under any of the exceptions specified by the RBI, then the RBI's prior approval is required. In addition, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. We cannot assure you that any required approval from the RBI or any other Government agency can be obtained on any particular terms or at all. For further details, see '*Restrictions on Foreign Ownership of Indian Securities*' on page 447.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT and the FEMA Rules, any investment, subscription, purchase or sale of equity instruments by entities, investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any

such country will require prior approval of the Government of India. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms, in a timely manner or at all.

79. ***Our ability to raise foreign capital or borrowings may be constrained by Indian law.***

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business growth, financial condition and results of operations.

80. ***If security or industry analysts do not publish research, or publish unfavourable or inaccurate research about the business of our Company, the price and trading volume of the Equity Shares may decline.***

The trading market for the Equity Shares may depend, in part, on the research and reports that securities or industry analysts publish about us or our business. We may be unable to sustain coverage by established and, or, prominent securities and industry analysts. If either none or only a limited number of securities or industry analysts maintain coverage of our Company, or if these securities or industry analysts are not widely respected within the general investment community, the trading price for our Equity Shares could be negatively impacted. In the event we obtain securities or industry analyst coverage, if one or more of the analysts downgrade our Equity Shares or publish inaccurate or unfavourable research about our business, our Equity Shares price may decline. If one or more of these analysts cease coverage of our Company or fail to publish reports on us regularly, demand for our Equity Shares could decrease, which might cause the price and trading volume of our Equity Shares to decline.

81. ***Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.***

Under the Companies Act, a company incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interest in our Company may be reduced.

82. ***QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid and Retail Individual Bidders and are not permitted to withdraw their bids after bid/offer closing date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/Issue Period and withdraw their Bids until Bid/Issue Closing Date. While our Company is required to complete Allotment pursuant to the Issue within 3 Working Days from the Bid/Issue Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operation or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events limit the Bidders' ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

83. ***A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.***

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving an actual or threatened change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors or shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted.

1. Economic Outlook

1.1 India expected to grow at 2x faster than global economic growth

The global economy has encountered significant challenges in recent years, including a pandemic, geopolitical conflicts, and extreme weather, which have disrupted supply chains and triggered energy and food crisis. Global real GDP growth is projected to grow at a CAGR of 3.2% from CY23 to CY29P. Despite these adversities, India's growth has demonstrated resilience, with its GDP growth surpassing that of other G-20 economies.

Chart 1: Global and India Growth Outlook Projections (Real GDP, growth from CY23 to CY29P)

Notes: P-Projection; Source: IMF – World Economic Outlook, October-24, January-25

1.2 India's GDP growth to stay resilient

After clocking a robust growth of 9.2% in FY24, real GDP growth for FY25 is estimated at 6.5%. Further, as per IMF, India's real GDP is projected to have a CAGR of 6.5% from CY23 to CY29. Domestic economic activity remains robust. Stronger performance in the industrial sector, a rise in investment activity, above-average monsoon, an increase in rural demand, high-capacity utilization, solid bank and corporate balance sheets, coupled with the government's focus on infrastructure investment, contribute positively to growth prospects. However, while global uncertainties and supply chain challenges pose risks, India's domestic fundamentals and policy measures are expected to provide some support to growth.

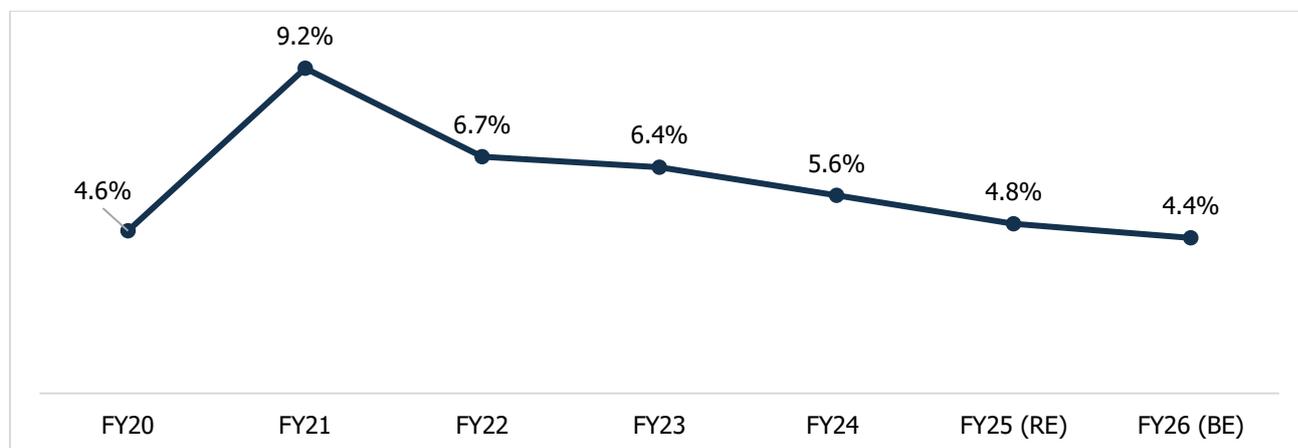

1.3 Union Budget FY25-26

The Union Budget FY25-26 aims to stimulate India's overall economic growth by focusing on key sectors such as agriculture, MSMEs, infrastructure, innovation, and exports. With a substantial increase in capital expenditure (Capex), particularly in areas like rural development, manufacturing, and skill-building, the budget emphasizes long-term economic resilience. Key initiatives include enhanced credit access for MSMEs through customized credit cards and a new Fund of Funds, which could boost demand for financial products and services. The focus on infrastructure development, including the Urban Challenge Fund and regional connectivity projects, is likely to create new investment opportunities. Additionally, tax reforms, such as simplified tax structures and increased exemptions, are likely to raise disposable income, encouraging higher savings and investment. These measures collectively provide financial firms with avenues to expand their offerings and support the growing demand for investment solutions.

1.4 Fiscal Consolidation fostering macroeconomic stability while promoting growth

Between FY20 and FY24, India's fiscal deficit reached a peak of 9.2% of GDP in FY21 from 4.6% in FY20 due to the economic impact of the COVID-19 pandemic, which led to lower tax revenues and increased government spending. The fiscal deficit for FY25 and FY26 is expected to be at 4.8% and 4.4%, respectively, which would be lowest since FY20. Also, the fiscal deficit has been steadily declining since FY21, this has helped in bringing yields on domestic paper lower which further supports in bringing cost of capital lower while crowding in private investments. With a history of twin deficit in India, lower fiscal deficit also aided in keeping checks on external balances thus fostering macroeconomic stability. Further, with a shift in the composition of expenditure from revenue expenditure to capital expenditure has allowed India to allocate more funds towards building infrastructure thus increasing India's potential growth.

1.5 RBI eases repo rate to support growth as inflation aligns with the target

In a shift towards supporting economic growth, the Reserve Bank of India (RBI) has cut the repo rate to 6.25% in its February 2025 Monetary Policy Committee meeting. This move marks a change in the central bank's stance, as inflation has moderated, driven by favourable weather conditions and a decline in commodity prices, particularly crude oil. These developments provide a positive tailwind for the economy, allowing the RBI to focus on boosting growth while maintaining its medium-term inflation target of 4%, with a permissible band of $\pm 2\%$.

1.6 Increasing per capita income to aid future growth

India's per capita income in current prices has increased nearly 3-fold in the last 13 years, a CAGR growth of 9.5%. The per capita final consumption expenditure has also increased 3-fold with CAGR growth of 15.8% in last 13 years.

1.7 Trends in household's financial savings tilting towards capital markets

Over the past few years, financial savings have undergone a compositional shift with more households diversifying their portfolio and shifting away from traditional instruments such as bank deposits to small savings, provident funds, pension funds and mutual funds. In FY12, bank deposits dominated household financial savings, contributing more than half of it. For FY23, bank deposits constituted only 35% of the households' financial savings.

The increase in formal jobs over the years has led to larger investments by the salaried class in provident and pension fund instruments, which also offer tax and retirement benefits. The share of mutual funds increased to 6.1% of gross savings in FY23 from 0.9% in FY12.

This trend, often referred to as financialization, is reshaping the landscape of domestic savings and investments. Several factors have facilitated this transition towards financial assets. Financial inclusion, digital infrastructure, demonetization, and innovations in financial products have all played an important role. The growth of financial savings has been robust, with retirement savings, insurance, and mutual funds showing an impressive average annual growth rate over the past decade. Additionally, the rising participation of youth in India's capital markets also reflect a significant shift in financial behaviour.

2. Overview of Capital Market in India

2.1 Overview of performance of capital markets in India in the last few years

India's capital markets, including stock, bond, derivative markets, and mutual funds, have significantly influenced the nation's financial system and economic development. Notably, the Bombay Stock Exchange (BSE) Limited is ranked as 6th largest stock exchange and National Stock Exchange of India Limited (NSE) ranked as 7th largest stock exchange in the world by market capitalisation as of Dec'24.

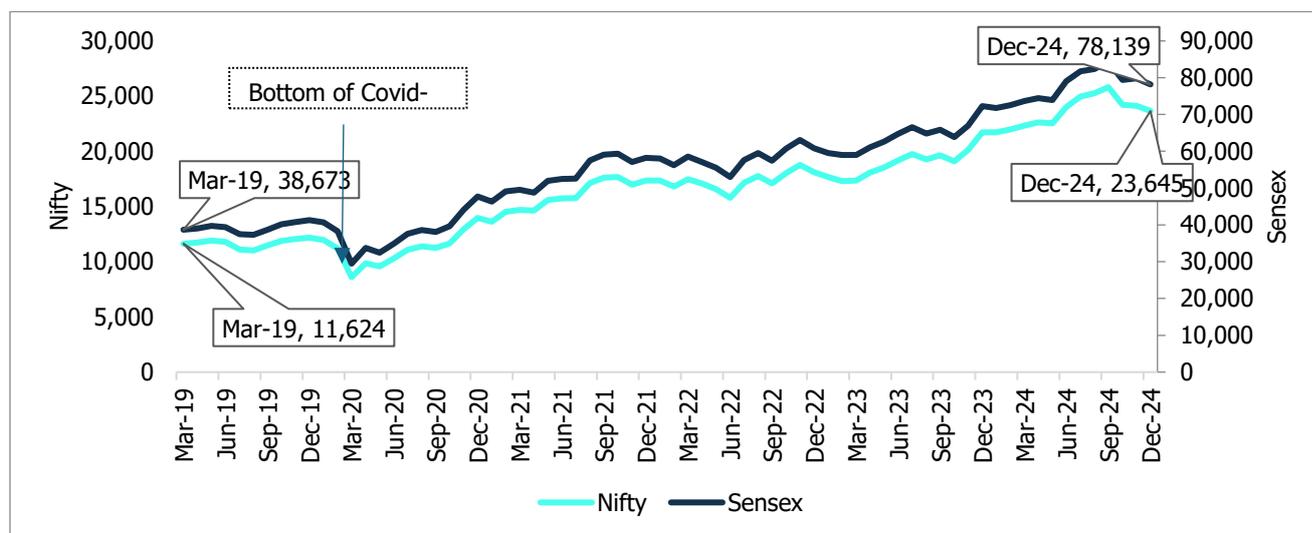

Reforms introduced by the Securities and Exchange Board of India (SEBI) have enhanced transparency, protected investor interests, and boosted market efficiency. The primary market has experienced significant growth especially in the contributions from Initial Public Offerings (IPOs) segment, driven by investor trust, efficiency, and transparency of capital markets. Additional, commodity and currency market have also witnessed remarkable traction.

Sustained earnings growth, favourable demographics, and rising consumer spending have encouraged domestic and international investor participation in India's stock markets, with Foreign Portfolio Investment (FPI) boosting liquidity and valuations leading to Nifty 50 witnessing healthy earning growth over the last two decades as compared to other major economies.

The mutual fund sector has also expanded due to greater financial literacy and digital adoption, with number of folios reaching 225 million as of Dec'24, indicating a CAGR of 21.3% between FY20-9MFY25. Net inflows in mutual funds stood at Rs. 7.5 trillion as of Dec'24, indicating a CAGR of 56.3% between FY20-9MFY25. New instruments, such as Real Estate Investment Trusts (REITs) and Infrastructure Investment Trusts (INVITs), have created additional investment opportunities. Overall, India's capital markets are becoming increasingly dynamic and inclusive through technological advancements, regulatory changes, and a growing investor base. However, capital markets around the world are susceptible to macroeconomic risks and geo-political tensions. In line, India's capital market also witnessed high volatility during COVID-19, general elections, geo-political tensions between Russia-Ukraine, hostilities between Israel and Palestine/Lebanon/Iran.

Indian stock markets on growth trajectory

Chart 5: BSE (Sensex) and NSE (Nifty) performance trends

Source: NSE, BSE, CareEdge Research

From bottom of Covid-19 (Mar'20) till Dec'24, both the BSE Sensex and NSE Nifty indices witnessed significant growth at a CAGR of 22.8% and 23.7% respectively, despite encountering periods of fluctuation. This impressive post-pandemic recovery can be linked to economic rebound, and strong corporate earnings, although there were some setbacks related to inflation and global economic uncertainties. Additionally, a growing interest from investors in capital markets has contributed to this upward trend.

Nifty 50 recorded highest five-year CAGR return

From Mar'19 to Dec'24, the Nifty 50 delivered the best returns among global indices, rising from 11,623.9 to 23644.8, reflecting a strong ~13% CAGR. This growth was driven by India's economic expansion, increasing corporate profitability, and growing foreign investor interest in emerging markets. The Nifty 50's robust performance of last five years (Mar'19 to Mar'24) underscores the resilience and growth potential of the Indian market, outperforming many developed market indices. However, Nifty 50 has started witnessing correction amid uncertainty surrounding US tariffs, federal rate cut, rupee depreciation, FIIs withdrawing from Indian capital markets.

2.2 Trends in Market Capitalization

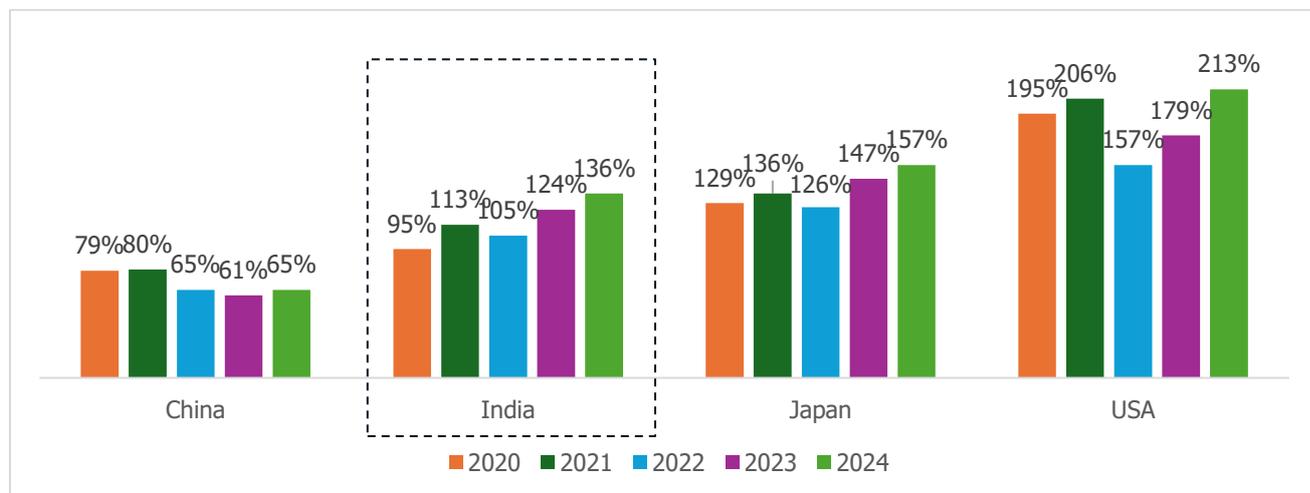

Over the years, India's robust economic growth amid global financial challenges, ample liquidity from the influx of domestic investors post-pandemic, and strong foreign portfolio investor (FPI) inflows have fuelled sharp growth in market capitalization.

Projected figures: GDP figures are taken from IMF projections, and market capitalisation is taken as at the end of Q2 of FY25 (i.e., Sep-24 end) for the US, India, Japan, and China market cap figures are as on the end of December 2024. Market capitalisation was taken country-wise as China (Shanghai and Shenzhen Stock Exchange), All India, Japan (Japan Exchange Group Inc.), and USA (NYSE and NASDAQ)

As at end of CY24, in terms of market capitalization to GDP, India ranks favourably among both developed and emerging economies. Post-pandemic economic growth, favourable demographics, rising foreign investment, and strong corporate performance bodes well for India. As one of the fastest-growing major economies, India is expected to remain an attractive investment destination, despite the high market capitalization to GDP ratio. India’s GDP growth is likely to be supported by an under-penetrated capital market, increasing investor participation, a growing workforce, the China+1 strategy, and government’s focus on economic growth.

2.3 Nifty 50 vs Global Indices

Chart 8: Trends in P/E ratio for major indices

Source: World PE Ratio, CareEdge Research

In comparison to other global indices, Indian benchmark index (Nifty 50) is trading at a higher PE multiple. This indicates that investors are willing to attribute a premium to the Indian markets owing to the country's promising economic trajectory, robust corporate earnings growth, a large consumer market, and favourable reforms. Notably, as per IMF, India is the fastest growing major economy in the world with real GDP growth rate estimated at CAGR of 6.5% for next 5 years. Further, Nifty 50 has witnessed healthy earning growth over the last two decades, registering EPS growth of almost 14.4% CAGR from FY20 to 9MFY25. Besides, while a high P/E ratio may indicate elevated expectations, they are also a testament to the optimism surrounding India's long-term economic story. However, it should be noted that recent correction phase of the market may have an impact on the PE multiple to some extent.

2.4 Overview of Primary Market Issuances in India

India's primary market has witnessed significant traction from FY20 to 9MFY25, with increased contributions from Initial Public Offerings (IPOs), Follow-On Public Offerings (FPOs) Qualified institutional placements (QIPs)/ Institutional Placement Programmes (IPPs), rights issues, and offer for sale (OFS).

The Indian stock market has experienced bullish trends, largely witnessing upward momentum in stock indices between FY20-FY24. This favourable sentiment, particularly amongst institutional investors, encourages more

companies to take advantage of market conditions and go public. Hence, companies are increasingly turning to IPOs to raise capital for expansion, pay off debts, and provide exit to private equity and institutional investors.

Raising capital through IPOs has become a key strategy for Indian companies seeking funds for growth, and expansion. From FY20 to 9MFY25, the Indian market saw a notable increase in IPO activity, particularly post-pandemic in 2020-2021, as companies took advantage of favourable market conditions and abundant liquidity.

While the total capital raised (equity) dropped to Rs. 1,706 billion in FY23 from Rs. 2,456 billion in FY22—a 30.5% decline—the number of primary market issuances (equity) increased significantly, rising from 562 in FY22 to 720 in FY23. This trend reflects fewer large-value issuances but a higher volume of smaller transactions, indicating broader participation in fundraising activities at lower deal sizes. Further, during 9MFY25, the total number of primary market issuances (equity) reached 1,262 (1,141 during FY24) and total capital raised from these issuances reached Rs 4,101 billion (Rs 2,218 billion in FY24) reflecting strong market sentiments.

From FY20 to 9MFY25, the average daily turnover across all segments of the NSE grew significantly. The total turnover increased from ~Rs. 1,505 billion in FY20 to ~Rs. 3,852 billion in 9MFY25. This rise is driven primarily by the sharp growth in the cash market, stock futures, and index options segments. While stock options and index futures recorded moderate increases, the cash market surged from ~Rs. 364 billion in FY20 to ~Rs. 1,188 billion

in 9MFY25, stock futures increased to ~Rs. 1,579 billion in 9MFY25 from Rs ~602 billion in FY20 and index options rose from Rs. 43.7 billion in FY20 to Rs. 581.9 billion in 9MFY25.

Overall, the growth of ADTO can be attributed to increased retail participation as investors seek to diversify their savings. Furthermore, with rising awareness, deeper penetration in Tier2/3 Cities, rise of brokers, financial planners, and wealth management firms, investors began to utilize their savings for better returns.

2.6 Cash Market Segment ADTO Trends

In 9MFY25, ADTO of cash market reached Rs. 1,187.6 billion, a 45.3% increase over FY24 at Rs. 817.2 billion. This growth in cash market can be attributed to rise in retail participants. With the increasing penetration of digital trading platforms and greater financial literacy, retail investors have become key growth drivers of the market. Their involvement supports the diversification of investment sources, making the Indian financial markets more resilient.

2.7 Equity derivative (Futures and Options) ADTO trends

The equity derivatives market in India plays a crucial role in offering investors a range of instruments for managing risk and engaging in speculative activities, increasing the efficiency of the overall market. Investors use diverse strategies such as hedging, arbitrage, and speculative trading to mitigate risks and optimize their returns when investing in the futures and options market. It is regulated by the Securities and Exchange Board of India (SEBI), which ensures that trading practices are fair, transparent, and focused on protecting investors.

Mumbai accounts for lion’s share of India’s trade volumes on NSE

While Mumbai remained the leading city, Ahmedabad showed the most impressive growth, with other cities accounting for smaller shares.

Mumbai consistently dominated participation, especially in NSE, accounting for 63.6% of NSE trading volumes for 9MFY25. Ahmedabad saw significant growth, particularly in NSE, where its share surged from 1.7% in FY20 to 16.9% in 9MFY25. 2.9 Trends in Foreign Institutional Investors (FIIs) & Domestic Institutional Investors (DIIs) inflows and outflows in Indian capital markets

Over the years dominance of FII investments in Indian markets has faded, as DIIs and retail investors have become driving force of the capital markets

In the Indian capital markets, FIIs and DIIs - Mutual funds have displayed different patterns over the past five years. FIIs showed fluctuation, experiencing net inflows in FY20 and FY21, but significant outflows in FY22 caused by worldwide economic uncertainties like inflation, increasing interest rates, and geopolitical tensions. In FY24, FIIs came back to Indian stocks due to better economic conditions.

In FY24, FII investments rebounded, supported by India's market resilience, and strong economic growth. In 9MFY25, FIIs net outflows were Rs. 0.2 trillion. DIIs continued to significantly invest in Indian Equities, indicating growth potential, trust, and efficiency of capital markets with net inflows of DIIs growing to Rs. 3.5 trillion in 9MFY25. 2.11 Key Growth Drivers for Capital Market Linked Businesses

The growth drivers for capital market-linked businesses are linked to overall economic growth, as both are interconnected. Here are few key factors driving growth in India's capital markets:

Demographics of India	<ul style="list-style-type: none">•India's youthful demographic drives significant capital market growth. As of August 2024, the median age of NSE registered investors stands at 32 years, with 40% under 30. Five years ago, the median age was 38. Over 20% of current investors are females. This young demographic shows a strong inclination towards digital solutions and wealth creation.

2.12 Key Risks Related to Capital Markets

Capital markets face the following risks that can impact both investors and overall financial system.

- **Market risk** –Market risk is frequently influenced by shifts in economic circumstances, investor attitudes, or geopolitical incidents, which are challenging to foresee and manage. Also, large trades can have a significant impact on stock prices as the size of Indian market is small as compared to markets on a global

scale. Hence, it is crucial for institutional traders to be vigilant about how they execute the orders in the market to minimize the costs due to market impact.

- **Credit risk** - Bond investors face losses when issuers default on debt obligations, as seen in the IL&FS crisis.
- **Liquidity risk** – Low liquidity during financial instability forces asset sales at reduced values, affecting market prices.
- **Regulatory Risk** – Policy changes, trade regulations, or political instability disrupt markets, especially globally exposed industries, can have adverse impact on the market.
- **Operational and systemic risks** - Breakdowns, like cyberattacks or fraud disrupt operations, while systemic risks threaten financial system collapse, as seen in the 2008 crisis. Natural disasters or technological disruptions further amplify risks.

The significance of strong risk management plans and diversification is underscored by these risks in guiding investors through uncertainties of the capital markets.

3. Overview of broking industry in India

3.1 Introduction to Broking Industry in India

The broking industry plays a crucial role in the Indian financial markets by acting as an intermediary between buyers and sellers of securities such as stocks, bonds, commodities, and other investment assets. Brokers facilitate the trading of these financial products, ensuring liquidity, efficient price discovery, and proper capital allocation across the markets. India's brokerage industry is highly competitive and particularly crowded. The market features numerous large and small players, resulting in intense competition. Additionally, the brokerage landscape is fragmented, comprising a considerable number of entities registered with SEBI. Over time, the industry has evolved significantly, largely due to technological advancements, with online trading platforms revolutionizing the way trades are executed.

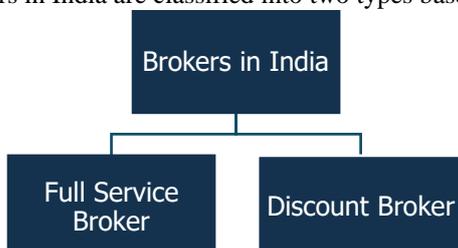

To position themselves better, brokers often offer enhanced graphical user interfaces with modern charting techniques, strategy-building tools to trade in derivatives, offer margin and credit facilities, high-frequency data feed, etc. These modern-day facilities require significant infrastructure and technological capability in which these players have actively invested.

As players have scaled up their technology infrastructure significantly, additional expenses, such as manpower, branches, and costs associated with scaling up in newer geographies, etc., have come down because of the digitalization of their operations. The broking industry is continuously adapting to changing regulations, technological innovations, and evolving investor needs, ensuring that it remains a key player in the financial ecosystem.

3.1.1 Type of Brokers in India

The Indian financial services industry is intensely competitive, and the Broking Business is particularly competitive with a sizeable number of large and small operators.

Brokers in India are classified into two types based on the services they offer:

- **Full-Service Broker**

A full-service broker is a licensed firm offering a wide range of services, which may include, research advisory, investment advisory services, wealth management, mutual fund distribution and Portfolio Management Services (PMS). Additionally, full-service brokers also provide Margin Trade Finance Products. Unlike discount brokers, full-service brokers operate both online and offline, with branch offices and dedicated Relationship Managers (RMs) for customer support. They employ experts that provide in-depth research through a specialized team that conducts technical and fundamental analysis, publishing reports on stocks, companies, and markets. These brokers offer comprehensive investment solutions, such as financial planning, portfolio management, and tax advice. They cater to a broad spectrum of investor needs, making them attractive not only for beginners who require guidance but also for experienced investors seeking advanced tools and insights. Full-service brokers are trusted for their reliability, regulatory compliance, and strong security features, ensuring the protection of clients' funds and personal information. The development of discount broking has made the process of trading more accessible, enabling both retail and institutional investors to trade from anywhere, which has reshaped the industry.

- **Discount Broker**

The shift to online stock trading has given rise to discount brokers in India. These brokers are gaining popularity due to their low, fixed brokerage fees, which apply regardless of trade value. Discount brokers focus on executing orders at reduced costs but do not provide personal consultations, advisory services, research, tax planning, or estate planning for clients.

Note: Market Share is a percentage of total active clients as on 31st December 2024

The brokerage market is divided between discount and full-service brokers, each catering to varied client needs. Discount brokers, offer modern trading platforms with low fees, attract a significant share of young and first-time investors, resulting in a higher client base as compared to full-service brokers. Over time, brokers have expanded their offering to include investment advisory, AIF/PMS, and distribution of financial products like mutual funds.

3.2 India's Broking Industry projected to cross Rs. 810 billion by Mar'28

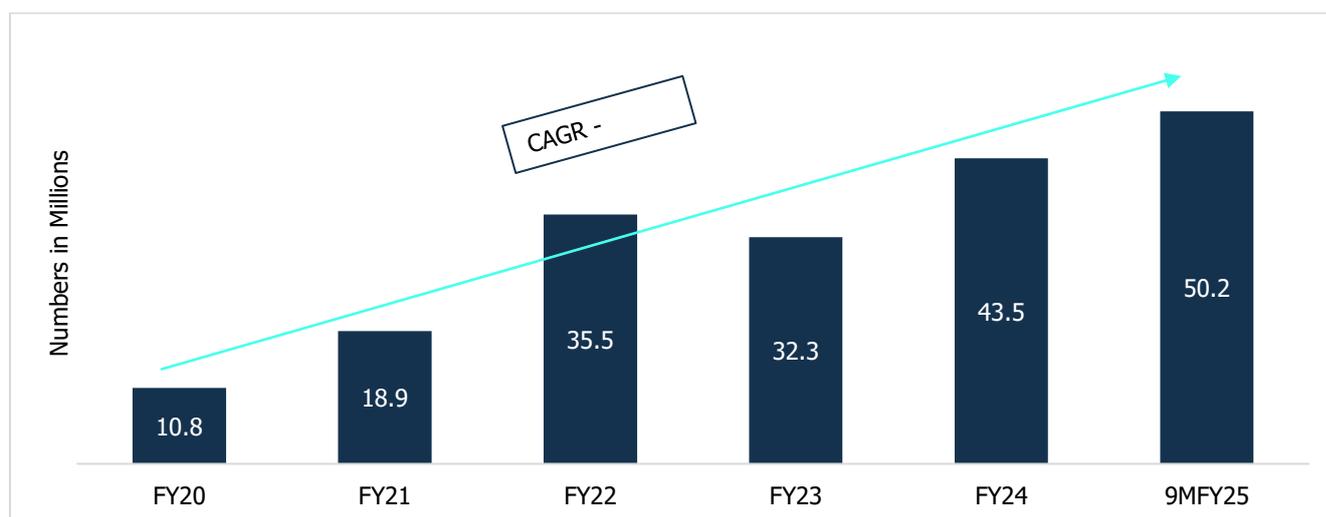

Chart 21: Size of Broking Industry in India

Source: CareEdge Research Estimates

The broking industry in India is estimated to be valued at ~ Rs 450 billion as of FY24 and expected to grow at a CAGR of 16-18% over the next 3-4 years. The increase in financial literacy and reduced cost of investing due to emergence of discount brokers has contributed significantly to this growth. Moreover, these factors are expected to continue leading to healthy growth in the long term.

Chart 22: Number of Total Active Accounts in India (in Million)

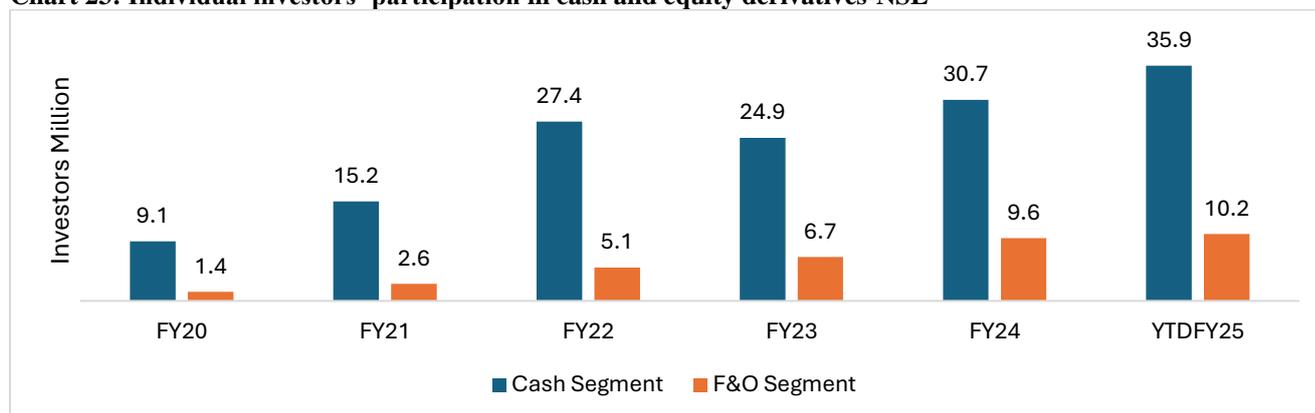

Source: NSE, CareEdge Research

In 9MFY25, NSE active clients witnessed rise in active clients supported by influx of retail investors with active clients reaching 50.2 million. The number of NSE registered active clients increased at a CAGR of 38.2% between FY20-9MFY25, despite the marginal decline in FY23 owing to inactivity of clients onboarded earlier. Key factors driving this surge included enhanced digitalization, the ease of opening accounts, and improving financial literacy, which encouraged greater participation in stock trading. Furthermore, the pandemic highlighted the importance of savings and investments, and coupled with low interest rates, prompted investors to move away from traditional savings options and turn to equity markets in search of higher returns, resulting in a significant increase in stock market investments and maintaining a prominent level of active accounts.

3.3 Share of client concentration in cash & derivative markets

Split in active investors in cash and F&O segment

Chart 23: Individual investors' participation in cash and equity derivatives-NSE

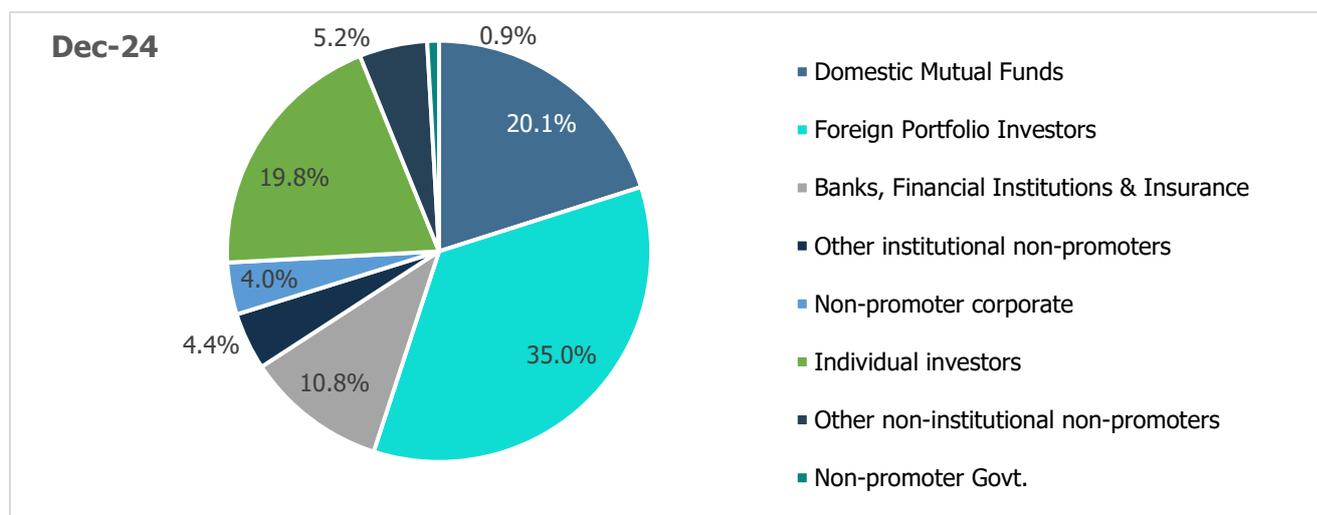

Source: NSE, CareEdge Research

Note: YTFY25 indicates data from April'24-January'25

Between FY20 to YTFY25 (Apr'24-Jan'25), participation of individual investors in the cash segment grew at a CAGR of 32.9% and has reached 35.9 million as on Jan'25, while participation in the equity derivatives segment surged at a remarkable CAGR of 50.9% and have reached 10.2 million as on Jan'25. This significant growth in derivatives can be attributed to the increasing popularity of trading strategies among retail investors, fuelled by the rise of digital trading platforms that make derivatives trading more accessible. Additionally, heightened market volatility and a growing interest in leveraged trading have encouraged investors to explore equity derivatives for potential higher returns. However, as per SEBI study released on 23rd Sep'24, 9 out of 10 individual traders in the equity futures and options segment continued to incur significant losses. The equity F&O

segment is likely to witness strict guidelines for individual investors, which may impact investor participation within the segment.

Foreign Portfolio Investors (FPIs) account for 35% of free float market cap as of Dec'24, followed by Domestic Mutual Funds at 20.1%, indicating growing confidence among retail investors in professionally managed investment vehicles.

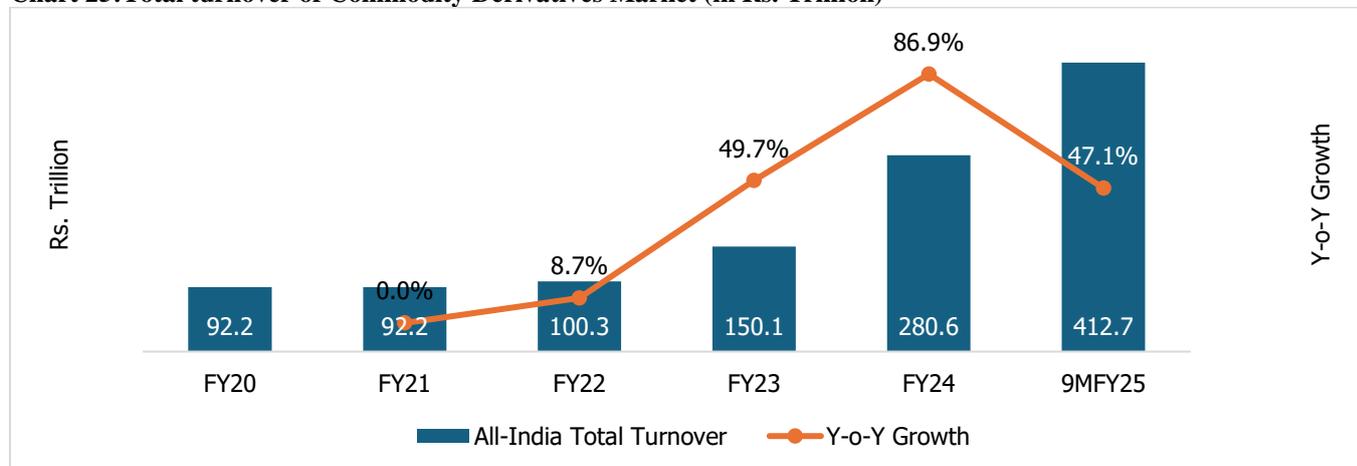

3.4 Trend in commodity and currency broking market (turnover and share of sub-segments)

1) Commodity Derivatives

Commodity derivatives are financial instruments whose value is based on underlying commodities, such as oil, gold, wheat, or natural gas. These derivatives allow investors to profit from price movements in these commodities without owning them.

In terms of percentage share of commodity derivatives turnover among exchanges, MCX has the highest market share of 97.9%, followed by NSE (1.9%) and NCDEX (0.3%) as of 9MFY25.

Chart 25:Total turnover of Commodity Derivatives Market (in Rs. Trillion)

Source: SEBI, CareEdge Research

The Indian financial market has experienced notable fluctuations in turnover across various exchanges in recent years. From FY20 to 9MFY25, the combined turnover for all exchanges has shown impressive growth, with a

CAGR of approximately 37.1%. This growth trend highlights the performance of key exchanges, including the BSE, NSE, Multi Commodity Exchange (MCX), and National Commodity and Derivatives Exchange (NCDEX).

The growth of commodity derivatives in India can be attributed to several key factors:

- **Diversification of Investment:** Investors seek diversification beyond traditional equities and fixed income, and commodity derivatives offer exposure to different asset classes.
- **Hedging Opportunities:** Producers and consumers use commodity derivatives to hedge against price volatility, protecting their profit margins and ensuring stable cash flows.
- **Increased Participation:** With greater awareness and participation from retail investors, institutional investors, and corporate players, the market has seen significant growth.
- **Technological Advancements:** Improvements in trading technology and platforms have made it easier for participants to access commodity markets, facilitating higher trading volumes.
- **Rising Demand for Commodities:** Economic growth and urbanization have led to increased demand for various commodities, driving interest in derivatives for speculative and hedging purposes.
- **Global Integration:** As Indian markets become more integrated with global markets, domestic investors gain access to international commodity trends, enhancing trading strategies.

2) Currency Derivatives

A **currency future**, also known as **FX future**, is a futures contract to exchange one currency for another at a specified date in the future at a price (exchange rate) that is fixed on the purchase date. Currency future contracts allow investors to hedge against foreign exchange risk. Currency Derivatives are available on four currency pairs viz. US Dollars (USD), Euro (EUR), Great Britain Pound (GBP) and Japanese Yen (JPY). Cross Currency Futures & Options contracts in EUR-USD, GBP-USD and USD-JPY are also available for trading in the Currency Derivatives segment.

3.5 Changing Trends in the Broking Industry

3.5.1 Increase in share of non-broking Value-added services, and financial planning, Fund based activity

Brokerage firms are diversifying their revenue streams by offering non-broking services such as wealth management, financial advisory, and investment products. Emerging brokerages attract clients with zero-commission trading, while established full-service brokers transform into comprehensive financial service providers, offering a wide range of services such as research, funding options, mutual funds, insurance, and retirement planning. This approach positions them as one-stop solutions for clients.

As of Dec-24, the portfolio management industry managed assets totalling Rs. 37.06 trillion, primarily from discretionary services, with advisory services contributing Rs. 2.96 trillion. This indicates a preference for personalised investment strategies, driven by enhanced financial literacy.

Segments such as margin funding and loans against shares are gaining popularity, reflecting the growing demand for non-broking services, as clients seek holistic comprehensive solutions beyond trading. Brokerages investing in technology and expanding their service offerings are well positioned in a competitive market.

3.5.2 Rising Importance of Relationship Based Broking

Traditionally, broking was focused on transactions, with brokers executing trades and offering minimal guidance. However, as the investment landscape grows more complex and competitive, investors increasingly seek personalized, comprehensive services that align with their individual financial goals and risk preferences. This shift has driven the demand for relationship-based broking, which prioritizes long-term client-broker partnerships.

Furthermore, relationship-based broking is reshaping client engagement, moving from transactional to personalised services. Relationship-based broking prioritizes long-term client-broker partnerships, client trust and satisfaction, which leads to sustainable growth and differentiation from competitors. Additionally, due to the volatile movement in markets and recent correction phase (from October'24 onwards) has increased importance of personalized and comprehensive research and advisory services which are being offered by traditional brokers.

Brokers adopting this approach invest time in understanding clients' aspirations, concerns, and financial situations, enabling them to offer tailored advice. This personalization builds trust and enhances client satisfaction, leading to stronger loyalty. Amid the proliferation of online trading platforms, the human connection offered by relationship-based broking helps distinguish firms from competitors.

Overall, relationship-based broking is essential for building trust, offering tailored investment strategies, gaining market insights, and standing out in a competitive marketplace. This approach not only enhances client satisfaction but can also lead to sustainable business growth, as long-term relationships often yield higher value compared to one-off transactions. Furthermore, relationship-based broking plays a critical role in the financial services industry, significantly influencing how brokers interact with clients and manage their investments.

3.5.3 Rising Importance of Technology in Trading

The digital/online broking market is expanding, driven by widespread internet access and technological advancements. The internet enables 24/7 trading and broadens access to financial markets, democratizing investment opportunities.

Technological innovations, such as advanced trading algorithms, real-time data analytics, and user-friendly interfaces, enhances trading platforms and attracts a wider range of investors, including beginners. Mergers and acquisitions within the industry foster innovation and consolidation, allowing firms to offer comprehensive services and optimise operations. Investors increasingly prioritise customisation, seeking platforms that provide tailored portfolios and strategies. E-brokerages offering features like automated rebalancing and personalised advice are better equipped to meet these demands. At the same time, firms must implement robust cybersecurity measures to maintain client trust and protect sensitive information against cyber threats, which could harm both reputation and operations.

3.6 The Path Forward: Emerging Trends in Indian Broking

India's capital markets are experiencing increased retail investment and rising managed assets in mutual funds, signalling a positive outlook among investors. The broking industry is expected to see moderate growth over the medium term, driven by economic expansion, rising retail participation, and technological advancements. The industry is likely to attract new clients, particularly from untapped retail markets, favourable demographics, and improved financial literacy. The widespread adoption of smartphones, faster internet, and simplified trading apps will further enable broader participation in trading and investing across various age groups.

Regulatory changes, particularly those from the Securities and Exchange Board of India (SEBI), play a significant role in the industry's growth. SEBI's measures to protect investors and enhance market transparency, such as recent changes to margin trading rules, require brokers to adapt quickly. While these regulations ensure market integrity, they may present challenges for smaller firms struggling with compliance.

Key trends shaping the future of stockbroking include AI-powered tools like algorithmic trading, robo-advisors, chatbots, and virtual assistants. These innovations will personalize investment recommendations and improve user experience, fostering stronger client relationships. India has considerable potential for growth in the broking industry (Chart 27), as only 4-5% of India's population actively participating in stock trading, compared to significantly higher rates in countries like the United States (55%), the United Kingdom (33%), and China (13%).

3.7 Key Growth Drivers for the Indian Broking Industry

- **Favourable Demographics**

India has one of the youngest populations globally, with around 55% population under 35 years of age in 2021. This young demographic is inclined towards digital solutions and wealth creation, with growing interest in investing in capital markets. With a median age of 28, compared to 38 in China and 39 in the US, India's young population presents a long-term growth opportunity for the broking industry as they begin investing early in their careers. This trend is expected to continue, with the median age remaining below 35, maintaining favourable demographics for the country.

- **Low Penetration of Capital Markets**

The Indian equity market has historically seen low participation rates compared to developed countries. Near about 4-5% of Indians invest in the stock market, compared to United States (~55%), United Kingdom (~33%) and China (~13%). This leaves significant room for growth as awareness and financial inclusion efforts expand. With increasing digital literacy and initiatives to encourage investments, market penetration is expected to rise significantly in the coming years.

- **Increasing Investment in Shares & Mutual Funds (as % of Savings)**

The proportion of household savings allocated to shares and mutual funds is on the rise. As per NSE analysis, it is estimated to have been at 8% each for Equity and Mutual Funds in FY24E and is expected to rise to reach ~12% until FY33. This shift will be significant given the traditional preference for physical assets like gold and real estate in India. The increased allocation to financial assets reflects changing investment behaviour, driven by higher awareness and attractive returns offered by equities and mutual funds over the long-term period.

- **Penetration in Tier 2 Cities and Beyond**

India's asset management industry, including mutual funds, PMS, and Alternative Investment Funds (AIFs), has grown by 19% over the past decade (FY14 – FY24). The rise of digital trading platforms has enabled brokerage firms to expand beyond major cities, with over 60% of investments now coming from Tier 2 and Tier 3 cities. This growth is driven by improved internet connectivity, increasing financial literacy, and targeted marketing efforts.

- **Role of Technology and Tech Platforms**

The rise of fintech platforms, algorithmic trading, and AI-driven investment advisory tools has simplified the trading process, attracting younger, tech-savvy investors. Cloud computing, real-time data analytics, and secure digital payments are transforming broker operations, making trading more accessible and cost-effective.

- **Rising Retail Participation**

Retail participation in India's trading markets has surged, fuelled by the growing use of mobile trading platforms and awareness of derivatives as hedging tools. Retail traders' share of derivatives trading volumes has increased dramatically, from 2% in 2018 to 41% in 2023, establishing India as a global leader in derivatives trading. During 9MFY25, the notional turnover of equity derivatives traded reached Rs. 86,607 trillion. Additionally, SEBI's introduction of more derivative products has enhanced market liquidity and depth, creating new revenue opportunities for brokers.

3.8 Key Risks and Challenges

- **Regulatory Changes:** Evolving SEBI regulations, such as higher margin requirements and stricter compliance standards, increase operational burdens on brokers, particularly smaller ones.

- **Revenue Pressures:** The move toward uniform transaction fees and the elimination of volume-based discounts could squeeze profit margins, especially for discount brokers.

- **Cybersecurity Risks:** Increasing digitalization exposes brokers to cyberattacks and data breaches, requiring significant investments in cybersecurity infrastructure.

- **Market Volatility:** The inherent volatility in the Indian market, particularly in derivatives, poses risks for brokers in managing margins and client liquidity.

- **Consolidation Pressure:** Rising compliance costs and regulatory changes may drive consolidation, with smaller players struggling to compete with larger firms.

- High Competition: The Indian financial services industry is intensely competitive, and the brokerage business is particularly competitive with a sizeable number of large and small operators. Further, the broking business is extremely fragmented with a large number of entities registered with SEBI. As of December 12, 2024, there are almost 4,895 SEBI registered brokers under the equity segment.

3.9 Regulatory Framework and its potential impact on the Broking Industry

1. QSB Framework

Objective & Framework

The Qualified Stock Broker (QSB) framework, introduced by the Securities and Exchange Board of India (SEBI), aims to identify and regulate key brokerage firms that are vital to the market infrastructure. QSBs are selected based on specific thresholds and criteria and are subject to stricter regulatory requirements due to their systemic importance.

The framework evaluates stockbrokers based on four key parameters:

1. Active Clients: The number of active clients maintained by the broker.
2. Total Assets: The total value of assets held by the broker's clients.
3. Trading Volumes: The total trading volume executed by the broker, excluding proprietary trading.
4. End-of-Day Margin Obligations: The margin obligations of the broker's clients at the end of the trading day, excluding proprietary margins.

Each broker's score for these parameters is calculated relative to the overall market, using a proportional method. For example, a broker's score for active clients is based on their share of the total active clients across all brokers, and the same method applies to the other parameters.

The total score for each broker is derived by summing the individual scores across all parameters. The data for scoring is taken as of December 31st of the respective financial year. Exchanges assign scores to brokers based on their relative performance, ensuring transparency, and helping investors make informed decisions.

Potential Impact of Qualified Stock Broker (QSB) framework on the Broking Industry

Increased Investor Protection: QSBs, with stricter risk management and compliance requirements, are better equipped to protect investor assets and reduce the risk of fraud or mismanagement. Higher capital reserve requirements ensure these brokers can absorb market shocks, safeguarding both retail and institutional investors. This added protection is especially important for retail investors, who are more vulnerable to market volatility.

Improved Transparency and Governance: QSBs must adhere to higher governance standards, leading to improved transparency in their operations and decision-making. This includes clearer disclosures of financial health, risks, and conflicts of interest, benefiting all market participants. Enhanced governance practices, such as independent oversight and stringent internal audits, increase corporate accountability, making QSBs more reliable.

Investor Confidence: The enhanced regulations and oversight around QSBs are likely to bolster investor confidence, as clients will have greater assurance in the broker's ability to manage risks and operate transparently.

Rise of Discount Brokers: Emerging discount brokers may seek QSB status as they expand their client base and market share. This could spur further industry innovation, as digital platforms strive to meet regulatory standards while continuing to provide low-cost, tech-driven services.

2. Recent SEBI guidelines on F&O trading

SEBI has introduced a set of new measures to restructure the equity derivatives trading framework in India:

- **Increased Contract Sizes:** SEBI increased the minimum contract value for derivatives trading from the current range of Rs.0.5 to Rs.1.5 million. This adjustment ensures that investors are exposed to appropriate levels of risk in the derivatives market. SEBI also announced plans to eventually adjust the contract size further, setting the value between Rs 1.5 million and Rs. 2 million in the future.
- **Higher Margin Requirements:** To tackle market volatility on expiry days, SEBI will enforce an additional extreme loss margin (ELM) of 2% on all open short option positions on the day of expiry. This measure is designed to protect investors against extreme market fluctuations, particularly during high-volume trading periods.
- **Reduction of Weekly Expiries:** Starting November 20, 2024, SEBI limits weekly expiries for index derivatives to one per benchmark index per exchange, reducing the total from 18 to six contracts per month. This move aims to reduce speculative trading and manage risks related to uncovered or naked option selling.
- **Removal of Calendar Spread Benefits:** SEBI will eliminate calendar spread benefits for contracts expiring on the same day, a change that seeks to minimize speculative trading, particularly on expiry days. Calendar spreads typically involve offsetting positions across different expiries.
- **Upfront Collection of Premiums:** Effective February 1, 2025, brokers are required to collect option premiums upfront. This change is aimed at discouraging excessive use of intraday leverage and ensuring that investors have sufficient collateral to cover their positions.
- **Intraday Monitoring of Position Limits:** From April 1, 2025, stock exchanges will begin to conduct intraday monitoring of position limits in equity index derivatives. This means that position limits will be tracked and checked multiple times throughout the trading day, preventing traders from exceeding their permissible limits unnoticed.
- **Revision in transaction charges:** Starting October 1, 2024, SEBI introduced a new rule mandating uniform transaction fees for market infrastructure institutions (MIIs), including stock exchanges. This rule could diminish the competitive edge of discount brokers, who typically thrive on high trading volumes and offer low fees. Traditionally, discount brokers charged lower fees to attract high-frequency traders, leveraging their high volumes to maintain profitability. However, with SEBI's new rule enforcing a standardized fee structure across the board, these brokers will lose their ability to offer significantly cheaper rates, reducing their pricing advantage over full-service brokers and potentially impacting their market share.
- **Besides, as per SEBI study released on 23rd Sep'24, 9 out of 10 individual traders in the equity futures and options segment continued to incur significant losses. Way forward the equity F&O segment is likely to witness strict guidelines for individual investors, which may impact investor participation within the segment.**

3. Impact of upcoming regulatory changes on Assisted and Non-Assisted Brokers

Below are some upcoming regulatory changes that could affect both assisted mode brokers (those offering advisory services and personal interaction) and non-assisted mode brokers (digital platforms and discount brokers with minimal human intervention):

- **Stricter Compliance and Reporting Standards**
 - Assisted Brokers (Full-Service Brokers): SEBI's heightened compliance requirements, such as quarterly audits and higher capital ratios, will prompt full-service brokers to invest in regulatory technology and compliance teams. While this will increase operational costs, it will also enhance their credibility, particularly with high-net-worth and institutional clients, boosting trust and loyalty.
 - Non-Assisted Brokers (Digital and Discount Brokers): Non-assisted brokers will need to strengthen cybersecurity and data protection measures, leading to higher tech investments, which may reduce their cost advantage.

- **Fee Structures and Transparency**

- Assisted Brokers: With the move towards uniform transaction fees, assisted brokers may adjust service fees or advisory charges to offset the elimination of volume-based discounts. This will allow them to maintain elevated levels of personalized service, appealing to clients who value tailored advice.
- Non-Assisted Brokers: Operating with thin margins, non-assisted brokers may pass on higher costs to users, potentially reducing their low-cost appeal.

- **Customer Due Diligence (KYC/AML Updates)**

- Assisted Brokers: Stricter KYC and AML norms will require more robust due diligence, adding operational complexity. However, these measures will strengthen client trust, particularly among high-net-worth individuals who seek personalized services for managing complex portfolios.
- Non-Assisted Brokers: The automation of real-time KYC and verification will be key, but this will require significant tech upgrades.

- **Derivative and Margin Norms**

- Assisted Brokers: New margin rules for F&O trading will encourage assisted brokers to advise clients on risk management, reinforcing their advisory role and making them essential for navigating complex derivatives strategies.
- Non-Assisted Brokers: Retail-focused brokers may see reduced F&O volumes as fewer retail clients will be able to meet the new margin requirements.

4. Overview of Margin Trading Facility (MTF)

4.1 Margin Trading Funding (MTF) Industry Size

The Margin Trading Facility (MTF) offers increased flexibility as compared to traditional trading methods, primarily because it enhances an investors’ purchasing power by allowing them to borrow funds. This enables them to invest in more assets compared to investments through owned capital. Additionally, investors can invest their core capital in long-term investments while using MTF leverage for trading. This approach allows investors to trade without diluting their core capital. The increased investing capacity facilitates greater diversification and the potential for higher returns, even with limited own capital.

In FY24, the MTF market grew significantly, reaching Rs. 780.7 billion, a 56.5% increase over FY23, with a CAGR of 42.7% from FY20 to FY24. This growth is driven by rising investor awareness of MTF's benefits in boosting buying power and potential returns, along with a bullish stock market. Interest income from MTF ranges between 15% to 35% of total revenue for leading players.

Margin Trade Funding industry size grew over four folds between FY20-FY24

In Sep'24, SEBI updated its policy thereby allowing cash-collateralized securities as part of the MTF maintenance margin, which is expected to increase participation by simplifying margin requirements and promoting efficiency. Going forward, strong investor interest and supportive regulations are set to boost brokerage revenues and margins through increased margin funding opportunities.

The SEBI initiative is expected to boost participation in margin trading by easing margin requirements and enhancing trading efficiency. This move demonstrates SEBI's commitment to a supportive regulatory framework that fosters market growth and investor engagement. Looking ahead, strong investor interest and favourable regulations are anticipated to drive revenue and margin growth for the brokerage industry, presenting firms with new opportunities from margin funding.

5. Asset Management & Distribution

5.1 Investment advisory services

Investment advisory services enable individuals, businesses, and institutions to manage their investments effectively. These services typically involve evaluating a client's financial goals, risk tolerance, and investment timeline, and managing a customized investment strategy. Over time, brokers have expanded their offerings to include investment advisory, AIF/PMS, and distribution of financial products like mutual funds.

The main elements of investment advisory services include:

Financial Planning: Advisors develop a comprehensive plan to meet financial objectives, such as retirement, education savings, purchasing a home, or estate planning.

Portfolio Management: Advisors create, implement, and monitor an investment portfolio of assets (like stocks, bonds, or mutual funds) that aligns with the client's risk profile and goals.

Investment Selection and Advice: Based on market research and analysis, advisors recommend investments suited to the client's needs and objectives.

Ongoing Reviews and Adjustments: Advisors regularly update clients on portfolio performance and adjust strategies as necessary based on changes in the market or the client's circumstances.

Education and Client Support: Advisors help clients understand financial markets, investment products, and strategies to enable informed decision-making.

Investment advisors can be human professionals, automated robot-advisors (providing algorithm-driven recommendations), or hybrid models combining both approaches. In India, SEBI regulates these services to ensure transparency and protect client interests.

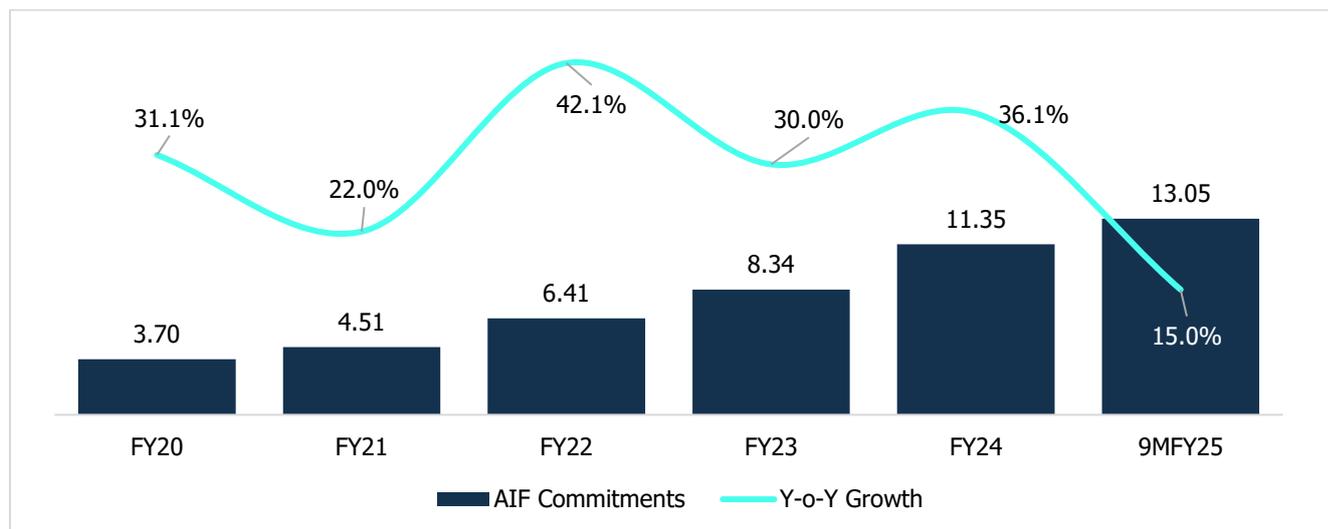

5.2 Alternative Investment Funds

Overview

As per SEBI, Alternative Investment Fund or AIF refers to any fund established or incorporated in India that operates as a privately pooled investment vehicle which collects funds from sophisticated investors, whether Indian or foreign, to invest them in accordance with a defined investment policy for the investors benefit. AIFs does not include funds covered under the SEBI (Mutual Funds) Regulations, 1996, SEBI (Collective Investment Schemes) Regulations, 1999 or any other regulations of the Board governing fund management activities.

- **Growth of AIFs in India**

Chart 30: AIFs Commitments have surged annually (Rs. Trillion)

Source: SEBI, CareEdge Research

AIFs commitments have grown sharply with the annual growth rate remaining in high double digits. As of Dec'24, AIFs have received commitments worth Rs. 13.05 trillion growing at a CAGR of 30.3% between FY20-9MFY25. Of these commitments received, 40.4% of the funds have been raised and of these funds 96% investments have been made. Category II funds are the highest contributor in terms of commitments for AIF, accounting for ~70% of total commitments, indicating the popularity of private equity funds or debt funds. 5.4 Domestic Mutual Fund Industry

Overview

A mutual fund is a collective investment vehicle that collects & pools money from several investors and invests the same in equities, bonds, government securities, and money market instruments. The money collected in a mutual fund scheme is invested by professional fund managers in stocks and bonds etc. in line with the scheme's investment objective. The income/gains generated from this collective investment scheme are distributed proportionately amongst the investors, after deducting applicable expenses and levies, by calculating a scheme's "Net Asset Value" or NAV. In return, mutual fund charges a small management fee.

Domestic Mutual Fund Industry Has Grown Rapidly

Chart 32: Growth in Domestic Mutual Fund Industry AUM and outlook

Source: CMIE, CareEdge Research

Note: AUM as of the last day of the month; FY- financial year ended March

Between FY20 and 9MFY25, retail AUM has grown at a CAGR of 37.2%, reaching Rs. 19.0 trillion as of 9MFY25. This growth in retail AUM reflects an increasing preference for mutual fund investments amongst retail investors. Institutional AUM also grew albeit at a slower pace than retail AUM, at a CAGR of 22.8% between FY20-9MFY25, reaching Rs. 48 trillion. FY24 has been a standout year for the Indian mutual funds industry, with assets under management (AUM) increasing by Rs 14 trillion, reaching a record Rs 53.1 trillion by Mar'24,

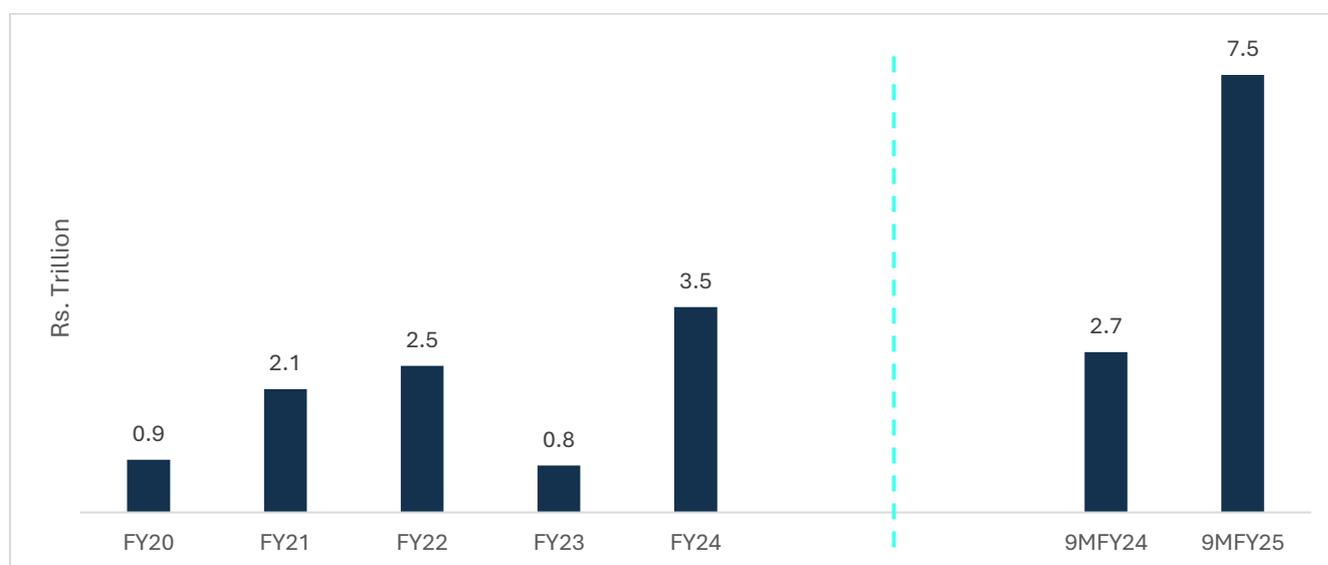

up from Rs 39.1 trillion in Mar'23. This growth rate of over 35% is the highest since FY21. As of 9MFY25, AUM further rose to Rs 66.9 trillion, demonstrating strong market performance and investor confidence.

The outlook for mutual fund AUM growth remains positive, driven by factors such as rising financial literacy, increased awareness, and a growing preference for mutual funds as a wealth-building tool. The expansion of digital platforms has made mutual fund access more convenient, while government initiatives promoting systematic investment plans (SIPs) and long-term savings support further growth. With India's economy continuing to expand, a rising middle class, and an increased focus on financial planning, mutual funds are expected to see AUM grow at 12-15% annually between 9MFY25 and FY29.

5.5 Mutual Fund Industry Inflows reached Rs. 7.5 trillion as of 9MFY25

Inflows from equity-oriented schemes accounted for 42.9% of mutual fund inflows for 9MFY25, driven by increase in inflows from sectoral/thematic, flexi cap, small cap fund categories. On the other hand, inflows from Debt Oriented schemes accounted for 28.8% of mutual fund inflows, driven by liquid and money market funds. Net inflows for FY24 totalled Rs. 3.5 trillion, up from Rs. 0.8 billion in FY23. Further, Systematic Investment Plan (SIP) adoption continued to grow, with monthly net inflows of Rs. 264.5 billion in Dec'24. For FY24, SIP inflows amounted to Rs. 1.99 trillion, up from Rs 1.56 trillion in FY23. Aggregate inflows in the mutual fund industry as of 9MFY25 reached Rs. 7.5 trillion, indicating significant CAGR of 56% between FY20-9MFY25.

5.6 Key Trends in Asset Management

Increase in Retail Folio in Mutual Funds

The growth in retail folios in mutual funds reflects a rising trend of individual investors seeking portfolio diversification and long-term financial goals. Retail investors are recognizing the advantages of mutual funds, including professional management and liquidity. Additionally, initiatives promoting SIPs have further spurred participation, leading to substantial growth in retail folios. As of 9MFY25, the total number of folios stood at 225 million, with over 206 million folios under equity, hybrid, and solution-oriented schemes, where retail investments are most prominent.

Increasing contribution towards SIPs

This significant increase is attributed by positive sentiments of retail investors, participating in a disciplined manner through SIPs. Post COVID-19, India’s capital markets have experienced influx of retail investor leading to increase in asset allocation towards mutual funds. Mutual Fund outstanding SIPs accounts stood at 103 million accounts and the total contribution through SIPs was Rs. 2,110 billion during 9MFY25.

5.7 Trends in Mutual Fund Distributors Commission

The commissions paid by mutual funds to distributors grew from around Rs. 61 billion in FY20 to around Rs. 149 billion in FY24, indicating a CAGR of around 25%. Increased financial savings, superior returns from mutual funds, greater reliance on distributors and government policies functioned as key catalysts in driving the distribution revenue growth.

In September 2018, SEBI linked expense ratios with asset slabs, to cut the cost of investing. This enforced schemes with higher asset size to charge lower expense ratios. By doing so, SEBI updated accommodated schemes that had become larger over the years. The total expense ratio (TER) includes expenses such as fund management fee and distribution commissions. Consequently, the total MF distributor commission has reduced by 7.1% y-o-y in FY19 and 22.4% y-o-y in FY20. However, with gaining popularity in investment via mutual funds, distributors commission has seen significant growth of 58% y-o-y in FY22 over FY21. For FY23 the commission amounted to Rs. 120 billion indicating a growth of approx. 15% over FY22.

Chart 36: Mutual Fund Distributor Commission

Source-AMFI, CareEdge Research

As the Indian mutual fund industry expands, driven by rising assets under management and a broader investor base, the demand for professional advisory and distribution services is expected to increase. Regulatory changes promoting fee transparency may lead to a shift toward fee-based advisory models, allowing distributors to earn ongoing commissions rather than one-time sales fees. As financial literacy improves, more investors are likely to seek guidance, offering distributors opportunities to build long-term relationships and enhance revenue. Furthermore, with the growth of digital platforms and robo-advisors, traditional distributors providing personalized, value-added services may see increased commissions from managing larger, diversified portfolios.

5.8 Key Growth Drivers for Mutual Fund Distributors

- **Increasing Penetration of Mutual Fund Market in India**

Investor participation in B30 (beyond top 30) locations has historically been low, but recent activity in the mutual fund sector, particularly in the equity segment, has increased due to better distribution and regulatory changes in fee structures. As of December 2024, 74% of total individual investors' assets in mutual funds are distributor-driven, of which 53% are from top 30 cities. Direct investments account for 26% of individual investors' assets, with 6% from B30 and 20% from T30.

- **Digital Transformation**

Digital transformation, through online platforms and mobile applications, has made mutual fund transactions, more efficient, offering seamless services for investors and cost benefits for distributors.

- **Regulatory Support**

Recent regulatory reforms by SEBI have enhanced transparency, investor protection, and market integrity, fostering competition and fair practices in the industry.

- **Strategic Partnerships**

Strategic partnerships with banks, insurance companies, and fintech platforms enable mutual fund distributors to expand their market reach, promote financial literacy, and provide comprehensive financial solutions, supporting sustained growth in the mutual fund sector.

5.9 Regulatory scenario in Mutual Funds and Mutual Funds Distribution

Regulatory framework of Mutual funds:

SEBI regulates mutual funds to ensure transparency and investor protection. Mutual fund houses must register with SEBI, appoint qualified fund managers, and follow guidelines such as diversification, risk management, and

disclosures. SEBI also mandates mutual fund distributors (MFDs) to comply with KYC norms, disclose fees and commissions, and meet regulatory standards.

Some of Restriction on Investment made by Mutual Funds are as follows:

- A mutual fund scheme shall not invest more than 10% of its NAV in debt instruments, including money market instruments and non-money market instruments, issued by a single issuer which are rated not below investment grade by an authorised credit rating agency. This limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and Board of Directors of the AMC.
 - Limits on investments in debt instruments from a single issuer.
 - Prohibitions on investing in unlisted debt instruments, except for government securities.
 - Restrictions on investing in other mutual funds under the same AMC.
 - Mandatory delivery of securities for purchases and sales.
 - Restrictions on investments in unlisted securities or private placements by sponsor companies.
 - No mutual fund [scheme] shall make any investment in,
 - a. Any unlisted security of an associate or group company of the sponsor; or
 - b. Any security issued by way of private placement by an associate or group company of the sponsor; or
 - c. The listed securities of group companies of the sponsor, exceeding 25% of the net assets [except for investments by equity-oriented exchange traded funds and index funds and subject to such conditions as may be specified by the Board]
- A mutual fund may invest in the units of REITs and InvITs subject to the following:
 - a. No mutual fund under all its schemes shall own more than 10% of units issued by a single issuer of REIT and InvIT;
 - b. A mutual fund scheme shall not invest –
 - i. more than 10% of its NAV in the units of REIT and InvIT; and
 - ii. more than 5% of its NAV in the units of REIT and InvIT issued by a single issuer.

Regulatory framework of Mutual fund distributor:

As per SEBI regulations, any person/entity who wants to become a Mutual Fund Distributor is required to fulfil the following pre-requisites – 1. pass ‘NISM Series V- A: Mutual Fund Distributors Certification Examination’ conducted by NISM and 2. register with AMFI and obtain AMFI Registration Number (ARN).

In the above context, a non-individual entity applying for ARN should have at least one employee / sales personnel who has passed the above mentioned NISM examination and register with AMFI & obtained Employee Unique identification Number (EUIN), to be eligible for allotment of the ARN.

At the time of empanelling distributors and during the review process, the AMC must undertake due diligence process of the distributor on several factors including business model, experience, proficiency in business, track record, regulatory record / statutory levies, organizational controls, capacity for customer risk evaluation, ability to customize solutions, and MF scheme evaluation.

The AMC shall also review the compliance and risk management functions of the distributor, such as:

- The criteria used for review of products and the periodicity of reviews.
- Parameters to consider while evaluating risk appetite of clients and the investment categorization.
- Review of transactions, exceptions identification, escalation, and resolution process by internal audit.
- Recruitment, training, certification, and performance review of all personnel engaged in this business.
- Customer on-boarding and relationship management process
- Servicing standards and grievance handling mechanism
- Internal / external audit processes their comments / observations as it relates to MF distribution business.
- Findings of ongoing review from sample survey of investors.

Further, the SEBI has mandated AMC's are required to undertake the due diligence process of the MFDs satisfying one or more of the following four criteria at the time of their empanelment and during the review period:

- a. Multiple point presence (More than 20 locations)
- b. AUM rose over Rs. 1000 million in the non-institutional category but including HNIs.
- c. Commission received of over Rs.10 million annually across industry.
- d. Commission received of over Rs.5 million from a single mutual fund.

Mutual fund distributors earn trail commissions based on investments mobilized under regular plans of mutual fund schemes. AMC's follow a full trail commission model, with no upfront commissions or incentives in any form other than trail commissions. These payments are made monthly, based on the AMC's business policy.

In summary, SEBI enforces strict regulations for mutual fund houses, fund managers, and distributors to ensure transparency, investor protection, and compliance with industry standards.

6. Key Threats & Challenges

Lower Broking Margins:

Indian full-service brokers face intense competition from discount brokers and foreign banks. Discount brokers offer low trading fees, which put pressure on full-service brokers with slim margins, making it difficult for them to cover fixed costs. This has led to practices like over-trading, which can result in retail investors losing money.

Increasing Costs and Additional Investments:

The evolving stock market requires continuous investment in modern technologies, platforms, and trading algorithms to retain clients. For instance, expanding into commodities or currency segments requires additional infrastructure costs. Likewise, mobile technologies and portfolio management systems further increase expenses, as brokers also need to cover costs like exchange memberships and operational infrastructure.

Risk Management:

The complexity of India's financial markets makes risk mitigation challenging. During economic uncertainty, reduced investor confidence affects fee-based income, such as advisory services, while market volatility **impacts** asset valuations. To navigate these challenges, brokers must employ sophisticated risk strategies, including hedging and diversification, while providing timely market insights. Despite these efforts, market unpredictability remains a significant challenge.

Increased Competition and Economic Uncertainties:

The rise of online trading platforms is giving stiff competition to mid-size brokers, putting pressure on them to lower their fees, impacting profitability of mid-size brokers. These platforms offer diversified investment options beyond equities, such as mutual funds, ETFs, and robo-advisory services. This appeals to a broad base of investors who prefer diversified, low-risk investments rather than direct equity trading, leading to clients switching brokers. Furthermore, stockbrokers operate in an industry that is sensitive to market volatility and broader economic conditions. Economic downturns, geopolitical events, and other unforeseen crises often lead to fluctuations in trading volumes and investor behaviour, impacting revenue.

Regulatory Challenges:

The regulatory landscape is constantly evolving to safeguard investor interests and maintain transparency. However, the increasing compliance demands often require brokers to adopt advanced systems for data reporting and client disclosures, which raises operational costs. Further, regulations on margin trading and exposure limits, aimed at reducing market volatility, constrain brokers' profitability.

In our experience, clients in the age group of 30 - 59 years, and age group 60 and above, typically have a higher investible corpus and require multiple product offerings and advise. Traditionally, broking was focused on transactions, with brokers executing trades and offering minimal guidance. However, as the investment landscape grows more complex and competitive, investors increasingly seek personalized, comprehensive services that align with their individual financial goals and risk preferences. This shift has driven the demand for relationship-based broking, which prioritizes long-term client-broker partnerships. (*Source: CARE Report*) Our value proposition is based on the underlying philosophy of being a trusted advisor across investment products. We attribute our significant client vintage and stickiness leading to high ARPC to this value proposition. As on September 30, 2024, ₹ 3,20,877.35 million of our total AUC, representing 65.20% of our total AUC, belongs to Active Clients who are 30 years and above.

STRATEGIES

Focus on improving average revenue per client by increasing client wallet share through cross selling varied investment solutions

Our diversified investment solutions i.e., broking and related services, margin funding facility and distribution of investment products enables us to cross-sell our investment solutions and increase our wallet share from our clients.

In particular, we propose to substantially increase our MTF Business as we believe it has the potential to improve client stickiness, consolidate client investments and drive higher average revenue per client. We continue to see strong demand for MTF across a large section of our existing clients and intend to utilise a part of our Net Proceeds towards long-term working capital requirements of our Company. For details, see 'Objects of the Issue' on page 139. In Fiscal 2024, the MTF market grew significantly, reaching ₹ 780.7 billion, a 56.5% increase over Fiscal 2023, with a CAGR of 42.7% from Fiscal 2020 to Fiscal 2024. This growth is driven by rising investor awareness of MTF's benefits in boosting buying power and potential returns, along with a bullish stock market. (Source: CARE Report)

Our focus is to become a comprehensive investment solutions provider for all our clients' investment needs. Over time, brokers have expanded their offering to include investment advisory, AIF/PMS, and distribution of financial products like mutual funds (*Source: CARE Report*). Our assets under management (comprising mutual funds, portfolio management services and alternative investment funds) has grown from ₹ 27,723.02 million to ₹ 49,045.90 million between Fiscal 2022 and Fiscal 2024, representing a CAGR of 33.01%. We also intend to increase our client wallet share by continuing to augment our distribution of investment products business.

We see a significant opportunity to cross-sell other investment solutions and increase our average revenue per client. We expect to enhance client convenience and loyalty by providing a varied suite of investment solutions. We have identified the following avenues for achieving this strategy: (i) leveraging machine learning to better understand our clients' profile and their investment needs to recommend tailored investment solutions; (ii) upskilling our relationship managers by providing training to building competencies across multiple products; and (iii) providing research reports on financial products like alternative investment funds, portfolio management services and other third party distributed products.

The Indian Contract Act, 1872 lays down the general principles relating to formation, performance and enforceability of contracts. The rights and duties of parties and the specific terms of agreement are decided by the contracting parties themselves, under the general principles set forth in the Indian Contract Act, 1872. The Indian Contract Act, 1872 also provides for circumstances under which contracts will be considered as 'void' or 'voidable' and it further contains provisions governing certain special contracts, including indemnity, guarantee, bailment, pledge, and agency.

The Specific Relief Act, 1963

The Specific Relief Act, 1963 applies in cases where courts can order specific performance of a contract. 3 SIGNIFICANT ACCOUNTING POLICIES

(a) Functional and presentation of currency

The Restated Consolidated Financial Information are presented in Indian Rupees, which is the Company's functional currency and all amounts are rounded to the nearest rupees in Millions; except when otherwise stated.

(b) Basis of Measurement of Restated Financial Information

These Restated Consolidated Financial Information have been prepared on historical cost basis, except for certain financial instruments, which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. The accounting policies adopted in the preparation of the Restated Consolidation Financial Information are consistent with those followed in the previous year by the Group.

Fair Value Measurement

In addition, for financial reporting purpose, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the assets or liability.

(c) Basis of Consolidation

The Restated Ind AS Consolidated Financial Information incorporates the financial statements of the Group. Control is achieved when the Group :

- has power over the investee;
- is exposed, or has rights, to variable returns from it's involvement with the investee; and
- has the ability to use it's power to affect it's returns.

Subsidiary is fully consolidated from the date on which control is transferred to the Group. Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. Subsidiary is deconsolidated from the date the control ceases.

The financial statements of the Group are combined on a line by line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flows, after fully eliminating intra-group balances and intra-group transactions. Profits or losses resulting from intra-group transactions that are recognised in assets, such as Property, Plant and Equipment, are eliminated in full. The Restated Ind AS Consolidated Financial Information have been prepared using uniform accounting policies.

(d) Critical Accounting Judgements and Key Sources of Estimation Uncertainty

The preparation of the Company's Restated Consolidated Financial Information requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

Estimates and underlying assumptions are reviewed on an on going basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

(i) Depreciation / Amortisation and useful lives of property, plant and equipment: Company depreciates its tangible assets over the useful life of an Asset as prescribed under Part C of Schedule II of Companies Act, 2013. Company remeasures remaining useful life of an asset at the end of each reporting date.

NOTES TO RESTATED IND AS CONSOLIDATED FINANCIAL INFORMATION

(ii) Fair value measurement: Fair Value is a price of orderly transaction between market participants at the measurement date under current market conditions. Company determines Fair Value of Quoted Instruments from available market price. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

(iii) Provisions: Provisions are recognized when there is a present obligation (legal or constructive) as a result of past event; and it is probable that an outflow of resources will be required to settle the obligation. Management estimates it by using its best judgement of future cash outflow.

(iv) Taxes: The Company periodically assesses its liabilities and contingencies related to income taxes for all years open to scrutiny based on latest information available. For matters where it is probable that an adjustment will be made, the Company records its best estimates of the tax liability in the current tax provision. The Management believes that it has adequately provided for the probable outcome of these matters.

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

(v) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and attrition rate. The discount rate is determined by reference to market yields at the end of the reporting period on government securities.

(vi) Allowance for impairment of financial asset

The Company applies expected credit loss model (ECL) for measurement and recognition of impairment loss. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. At each reporting date, the Company assesses whether the loans have been impaired. The Company is exposed to credit risk when the customer defaults on his contractual obligations. For the computation of ECL, the loan receivables are classified into three stages based on the default and the ageing outstanding. The Company recognises life time expected credit loss for trade receivables and has adopted simplified method of computation as per Ind AS 109. The Company considers outstanding overdue for more than 90 days for calculation of expected credit loss.

(e) Current and Non-Current Classification

An asset shall be classified as current when it satisfies any of the following criteria:—

- (a) it is expected to be realised in, or is intended for sale or consumption in, the Company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is expected to be realised within twelve months after the reporting date; or
- (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets shall be classified as non-current.

A liability shall be classified as current when it satisfies any of the following criteria:—

- (a) it is expected to be settled in the Company's normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within twelve months after the reporting date; or
- (d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities shall be classified as non-current.

(f) Property, Plant and Equipment & Intangible Assets and Depreciation & Amortisation

Property, Plant and Equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Direct costs in relation to the property, plant and equipment are capitalized until such assets are ready for use.

(i) Tangible Assets: Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets estimated by the Management. Depreciation for assets purchased during a period is proportionately charged. The Management estimates the useful lives and residual values of the tangible assets as prescribed under Part C of Schedule II of the Companies Act 2013 as follows.

(g) Financials Instruments

(i) Initial Recognition

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

(ii) Classification & Measurement of Financial Assets

Financial assets are classified at 'Amortised Cost', 'Fair Value through Profit and Loss' (FVTPL) and 'Fair Value through Other Comprehensive Income' (FVTOCI) in the following categories:

Debt Instruments at amortised cost: Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for those designated at FVTPL on initial recognition)

- the asset is held within a business model whose objective is to hold asset to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Debt Instruments at FVTOCI: Debt instruments that meet the following conditions are subsequently measured at FVTOCI (except for those designated at FVTPL on initial recognition)

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Debt Instruments at FVTPL: Any debt instrument which is either initially designated at FVTPL or which does not meet the criteria for Amortised cost or FVTOCI is measured at FVTPL.

NOTES TO RESTATED IND AS CONSOLIDATED FINANCIAL INFORMATION

Effective Interest Method: Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Equity Instruments at FVTOCI: On initial recognition, the Company can make an irrevocable election (on an instrument by instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the instrument is held for trading. The cumulative gain or loss is not reclassified to the Statement of Profit and Loss on disposal of the investment.

Financial Assets at FVTPL: Investments in equity instruments are classified at FVTPL, unless they were irrevocably elected on initial recognition as FVOCI. Financial Assets at FVTPL are measured at Fair Value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in the Statement of Profit and Loss.

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost, FVOCI debt instruments, and other financial assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 49 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognised only when :

- The Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) Financial Liabilities:

Financial liabilities which are held for trading or are designated at FVTPL are measured at fair value with changes being recognised in the statement of Profit and Loss.

Financial liabilities that are not held for trading and are not designated as at FVTPL, are measured at amortised cost. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

(vi) Derecognition of financial liabilities

Company derecognises financial liabilities when, and only when, the company's obligations are discharged, cancelled or have expired. A substantial modification in the terms of an existing financial liability is accounted as a discharge of original financial liability and recognition of new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised as profit or loss.

(vii) Offsetting financial assets and liabilities

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right and ability to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

(viii) Deemed cost on transition to Ind AS: For transition to Ind AS, the Company had elected to continue with the carrying value of all its Investments and are measured as per the previous GAAP and had used that carrying value as its deemed cost on the transition date.

(h) Derivatives financial instruments

measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Statement of Profit and Loss.

(g) Impairment of Assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amount may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent to those from other assets.

The Carrying Amount of Assets is reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss, if any, is charged to Statement of Profit and Loss in the year in which an asset is identified as impaired. Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the assets no longer exists or have decreased.

(h) Cash and cash equivalents

(i) Cash and cash equivalents in the balance sheet comprise cash at bank and on hand and short-term deposit with original maturity upto three months, which are subject to insignificant risk of changes in value.

(ii) For the purpose of presentation in the statement of cash flows, cash and cash equivalents consists of cash and short-term deposit, as defined above.

(i) Borrowing Cost and Finance Charges

Borrowing cost attributable to acquisition and construction of qualifying assets are capitalized as a part of the cost of such assets up to the date when such assets are ready for its intended use. Other borrowing cost are charged to the statement of profit and loss in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowings.

(j) Leases

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated on a straight-line basis over the lease term. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

(k) Employee Benefits

Defined Contribution plan – Retirement benefit in the form of Provident Fund is a defined contribution scheme. The Company is statutorily required to contribute a specified portion of the basic salary of an employee to a provident fund as a part of retirement benefits to its employees. The contributions during the period are charged to statement of profit and loss. The Company recognizes contribution payable to the Provident Fund scheme as an expenditure when an employee renders related service.

ANAND RATHI SHARE AND STOCK BROKERS LIMITED
CIN : U67120MH1991PLC064106
NOTES TO RESTATED IND AS CONSOLIDATED FINANCIAL INFORMATION

Defined Benefit Plan – Gratuity, which is in the nature of Defined Benefit Schemes, are payable only to employees and accounted for on accrual basis. The Cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses are recognised in other comprehensive income in the period in which they occur and are not reclassified to the Statement of Profit and Loss.

The Company has funded its Gratuity liability under group scheme with an Insurer. The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligations reduced by the fair value of the scheme assets. Any asset resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the scheme.

Short Term Employee Benefits - The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include incentive which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

(l) Revenue Recognition

The Company assesses the nature, timing and extent of revenue based on performance obligations in its contracts/understanding/trade customs with customers & clients.

Revenue is recognised to the extent that is probable that the economic benefits will flow to the Company and the amount based on performance obligation can be reliably measured. Revenue is measured at the fair value of consideration received or receivable taking into account the amount of discounts.

1. Revenue from Broking income is recognised on trade date basis and is exclusive of goods and service tax and securities transaction tax (STT) wherever applicable.
2. Income related with Distribution income on Mutual Fund and other financial products is accounted on accrual basis.
3. Dividend income is accounted for when the right to receive the income is established.
4. Difference between the sale price and the carrying value of investment is recognised as profit or loss on sale/ redemption on investment on trade date of transaction.
5. Interest income is recognised on accrual basis.

(m) Taxes on Income

The tax expenses for the period comprises of current tax and deferred income tax. Tax is recognised in statement of profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

- Temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- Temporary differences related to investment in subsidiary to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets- unrecognized or recognized, are reviewed at each reporting date and are recognized /reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realized.

Change in Rate of Income Tax

The company has opted for Section 115BAA of the Income Tax Act, 1961 for computing its tax liability.

(n) Investment Property

Investment properties are immovable properties such as land and buildings held to earn rentals and/ or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment loss, if any.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in Statement of Profit and Loss in the period in which the Investment property is derecognised. Freehold land and properties under construction are not depreciated. Investment property are amortised on straight-line basis over the estimated useful life of assets. The useful life of Investment property is 60 years.

(o) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when there is a present obligation (legal or constructive) as a result of past event; and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made.

Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date, taking into account the risks and uncertainties surrounding the obligation.

Contingent Liabilities are possible but not probable obligations as on the Balance Sheet date, based on the available evidence. Contingent Liabilities are not recognised in the Restated Consolidated Financial Information.

Contingent Assets are neither recognized nor disclosed.

(p) Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share are computed using the weighted average number of equity shares and dilutive potential equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(q) Cash Flow Statement

Cash flows statement is prepared using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature item of income or expenses associated with operating, investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(r) Foreign currency translation

The financial statements are presented in Indian currency (INR), which is the Company's presentation currency. It is necessary for the results and financial position of each individual entity included in the reporting entity to be translated into the currency in which the reporting entity presents its financial statements. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the period end exchange rates are recognised in profit or loss.

Non-monetary items that are measured at fair value in the foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as FVOCI are recognised in other comprehensive income.

The financial statements are translated from functional currency to presentation currency by using the following procedures:

- (a) assets and liabilities for each balance sheet presented (ie including comparatives) shall be translated at the closing rate at the date of that balance sheet;
- (b) income and expenses for each statement of profit and loss presented (ie including comparatives) shall be translated at exchange rates at the dates of the transactions or average rate during FY; and
- (c) all resulting exchange differences shall be recognised in other comprehensive income

Asset Liability Matching Strategy

The money contributed by the Company to the Gratuity fund to finance the liabilities of the plan has to be invested.

The trustees of the plan have outsourced the investment management of the fund to an Insurance Company. The Insurance Company in turn manages these funds as per the mandate provided to them by the trustees and the asset allocation which is within the permissible limits prescribed in the insurance regulations. Due to the restrictions in the type of investments that can be held by the fund, it is not possible to explicitly follow an asset liability matching strategy.

There is no compulsion on the part of the Company to fully prefund the liability of the Plan. The Company's philosophy is to fund these benefits based on its own liquidity and the level of underfunding of the plan.

B Defined Contribution Plans

Amount recognized as an expense under the head "Contribution to Provident and other Funds" in note 36 'Employee Benefits Expense' of Statement of Profit and Loss towards Company's Contribution to Provident Fund for Period of Apr24 to Sep24 ₹ 37.52 Millions, FY 2023-24 ₹ 65.89 Millions, FY 2022-23 ₹ 56.48 Millions and FY 2021-22 ₹ 48.20 Millions.

ii) **Credit risk**

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, security deposits and investment securities.

Customer credit risk is managed by company as per its policy, procedures and control relating to customer credit risk. Credit quality of a customer credit risk is assessed based on an extensive credit rating scoreboard and individual credit limits are defined in accordance with this assessment. Outstanding customer receivables are regularly monitored and all possible steps taken to timely realise them.

The credit risk on Fixed Deposits with Banks, Bank Balances, Investments in Mutual Fund and Derivative Financial Instruments is limited because the counterparties are Banks, Exchanges and Mutual Fund houses who are structured market players.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company Management has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Company's standard payment and delivery terms and conditions are offered. The Company's review includes market check, industry feedback, past financials and external ratings, if they are available, and in some cases bank references.

The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade and other receivables. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables.

SIGNIFICANT FACTORS AFFECTING OUR FINANCIAL CONDITION AND RESULT OF OPERATIONS

Our business, results of operations, growth prospects, and financial condition are affected by a number of factors, including the following.

Macroeconomic and other factors affecting the condition of the financial services industry in India

We operate in the financial services industry in India, which is significantly affected, particularly by macroeconomic factors affecting India and, generally, by global macroeconomic factors. The Indian financial services industry is affected by a variety of factors including growth in India's GDP, taxation and other policies of the Government of India, laws and regulations that affect the industry and, in particular, trading, political measures and regulatory developments, and general political stability. In addition, it is also affected by inflation, interest rate levels, change in consumer spending and saving patterns such as a shift from one category of investment to another, currency exchange rates and foreign investment. Other factors that affect the financial services industry include the monetary policies of large economies such as the United States and China, global economic instability or recession, geopolitical tensions, war or hostilities, cybersecurity threats or attacks and other forms of disruption to or curtailment of global communication, corporate frauds, political or other scandals that reduce investor confidence in capital markets. Any one or a combination of the aforementioned factors could have an adverse effect on the financial services industry in India. Further, a downturn in the capital markets, persistent or short term, could adversely impact trading and investment patterns. Stability, and lack of volatility, in the financial markets are, therefore, crucial to our continuing success.

We operate in an extensively regulated industry and the operations of our Company and Subsidiary are subject to multiple regulatory frameworks

We operate in an extensively regulated industry and are subject to statutory and regulatory framework of multiple regulatory bodies such as the SEBI, the BSE and NSE, ICEX, MCX, NSE IFSC, IIBX etc. Our Company is registered with SEBI as a stockbroker/proprietary trading member/ clearing member, distributor of mutual funds and other financial products, and as a research analyst. Our Company is *inter alia* also registered as a trading member in capital markets, futures and options, commodities etc of BSE and a trading member in capital markets, futures and options, interest rate futures and currency derivatives by NSE. In addition, our Subsidiary operates in the International Financial Services Centre and is regulated by the relevant authorities including the NSE IFSC, India INX and IFSCA. All our business activities are therefore, extensively regulated by various regulatory entities and our Company and Subsidiary operate under multiple regulatory frameworks, and we are required to obtain and renew registrations and approvals under regulations issued by such regulatory authorities and, in particular, SEBI. For further details, see 'Government Approvals' on page 394.

As mentioned above, our varied activities are subject to overlapping and divergent regulation in different jurisdictions and are dependent on law enforcement authorities, regulators or private parties who may challenge our compliance with existing laws and regulations, thereby prohibiting us from engaging in some of our business activities or subjected to limitations or conditions on our business activities. These limitations or conditions may limit our business activities and negatively impact our profitability.

We believe that significant regulatory changes in our industry are likely to continue, which is likely to subject industry participants to additional and generally more stringent regulations. The requirements imposed by SEBI and other regulators are designed to ensure the integrity of the financial markets and to protect investors and other third parties who deal with us and may not always align with the interests of our shareholders. Consequently, these regulations may serve to limit our activities and/or increase our costs, including through investor protection, compliance management and market conduct requirements. We are also dependent on changes in the

interpretation or enforcement of existing laws and rules by SEBI and other governmental and regulatory authorities.

Performance of the Indian equity capital markets

A vast majority of our revenue and profits depends on the performance of the Indian equity capital markets. The Indian equity markets have witnessed significant growth in the Fiscal 2024 including in terms of market capitalisation of listed companies and the performance of benchmark indices. Further, the average daily turnover on the NSE increased from ₹ 534.3 billion in Fiscal 2023 to ₹ 817.2 billion in Fiscal 2024. In 9MFY25, the average daily turnover on the NSE of cash market reached ₹ 1,187.6 billion, a 45.3% increase over Fiscal 2024 at ₹ 817.2 billion (*Source: CARE Report*) Multiple factors affect the performance of the Indian equity capital markets such as trading volumes, regulatory environment, interest rates, liquidity and transparent and efficient functioning of the equity capital markets in India and these and other factors individually and in combination, are important for the continuous growth of our business. For instance, volatility in the equity markets could affect the value of our Clients' portfolios and their trading and investing activities with us, which in turn may affect the amount of brokerage fees and commissions earned by us.

A significant majority of our revenue from operations is brokerage income which, in the 6 months ended September 30, 2024 and in Fiscal 2024, Fiscal 2023 and Fiscal 2022 was ₹ as set out below.

Particulars	6 months ended September 30, 2024		Fiscal 2024		Fiscal 2023		Fiscal 2022	
	Amount (₹) in million	(%) of revenue from operations	Amount (₹) in million	(%) of revenue from operations	Amount (₹) in million	(%) of revenue from operations	Amount (₹) in million	(%) of revenue from operations
Brokerage income	2,485.83	56.28%	3,955.62	58.02%	2,741.16	58.59%	2,762.00	65.24%

High short-term volatility or persistent volatility could have an impact on trading and investment patterns, which could have a material impact on our results of operations and financial condition. Additionally, we are also dependent on revenues from margin funding, mutual funds commission income, income from distribution and sale of financial products etc., all of which are directly or indirectly dependent on the performance of the Indian equity capital markets. For details of the break-up of our revenue from operations from Broking Segment and Non-Broking Segment, see "Our Business" on page 206.

While the Indian capital markets have witnessed significant increase, and the BSE Sensex and the NSE Nifty 50 witnessed a rise of approximately 141% and 150%, respectively, between the bottom of Covid-19 to September 2024, there have been instances in the recent past which have adversely affected the equity capital markets. Capital markets around the world are susceptible to macroeconomic risks such as COVID-19 pandemic and, geo-political tensions. In line, India's capital market also witnessed high volatility during COVID-19, general elections in India, geo-political tensions between Russia-Ukraine, hostilities between Israel and Palestine/Lebanon/Iran. Globally, from FY19 to YTD 25 (Apr'24 to Sep'24), major indices like the Dow Jones, FTSE 100, and Nikkei 225 also saw P/E ratio shifts, primarily due to economic instability, COVID-19, and the Russia-Ukraine conflict. Managing major cost elements such as employee costs and brokerage costs including through timely adoption of technology

Our ability to adequately manage our expenses will directly affect our results of operations and our profitability. Our expenses may be impacted by various factors macroeconomic conditions including increase in inflation, changes in laws and regulations, increased competition, adoption of new technologies and employee related expenses.

Our business model emphasises building and maintaining a relationship with our clients, including through relationship managers, and, consequently, our employee benefit expenses are the single largest element of our total expenses and in the 6 months ended September 30, 2024 and in Fiscal 2024, Fiscal 2023 and Fiscal 2022 our employee benefit expense were as set out below.

Particulars	6 months ended September 30, 2024		Fiscal 2024		Fiscal 2023		Fiscal 2022	
	Amount (₹) in million	(%) of revenue from operations	Amount (₹) in million	(%) of revenue from operations	Amount (₹) in million	(%) of revenue from operations	Amount (₹) in million	(%) of revenue from operations
Employee benefit expenses	1,379.68	31.23%	2,148.21	31.51%	1,690.96	36.15%	1,444.74	34.13%

Further, given our business model, our employee cost will likely remain high in the foreseeable future. Further, as on September 30, 2024, March 31, 2024, March 31, 2023 and March 31, 2022, we had 1,123, 1,062, 1,587 and 1,535 Authorised Persons respectively, with whom we have a brokerage sharing arrangement. In the 6 months ended September 30, 2024 and in Fiscal 2024, Fiscal 2023 and Fiscal 2022 our brokerage sharing expenses were ₹ 738.00 million, 1220.59 million, ₹ 906.99 million, and ₹ 774.09 million, constituting 16.71%, 17.90%, 19.39% and 18.28%, respectively, of our revenue from operations. We have invested a significant amount of management time and resources into developing our Digital Platforms and the usage of such platforms has witnessed significant growth. In the 6 months ended September 30, 2024 and in Fiscal 2024, Fiscal 2023 and Fiscal 2022 our revenue from transactions undertaken on our Digital Platforms was as below.

Particulars	6 months ended September 30, 2024		Fiscal 2024		Fiscal 2023		Fiscal 2022	
	(₹) in million	(%) of Brokerage Income	(₹) in million	(%) of Brokerage Income	(₹) in million	(%) of Brokerage Income	(₹) in million	(%) of Brokerage Income
Revenue from Digital Platforms	925.83	37.24%	1,450.15	36.66%	837.62	30.56%	774.39	28.04%

We expect that going forward our digital platforms will be increasingly relevant and critical to our operations and the success of these platforms and systems, which are highly scalable with incremental investments will be a key factor in our future growth. We will need to keep pace with advancements in technology including AI solutions, ML etc, and we will need to invest in developing technologies to maintain our position in the industry. All these factors will affect our expense profile and impact our financial condition and results of operations.

Competition

We face significant competition from leading full service domestic and international institutional broking houses, discount brokers and individual brokers. The Indian financial services industry is intensely competitive and the brokerage business is particularly competitive with a sizeable number of large and small operators. Further, the Broking Segment is extremely fragmented with a large number of entities registered with SEBI. As of December 12, 2024, there are almost 4,895 SEBI registered brokers under the equity segment. (Source: CARE Report). Further, in the distribution business we also compete with various parties including investment advisors and scheduled commercial banks. We compete on the basis of a number of factors, including the execution of transactions, our products and services, innovation, relationship with clients, reputation and price. Some of our competitors may have larger presence across India and overseas, may benefit from economies of scale etc. Our ability to continue to grow our business will depend on our ability to successfully compete across business verticals and across geographies. For further details, see 'Risk Factor - We operate in an intensely competitive environment and our ability to succeed and grow is dependent on our ability to effectively compete in all aspects of our business', on page 52.

Diversifying our product mix

Our revenue from operations comprises brokerage and related income, interest on Margin Trading Facility Book and distribution income and other income from operations. Set out in the table below is a break-up of the contribution of brokerage income, interest on Margin Trading Facility Book, distribution income and other income from operations in the 6 months ended September 30, 2024, and in Fiscal 2024, Fiscal 2023 and Fiscal 2022, based on our Restated Consolidated Financial Information.

Particulars	6 months ended September 30, 2024		Fiscal 2024		Fiscal 2023		Fiscal 2022	
	(₹) in million	(%) of our revenue from operations	(₹) in million	(%) of our revenue from operations	(₹) in million	(%) of our revenue from operations	(₹) in million	(%) of our revenue from operations
Broking and Related Services*	2,904.82	65.76%	4,578.12	67.15%	3,172.67	67.82%	3,061.01	72.30%
Interest on Margin Trading Facility Book	554.63	12.56%	759.25	11.14%	542.16	11.59%	328.66	7.76%
Distribution Income	338.62	7.66%	563.94	8.27%	507.73	10.85%	391.62	9.26%
Other income from operations**	619.11	14.02%	916.57	13.44%	455.70	9.74%	452.36	10.68%
Total	4,417.18	100.00%	6,817.88	100.00%	4,678.26	100.00%	4,233.65	100.00%

*Includes Depository Income and Interest on Delayed payment by clients

**Comprises mainly interest on fixed deposits, interest on government securities, interest on bonds, interest on financial assets etc.

As set out above, while the contribution of brokerage income to our revenue from operations has been reducing over time, due to an increase in absolute monetary terms of our revenue from other business verticals, it still constitutes a significant majority of our revenue from operations. While we consistently try to cross-sell our products and generate revenues from our other products, the contribution of such revenues to our revenue from operations has not increased significantly. Our success will, in part, also depend on our ability to grow our revenues from the sale of other products.

SIGNIFICANT ACCOUNTING POLICIES

(a) Functional and presentation of currency

The Restated Consolidated Financial Information are presented in Indian Rupees, which is our Company's functional currency and all amounts are rounded to the nearest rupees in Millions; except when otherwise stated.

(b) Basis of Measurement of Restated Financial Information

These Restated Consolidated Financial Information have been prepared on historical cost basis, except for certain financial instruments, which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. The accounting policies adopted in the preparation of the Restated Consolidation Financial Information are consistent with those followed in the previous year by the Group.

Fair Value Measurement

In addition, for financial reporting purpose, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurements in its entirety, which are described as follows:-

Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date;

- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

- Level 3 inputs are unobservable inputs for the assets or liability.

(c) Basis of Consolidation

The Restated Ind AS Consolidated Financial Information incorporates the financial statements of the Group. Control is achieved when the Group :

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

Subsidiary is fully consolidated from the date on which control is transferred to the Group. Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. Subsidiary is deconsolidated from the date the control ceases.

The financial statements of the Group are combined on a line by line basis by adding together like items of assets, liabilities, equity, incomes, expenses and cash flows, after fully eliminating intra-group balances and intra-group transactions. Profits or losses resulting from intra-group transactions that are recognised in assets, such as Property, Plant and Equipment, are eliminated in full. The Restated Ind AS Consolidated Financial Information have been prepared using uniform accounting policies.

Subsidiary considered in Consolidated Financial Statements			
Name of the company	Date of incorporation	Ownership interest	Voting(%)
ANAND RATHI INTERNATIONAL VENTURES (IFSC) PRIVATE LIMITED (Gift City India)	28th December 2016	100%	100%

(d) Critical Accounting Judgements and Key Sources of Estimation Uncertainty

The preparation of our Company's Restated Consolidated Financial Information requires management to make judgement, estimates and assumptions that affect the reported amount of revenue, expenses, assets and liabilities and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in next financial years.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

- (i) **Depreciation / Amortisation and useful lives of property, plant and equipment:** Company depreciates its tangible assets over the useful life of an Asset as prescribed under Part C of Schedule II of Companies Act, 2013. Company remeasures remaining useful life of an asset at the end of each reporting date.
- (ii) **Fair value measurement:** Fair Value is a price of orderly transaction between market participants at the measurement date under current market conditions. Company determines Fair Value of Quoted Instruments from available market price. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.
- (iii) **Provisions:** Provisions are recognized when there is a present obligation (legal or constructive) as a result of past event; and it is probable that an outflow of resources will be required to settle the obligation. Management estimates it by using its best judgement of future cash outflow.
- (iv) **Taxes:** Our Company periodically assesses its liabilities and contingencies related to income taxes for all years open to scrutiny based on latest information available. For matters where it is probable that an adjustment will be made, our Company records its best estimates of the tax liability in the current tax provision. The Management believes that it has adequately provided for the probable outcome of these matters.

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement

is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits.

(v) Recognition and measurement of defined benefit obligations

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and attrition rate. The discount rate is determined by reference to market yields at the end of the reporting period on government securities.

(vi) Allowance for impairment of financial asset

Our Company applies expected credit loss model (ECL) for measurement and recognition of impairment loss. Our Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. At each reporting date, our Company assesses whether the loans have been impaired. Our Company is exposed to credit risk when the customer defaults on his contractual obligations. For the computation of ECL, the loan receivables are classified into three stages based on the default and the ageing outstanding. Our Company recognises life time expected credit loss for trade receivables and has adopted simplified method of computation as per Ind AS 109. Our Company considers outstanding overdue for more than 90 days for calculation of expected credit loss.

(e) Current and Non-Current Classification

An asset shall be classified as current when it satisfies any of the following criteria:—

- (a) it is expected to be realised in, or is intended for sale or consumption in, our Company’s normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is expected to be realised within twelve months after the reporting date; or
- (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets shall be classified as non-current.

A liability shall be classified as current when it satisfies any of the following criteria:—

- (a) it is expected to be settled in our Company’s normal operating cycle;
- (b) it is held primarily for the purpose of being traded;
- (c) it is due to be settled within twelve months after the reporting date; or
- (d) our Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities shall be classified as non-current.

(f) Property, Plant and Equipment & Intangible Assets and Depreciation & Amortisation

Property, Plant and Equipment

Property, plant and equipment are stated at cost, less accumulated depreciation and impairment, if any. Direct costs in relation to the property, plant and equipment are capitalized until such assets are ready for use.

(i) Tangible Assets: Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets estimated by the Management. Depreciation for assets purchased during a period is proportionately charged. The Management estimates the useful lives and residual values of the tangible assets as prescribed under Part C of Schedule II of the Companies Act 2013 as follows.

Property, plant and equipment	Useful Life as per Schedule II	Useful Life adopted by our Company
Office Building	60 years	60 years

Office Equipments		
- Others	05 years	05 years
- Air conditioner	05 years	15 years
Computer Equipments		
- End user machines	03 years	08 years
- Servers and networks	06 years	08 years
Vehicles	08 years	08 years
Furnitures and fixtures		
(As assessed by our Company)	10 years	13 years

Note: The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the Property, plant and equipment are likely to be used.

(ii) Intangible Assets: Intangible assets are recorded at the consideration paid for the acquisition of such assets and are carried at cost less accumulated amortisation and impairment. Amortisation on intangible assets is provided on the straight-line method over the useful lives of assets estimated by the Management as per Part C of Schedule II of the Companies Act 2013 as provided below-

Intangible assets	Useful Life as per Schedule II	Useful Life adopted by our Company
Softwares	05 years	07 years

If any income is received from Capital WIP and Intangible Assets then earlier income is to be recognised under P&L but now it is to be capitalised.

(g) Financial Instruments

(i) Initial Recognition

Financial assets and financial liabilities are recognised when our Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in Statement of Profit and Loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest."

(ii) Classification & Measurement of Financial Assets

Financial assets are classified at 'Amortised Cost', 'Fair Value through Profit and Loss' (FVTPL) and 'Fair Value through Other Comprehensive Income' (FVTOCI) in the following categories:

Debt Instruments at amortised cost: Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for those designated at FVTPL on initial recognition)

- the asset is held within a business model whose objective is to hold asset to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Debt Instruments at FVTOCI: Debt instruments that meet the following conditions are subsequently measured at FVTOCI (except for those designated at FVTPL on initial recognition)

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Debt Instruments at FVTPL: Any debt instrument which is either initially designated at FVTPL or which does not meet the criteria for Amortised cost or FVTOCI is measured at FVTPL.

Effective Interest Method: Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset. When calculating the effective interest rate, our Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Equity Instruments at FVTOCI: On initial recognition, our Company can make an irrevocable election (on an instrument by instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the instrument is held for trading. The cumulative gain or loss is not reclassified to the Statement of Profit and Loss on disposal of the investment.

Financial Assets at FVTPL: Investments in equity instruments are classified at FVTPL, unless they were irrevocably elected on initial recognition as FVOCI. Financial Assets at FVTPL are measured at Fair Value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in the Statement of Profit and Loss.

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to our Company, and the amount of the dividend can be measured reliably.

(iii) Impairment of financial assets

Our Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost, FVOCI debt instruments, and other financial assets. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 49 details how our Company determines whether there has been a significant increase in credit risk.

For trade receivables only, our Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognised only when :

- Our Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, our Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if our Company has not retained control of the financial asset. Where our Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) Financial Liabilities:

Financial liabilities which are held for trading or are designated at FVTPL are measured at fair value with changes being recognised in the statement of Profit and Loss.

Financial liabilities that are not held for trading and are not designated as at FVTPL, are measured at amortised cost. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method.

(vi) Derecognition of financial liabilities

Company derecognises financial liabilities when, and only when, our Company's obligations are discharged, cancelled or have expired. A substantial modification in the terms of an existing financial liability is accounted as a discharge of original financial liability and recognition of new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised as profit or loss.

(vii) Offsetting financial assets and liabilities

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, our Company has a legal right and ability to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

(viii) Deemed cost on transition to Ind AS: For transition to Ind AS, our Company had elected to continue with the carrying value of all its Investments and are measured as per the previous GAAP and had used that carrying value as its deemed cost on the transition date.

(h) Derivatives financial instruments

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognised in the Statement of Profit and Loss.

(i) Impairment of Assets

Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amount may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent to those from other assets.

The Carrying Amount of Assets is reviewed at each Balance Sheet date if there is any indication of impairment based on internal/external factors. An asset is treated as impaired when the carrying cost of assets exceeds its recoverable value. An impairment loss, if any, is charged to Statement of Profit and Loss in the year in which an asset is identified as impaired. Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the assets no longer exists or have decreased.

(j) Cash and cash equivalent

(i) Cash and cash equivalents in the balance sheet comprise cash at bank and on hand and short-term deposit with original maturity upto three months, which are subject to insignificant risk of changes in value.

(ii) For the purpose of presentation in the statement of cash flows, cash and cash equivalents consists of cash and short-term deposit, as defined above.

(k) Borrowing Cost and Finance Charges

Borrowing cost attributable to acquisition and construction of qualifying assets are capitalized as a part of the cost of such assets up to the date when such assets are ready for its intended use. Other borrowing cost are charged to the statement of profit and loss in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowings.

(l) Leases

Our Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, our Company assesses whether: (i) the contract involves the use of an identified asset (ii) our Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) our Company has the right to direct the use of the asset.

At the date of commencement of the lease, our Company recognizes a right-of-use asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, our Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated on a straight-line basis over the lease term. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if our Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

(m) Employee Benefits

Defined Contribution plan – Retirement benefit in the form of Provident Fund is a defined contribution scheme. Our Company is statutorily required to contribute a specified portion of the basic salary of an employee to a provident fund as a part of retirement benefits to its employees. The contributions during the period are charged to statement of profit and loss. Our Company recognizes contribution payable to the Provident Fund scheme as an expenditure when an employee renders related service.

Defined Benefit Plan – Gratuity, which is in the nature of Defined Benefit Schemes, are payable only to employees and accounted for on accrual basis. The Cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses are recognised in other comprehensive income in the period in which they occur and are not reclassified to the Statement of Profit and Loss.

Our Company has funded its Gratuity liability under group scheme with an Insurer. The retirement benefit obligation recognised in the balance sheet represents the present value of the defined benefit obligations reduced by the fair value of the scheme assets. Any asset resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the scheme.

Short Term Employee Benefits - The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include incentive which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

(n) Revenue Recognition

Our Company assesses the nature, timing and extent of revenue based on performance obligations in its contracts/understanding/trade customs with customers & clients.

Revenue is recognised to the extent that is probable that the economic benefits will flow to our Company and the amount based on performance obligation can be reliably measured. Revenue is measured at the fair value of consideration received or receivable taking into account the amount of discounts.

1. Revenue from Broking income is recognised on trade date basis and is exclusive of goods and service tax and securities transaction tax (STT) wherever applicable.
2. Income related with Distribution income on Mutual Fund and other financial products is accounted on accrual basis.
3. Dividend income is accounted for when the right to receive the income is established.

4. Difference between the sale price and the carrying value of investment is recognised as profit or loss on sale/ redemption on investment on trade date of transaction.

5. Interest income is recognised on accrual basis.

(o) Taxes on Income

The tax expenses for the period comprises of current tax and deferred income tax. Tax is recognised in statement of profit or loss except to the extent that it relates to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits. Deferred tax is not recognized for:

- Temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction;
- Temporary differences related to investment in subsidiary to the extent that our Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses our Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets- unrecognized or recognized, are reviewed at each reporting date and are recognized /reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realized.

Change in Rate of Income Tax

Our Company has opted for Section 115BAA of the Income Tax Act, 1961 for computing its tax liability.

(p) Investment Property

Investment properties are immovable properties such as land and buildings held to earn rentals and/ or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost, net of accumulated depreciation and accumulated impairment loss, if any.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in Statement of Profit and Loss in the period in which the Investment property is derecognised. Freehold land and properties under construction are not depreciated. Investment property are amortised on straight-line basis over the estimated useful life of assets. The useful life of Investment property is 60 years.

(q) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when there is a present obligation (legal or constructive) as a result of past event; and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made.

Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the Balance Sheet date, taking into account the risks and uncertainties surrounding the obligation.

Contingent Liabilities are possible but not probable obligations as on the Balance Sheet date, based on the available evidence. Contingent Liabilities are not recognised in the Restated Consolidated Financial Information.

Contingent Assets are neither recognized nor disclosed.

(r) Earning per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders of our Company by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share are computed using the weighted average number of equity shares and dilutive potential equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

(s) Cash Flow Statement

Cash flows statement is prepared using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature item of income or expenses associated with operating, investing or financing cash flows. The cash flows from operating, investing and financing activities of our Company are segregated.

(t) Foreign currency translation

The financial statements are presented in Indian currency (INR), which is our Company's presentation currency. It is necessary for the results and financial position of each individual entity included in the reporting entity to be translated into the currency in which the reporting entity presents its financial statements. As the reporting entity presents its financial statement in INR, our Company's financial statements are translated into INR.

Foreign currency transactions are translated into presentation currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at the period end exchange rates are recognised in profit or loss.

Non-monetary items that are measured at fair value in the foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as FVOCI are recognised in other comprehensive income.

The financial statements are translated from functional currency to presentation currency by using the following procedures:

- (a) assets and liabilities for each balance sheet presented (i.e. including comparatives) shall be translated at the closing rate at the date of that balance sheet;
- (b) income and expenses for each statement of profit and loss presented (i.e. including comparatives) shall be translated at exchange rates at the dates of the transactions or average rate during FY; and
- (c) all resulting exchange differences shall be recognised in other comprehensive income.

NON-GAAP MEASURES

Earnings before Interest, Taxes, Depreciation and Amortization Expenses (EBITDA)/ EBITDA Margin/ Interest Coverage Ratio / Net Debt to EBITDA ratio / Return on Capital Employed / Return on Equity

In addition to our results determined in accordance with Ind AS, we believe the following Non-GAAP measures are useful to investors in evaluating our operating performance and liquidity. We use the following Non-GAAP financial information to evaluate our ongoing operations and for internal planning and forecasting purposes. We believe that Non-GAAP financial information, when taken collectively with financial measures disclosed in the financial statements prepared in accordance with Ind AS, may be helpful to investors because it provides an additional tool for investors to use in evaluating our ongoing operating results and trends and in comparing our financial results with other companies in our industry because it provides consistency and comparability with past financial performance. However, our management does not consider these Non-GAAP measures in isolation or as an alternative to financial measures.

EBITDA, EBITDA margin, interest coverage ratio, net debt to EBITDA ratio, return on capital employed and return on equity (**Non-GAAP Measures**) presented in this Draft Red Herring Prospectus is a supplemental measure of our performance and liquidity that is not required by, or presented in accordance with, Ind AS, IFRS or US GAAP. Further, EBITDA is not a measurement of our financial performance or liquidity under Ind AS, IFRS or US GAAP and should not be considered in isolation or construed as an alternative to cash flows, profit/(loss) for the periods or any other measure of financial performance or as an indicator of our operating performance, liquidity, profitability or cash flows generated by operating, investing or financing activities derived in accordance with Ind AS, IFRS or US GAAP.

In addition, Non-GAAP Measures are not standardised terms, hence a direct comparison of Non-GAAP Measures between companies may not be possible. Other companies may calculate the Non-GAAP Measure differently from us, limiting its usefulness as a comparative metric. Although Non-GAAP Measures are not a measure of performance calculated in accordance with applicable accounting standards, our Company's management believes that it is useful to an investor in evaluating us because it is a widely used measure to evaluate a company's operating performance. See '*Risk Factors - Certain non-GAAP financial measures and certain other statistical information relating to our operations and financial performance such as EBITDA, EBITDA margin, interest coverage ratio, net debt to EBITDA ratio, return on capital employed and return on equity have been included in this Draft Red Herring Prospectus. These non-GAAP financial measures are not measures of operating performance or liquidity defined by Ind AS and may not be comparable.*' on page 73.

Our finance costs increased by 95.19% from ₹ 494.60 million in Fiscal 2023 to ₹ 965.40 million in Fiscal 2024. Fees and commission expenses

Our fees and commission expenses increased by 33.34% from ₹ 945.24 million in Fiscal 2023 to ₹ 1,260.43 million in Fiscal 2024 primarily due to an increase in revenue from Authorised Persons from ₹ 1,385.50 million in Fiscal 2023 to ₹ 1,885.05 million in Fiscal 2024 on account of growth in the business generated through Authorised Persons and the consequent increase in the aggregate commission paid out.

Impairment on financial instruments

Impairment on trade receivables increased from 'Nil' in Fiscal 2023 to ₹ 10.80 million in Fiscal 2024 since during Fiscal 2023, our Company had reversed 'provision for credit impaired' since the amount was recovered, and therefore the amount was shown under Other Income during Fiscal 2023.

Employee benefits expense

Depreciation and amortisation expense

Depreciation and amortisation expense increased by 29.82% from ₹ 154.93 million in Fiscal 2023 to ₹ 201.13 million in Fiscal 2024 primarily due to an increase in the depreciation on right of use assets from ₹ 69.74 million in Fiscal 2023 to ₹ 112.57 million in Fiscal 2024 due to additions to right of use assets from ₹ 100.10 million for Fiscal 2023 to ₹ 229.28 million Fiscal 2024, and depreciation on property, plant and equipment from ₹ 47.57

million in Fiscal 2023 to ₹ 51.73 million in Fiscal 2024 which was partially offset by a decrease in amortisation expense on other intangible assets from ₹ 37.32 million in Fiscal 2023 to ₹ 35.60 million in Fiscal 2024.

Other expenses

Other expenses increase by 22.57% from ₹ 891.39 million in Fiscal 2023 to ₹ 1,092.60 million in Fiscal 2024 primarily due to an increase in (i) rent from ₹ 114.27 million in Fiscal 2023 to ₹ 135.44 million in Fiscal 2024 due to rise in own branches from 79 as on Fiscal 2023 to 92 as on Fiscal 2024, (ii) business support charges from ₹ 136.93 million in Fiscal 2023 to ₹ 266.13 million in Fiscal 2024 to enhancement of systems with the services of our group company and (iii) legal and professional charges from ₹ 51.34 million in Fiscal 2023 to ₹ 72.29 million in Fiscal 2024, which was partially offset by a decrease in (i) business promotion and marketing expenses from ₹ 157.34 million in Fiscal 2023 to ₹ 146.24 million in Fiscal 2024 and (ii) travelling and conveyance expenses from ₹ 81.92 million in Fiscal 2023 to ₹ 79.75 million in Fiscal 2024.

Profit for the period

On account of the foregoing factors, our profit for the period increased by 104.77% from ₹ 377.45 million in Fiscal 2023 to ₹ 772.90 million in Fiscal 2024.

FISCAL 2023 COMPARED TO FISCAL 2022

Total income

Our total income increased by 10.60% from ₹ 4,237.82 million in Fiscal 2022 to ₹ 4,687.03 million in Fiscal 2023, primarily due to an increase in (i) interest income and (ii) fees and commission income.

Revenue from operations

Our revenue from operations increased by 10.50% from ₹ 4,233.65 million in Fiscal 2022 to ₹ 4,678.26 million in Fiscal 2023 due to an increase in:

- (i) Interest income by 41.14% from ₹ 929.60 million in Fiscal 2022 to ₹ 1,312.05 million in Fiscal 2023 due to an increase primarily in (a) interest on margin funding loans to Clients which increased from ₹ 328.66 million in Fiscal 2022 to ₹ 542.16 million in Fiscal 2023 on account of increase in margin funding loans from ₹ 3,046.62 million as on March 31, 2022 to ₹ 3,766.38 million as on March 31, 2023, (b) interest on delayed payment by clients from ₹ 183.90 million in Fiscal 2022 to ₹ 336.05 million in Fiscal 2023 and (c) interest on deposit with banks from ₹ 386.33 million in Fiscal 2022 to ₹ 422.80 million in Fiscal 2023, on account an increase in fixed deposits created out of Client's funds.
- (ii) Fees and commission income by 1.73% from ₹ 3,303.40 million in Fiscal 2022 to ₹ 3,360.52 million in Fiscal 2023 due to an increase primarily in mutual fund commission income from ₹ 112.49 million in Fiscal 2022 to ₹ 145.17 million in Fiscal 2023 due to increase in mutual fund amount under distribution from ₹ 24,440.41 million in Fiscal 2022 to ₹ 26,575.49 million in Fiscal 2023 and an increase in income from distribution and sale of financial products from ₹ 167.51 million in Fiscal 2023 to ₹ 191.72 million in Fiscal 2024, which was partially offset by a decrease in brokerage income from ₹ 2,762.00 million in Fiscal 2022 to ₹ 2,741.16 million in Fiscal 2023 on account of a decrease in ADTO i.e., average daily turnover i.e. the Company's daily average turnover at exchanges. The decrease in brokerage income was due to a decrease in the average daily turnover, mainly in the equity cash segment.

Other income

Our other income increased by 110.31% from ₹ 4.17 million in Fiscal 2022 to ₹ 8.77 million in Fiscal 2023 primarily due to write back of expenses ₹ 3.88 million during Fiscal 2023.

Total expenses

Finance costs

Our finance costs increased by 32.60% from ₹ 373.01 million in Fiscal 2022 to ₹ 494.60 million in Fiscal 2023. This increase was primarily due to an increase in (i) interest on borrowing from ₹ 256.09 million in Fiscal 2022 to ₹ 333.06 million in Fiscal 2023 on account of increased requirement for working capital in our Company and (ii) interest on debt securities from ₹ Nil in Fiscal 2022 to ₹ 46.51 million in Fiscal 2023.

Fees and commission expenses

Our fees and commission expenses increased by 13.38% from ₹ 833.68 million in Fiscal 2022 to ₹ 945.24 million in Fiscal 2023 primarily due to an increase in brokerage sharing costs from ₹ 774.09 million in Fiscal 2022 to ₹ 906.99 million in Fiscal 2023 on account of growth in the business generated through Authorised Persons and the consequent increase in the aggregate commission paid out which was partially offset by a decrease in depository charges from ₹ 59.59 million to ₹ 38.25 million.

Impairment on financial instruments

Impairment on trade receivables decreased by 100.00% from ₹ 82.15 million in Fiscal 2022 to 'Nil' in Fiscal 2023 since during Fiscal 2023, our Company had reversed 'provision for credit impaired' since the amount was recovered and therefore the amount was shown under Other Income during Fiscal 2023.

Employee benefits expense

Our employee benefits expense increased by 17.04% from ₹ 1,444.74 million in Fiscal 2022 to ₹ 1,690.96 million in Fiscal 2023 primarily due to an increase in salaries and wages from ₹ 1,371.67 million to ₹ 1,602.33 million, and an increase in contribution to provident fund and other funds and staff welfare expenses due to an increase in the number of employees from 1,483 as on April 1, 2022 to 1,746 on March 31, 2023, and in particular, increase in the number of relationship managers from 842 to 1,078, during the same period.

Depreciation and amortisation expense

Depreciation and amortisation expense increased by 17.97% from ₹ 131.34 million in Fiscal 2022 to ₹ 154.93 million in Fiscal 2023 primarily due to an increase in the depreciation on right of use assets from ₹ 56.72 million in Fiscal 2022 to ₹ 69.74 million in Fiscal 2023 and depreciation on property, plant and equipment from ₹ 43.48 million in Fiscal 2022 to ₹ 47.57 million in Fiscal 2023 and an increase in amortisation expense on other intangible assets from ₹ 31.14 million in Fiscal 2022 to ₹ 37.32 million in Fiscal 2023.

Other expenses

Other expenses increase by 20.95% from ₹ 737.01 million in Fiscal 2022 to ₹ 891.39 million in Fiscal 2023 primarily due to an increase (i) business promotion and marketing expenses from ₹ 100.16 million in Fiscal 2022 to ₹ 157.34 million in Fiscal 2023 and (ii) travelling and conveyance expenses from ₹ 44.42 million in Fiscal 2022 to ₹ 81.92 million in Fiscal 2023 which was partially offset by a decrease *inter alia* in business support charges from ₹ 151.66 million in Fiscal 2022 to ₹ 136.93 million in Fiscal 2023.

Profit before tax

On account of the foregoing factors, our profit before tax decreased by 19.81% from ₹ 635.89 million in Fiscal 2022 to ₹ 509.91 million in Fiscal 2023.

Tax expenses

Total tax expense increased by 3.56%, from ₹ 127.90 million in Fiscal 2022 to ₹132.46 million in Fiscal 2023, despite a decrease in current tax from ₹ 146.57 million to ₹ 135.91 million, due to a reduction in the deferred tax credit from ₹ (18.67) million to ₹ (3.45) million. The deferred tax had reduced primarily because during Fiscal 2022 unlike Fiscal 2023, we had MAT credit of ₹ 58.27 million which was available for utilization. During Fiscal 2022, the gross deferred tax amounted to ₹ (76.94) million, after adjusting MAT credit of ₹ 58.27 million the net deferred tax amounted to ₹ (18.67) million.

Profit for the period

On account of the foregoing factors, our profit for the period decreased by 25.70% from ₹ 507.99 million in Fiscal 2022 to ₹ 377.45 million in Fiscal 2023.

Quantitative and Qualitative Disclosures About Market Risk

Our activities expose us to the following risks arising from financial instruments:

- i. Liquidity risk;
- ii. Credit risk; and
- iii. Market risk.

Our Company's Board of Directors has overall responsibility for the establishment and oversight of our Company's risk management framework. Our Company's Board of Directors has established processes to ensure that the executive management controls risks through the mechanism of a properly defined framework. Our Company's risk management policies are established to identify and analyse the risks faced by our Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed by the board annually to reflect changes in market conditions and our Company's activities.

Liquidity risk

Liquidity risk is the risk that our Company will encounter difficulty in meeting the obligations associated with our financial liabilities that are settled by delivering cash or another financial asset. Our Company's approach to managing liquidity is to ensure, as far as possible, that we will have sufficient liquidity to meet our liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to our Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the cash flows generated from operations to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, our Company's treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Credit risk

Credit risk is the risk of financial loss to our Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from our Company's receivables from customers, security deposits and investment securities. Customer credit risk is managed by our Company as per its policy, procedures and control relating to customer credit risk.

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market Risk comprises three types of risk:

- a) Currency risk;
- b) Interest rate risk; and
- c) Other price risk such as equity price risk etc.

Currency risk

Our Company is exposed to foreign exchange risk arising from foreign currency transactions with respect to the USD. Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign currency rates. Exposures can arise on account of the various assets and liabilities which are denominated in currencies other than in Indian Rupees.

Interest rate risk

On borrowings

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Exposure to interest rate arises inter alia due to our borrowings that have been availed on floating interest rate.

Other price risk such as equity price risk

Our Company's Board of Directors reviews and approves all equity investment decisions.

Seasonality / Cyclicity of business

While our Company's business is not subject to seasonal changes, we are affected by the trends in the Indian economy, particularly those affecting the financial services industry.

Unusual or infrequent events or transaction

Writ Petition No. 3495 of 2013 was filed before the Bombay High Court by Mayur Rameshchandra Patel (**Petitioner**) against Anand Rathi Share and Stock Brokers Limited (**Company**), (**Respondent No. 3**) the State of Maharashtra (**Respondent No. 1**), and Vashi Police Station (**Respondent No. 2**). The Petition seeks to (i) restore Private Complaint No. 569/2011 (**Complaint**) before the Hon'ble Court of Judicial Magistrate First Class, Vashi at CBD Belapur, Navi Mumbai (**Court**); and (ii) transfer of the investigation to an independent agency. The Petitioner alleges that his mother held 5,900 shares of Tata Motors in her demat account with M/s. Sharekhan Limited (**Shares**). These Shares were allegedly transferred to the Petitioner's account with our Company on November 27, 2007. The Petitioner alleges that he had opened a demat account with our Company on November 28, 2007 and on November 29, 2007, our Company transferred the Shares to Navratan Capital and Securities Limited (now known as Anand Rathi Share and Stock Brokers Limited) without the Petitioner's consent and by forging his signature on the delivery instruction slip (**DIS**). The Complainant alleges that the Accused induced him into investing through Anand Rathi Share and Stock Brokers Limited (**Accused No. 8**) by promising profits and better returns, with the intent to defraud him and make wrongful gains at his expense. According to the complaint, in 2004, Manoj Thakkar, the branch manager of Accused No. 8, approached the Complainant and persuaded him to open a demat account with the firm, promising good returns. Trusting these representations, the Complainant opened demat accounts in his own name as well as in the names of his wife, daughter, and sons (**Accounts**). The Complainant himself managed the trading in these accounts. The Complainant also informed Accused that he was unfamiliar with the English language and requested that trading details be provided in Hindi, to which the Accused agreed. The Complainant claims that neither he nor his family members ever operated the accounts after they were opened. However, the Accused and their employees allegedly began trading shares in the Accounts without obtaining their consent. Subsequently, the Complainant sent a letter dated December 15, 2012, to the Accused, instructing them to cease trading in the Demat Accounts owned and operated by the Complainant and his family without permission and requested details of the transactions made in the demat accounts. Following this, the Complainant's wife received a show-cause notice from the Income Tax Department on May 12, 2016, regarding a substantial turnover in their Accounts. Upon receiving the notice, the Complainant lodged a complaint on June 27, 2016, with the Senior Inspector of Police at Dindoshi Police Station. The Complainant stated that despite multiple visits to the office of the Accused, no action was taken. He alleges that the fraudulent activities of the Accused caused significant financial losses to him and his family, amounting to crores of rupees. The Complainant further alleges that the Accused acted in collusion from the outset, with the intent

to defraud him. He seeks legal cognizance of the case and requests that the Accused be punished under sections 403, 406, 409, 418, 468, 471, 420, 120B, and 34 of the Indian Penal Code, 1860 (IPC). The matter is currently pending.

Details of the NCDs allotted during these periods (as on December 14, 2024) are set out below:

Particulars	Number of separate, independent and individual offers (bearing separate ISIN numbers) through which NCDs were issued	Number of subscribers / original allottees	Number of unique subscribers/ original allottees	Amount raised through issue of NCDs (in ₹ million)

During Fiscal 2023 and Fiscal 2024, some of the initial subscribers (including our Corporate Promoter i.e., Anand Rathi Financial Services Limited and one of our Group Companies, i.e., Anand Rathi Global Finance Limited), further transferred the NCDs subscribed by them resulting in the aggregate number of unique NCD holders exceeding 200 investors, within a timeframe of 6 months from the respective date of allotment, which could be considered to be in violation of the provisions of Sections 25 and section 42 of the Companies Act and applicable provisions of the Companies Act and securities laws. While the total number of the initial subscribers and / or the total number of unique NCD holders after the down-sale in respect of a private placement offer under a distinct private placement offer/ISIN did not exceed 200 unique NCD holders in any financial year, if the private placement offer/s under a distinct ISIN are clubbed together, then the aggregate number of unique NCD holders exceeded 200. Further, SEBI through its email dated March 26, 2025 has sought certain details in relation to the NCDs issued by our Company, and we have through our emails dated March 26, 2025 and March 28, 2025 submitted the requisite data to SEBI.

Over the last two months (i.e. February 2025 and March 2025) a significant amount and number of NCDs have been redeemed and the total number of unique NCD holders during each of the financial years across all offers / ISIN are now less than 200 as per the details mentioned below as on March 29, 2025:

Particulars	Private placement offers (distinct ISINs) under which NCDs were issued	Total number of subscribers/ original allottees in the Financial Year	Total number of unique NCD holders in all (considering down sale) private placement offers (all ISINs) in the Financial Year (post redemption)	Amount outstanding (in ₹ million)

By way of an order dated March 4, 2019 (**Summoning Order**), the Special MPID Court under MPID Act issued process/summons to Amit Rathi and ARCL for attendance and to answer to a charge of commission of offense mentioned in the charge sheet. Amit Rathi and ARCL have challenged the aforesaid Summoning Order in criminal writ petition bearing no. 555/2020 dated January 27, 2020 (**Criminal Writ Petition**), before the Bombay High Court. The aforesaid Criminal Writ Petition is pending. Notably, on January 30, 2020, the Bombay High Court after hearing the counsel representing ARCL and Amit Rathi, as also Special Public Prosecutor representing State of Maharashtra has recorded that “*Perusal of impugned order of issuance of process, prima facie shows that it is passed in a very mechanical manner. There is no material at least prima facie to show that the learned Designated Court has applied its mind to the facts projected from the report submitted to it*”. Pending conclusion of the investigation in the FIR, SEBI registered a FIR bearing No. Special LAC 110/2018 dated September 28, 2018 at M.I.D.C., Mumbai police station against 300 brokers including ARCL making allegations of commission of offences under section/s 20(d), 20I, 21(b), 21(d), 21(f) and 21I of the Forward Contracts (Regulation) Act, 1952. After completing investigation in the aforesaid Crime/FIR, EOW filed 11th supplementary/final charge-sheet on December 02, 2022 wherein Pradeep Gupta (who at the relevant time was also a Director in ARCL) was charge-sheeted amongst Directors of other 17 commodity brokers for offences under Section 120-B read with Sections 409, 420, 465, 467, 468, 471, 474, 477-A of the IPC, section 3 of MPID Act and section 21(a), 21(b), 21(c) and 21(g) of FCRA. Notably trial in the aforesaid criminal case has not yet commenced. Pending cognizance of 11th supplementary/final charge-sheet, the main accused, i.e. NSEL and one of the investor (having traded at NSEL platform through another broker) filed two separate Miscellaneous Application/s under section 190 of the Code of Criminal Procedure, 1973 (**CrPC**) before the Special MPID Court to take cognizance against remaining directors and promoters of three commodity brokers including ARCL. The Special MPID Court vide its order dated May 18, 2023 while allowing both the Miscellaneous Application/s took cognizance of the offences punishable under Sections 409, 465, 467, 468, 471, 474, 477A, 120B of IPC and r/w 3 of MPID Act 1999 and 21(a), 21(b), 21(c) and 21(g) of the FCRA and issued process/summons for the aforesaid offences against Priti Pradeep Gupta, Roopkishor Bhootra (Directors of ARSSBL who were at the relevant time Directors in ARCL, i.e. commodity broking entity) and ARFSL being the Promoter of ARCL (also Promoter/Holding Company of ARSSBL). The aforesaid order dated May 18, 2023 of Special MPID Court has been challenged by Mrs. Priti Pradeep Gupta, Roopkishor Bhootra (Directors of ARSSBL) and ARFSL (Promoter/Holding Company of ARSSBL) before the Hon’ble Bombay High Court. Also, an investor named Rajesh Kamani (client of some other broker) filed a Miscellaneous Application bearing no. 35/2024 before the Special MPID Court praying for further and proper investigation, alleging that the investigating officer has failed to attach the properties of the accused ARCL and other two brokers and their directors, under section 4 of the MPID Act, 1999. Vide order dated January 17, 2024, the Special MPID Court while allowing the aforesaid Miscellaneous Application, directed EOW to carry out proper & further investigation, and if any properties with respect to ARCL and other two commodity brokers and their directors are found relevant to section 4 of the MPID Act forward the same to the Competent Authority (**CA**) to take appropriate steps. Pursuant to the aforesaid order of Special MPID Court, Government of Maharashtra vide its notification dated August 01, 2024 has attached fixed deposits of ARCL amounting to Rs. 30,53,295/- maintained with HDFC Bank Ltd. Pursuant to issuance of the Attachment Notification, the Competent Authority appointed by Government of Maharashtra has filed Miscellaneous Applications No.1237/2024 and 1238/2024 for making the attachment absolute u/s 7 of MPID Act.
- iv. Pursuant to filing of 11th /final charge-sheet/final charge-sheet by EOW in NSEL matter, ARCL received Provisional Attachment Order dated August 07, 2023 (**PAO**) passed by the Ld. Deputy Director, Mumbai Zonal Office – I, Directorate of Enforcement, Mumbai (**the Complainant**) and the Show Cause Notice dated September 14, 2023 (**SCN**) issued by Learned Adjudicating

Authority (under The Prevention of Money Laundering Act, 2002). By way of the said PAO, the Complainant has provisionally attached fixed deposit/s of ARCL (amounting to Rs.11,91,41,959) purportedly claiming to be the “value” of “proceeds of crime generated by the commission of scheduled offence”. Upon receiving the Show Cause Notice, ARCL filed a detailed reply on November 01, 2023, inter alia highlighting the procedural illegalities committed by the Complainant in implicating ARCL in the Enforcement Case Information Report (**ECIR**), issuing the provisional attachment order and filing of complaint before the Adjudicating Authority. Pursuant to personal hearing, ARCL also filed a detailed Written Submissions before the Adjudicating Authority. On January 30, 2024, the Adjudicating Authority passed an order under Section 8(3) of PMLA (**Impugned Order**) confirming the provisional attachment order dated August 07, 2023 passed by the Deputy Director/Complainant. ARCL has challenged the Impugned Order in Appeal (u/s 26 of PMLA) before the Appellate Tribunal (under The Prevention of Money Laundering Act, 2002) and the said Appeal is pending.

- v. M/s Money Magnum Constructions, a Mumbai based Partnership Firm having traded at NSEL platform through ARCL has filed a Commercial Suit bearing no. 57 of 2017 dated August 13, 2016 (New case No. 100175/2024) against ARFSL, ARCL, Anand Nandkishore Rathi, Pradeep Navratan Gupta, Priti Pradeep Gupta, Roop Kishor Bhootra, Charandas Arha amongst others, before the Hon’ble Bombay High Court at Mumbai, praying for an aggregate sum of ₹ 73.16 million with interest thereon @ 18% per annum from the date of suit till realization, against its unsettled trades on NSEL, brokerage/C&F charges and damages. The said matter is currently pending and has been transferred to City Civil Court, Mumbai.
- vi. Pending investigation by EOW in the NSEL matter, EOW forwarded its interim report dated April 4, 2015 to the Forward Markets Commission (FMC), seeking its intervention in relation to potential violations of codes of conduct or licensing terms. Subsequently, on October 28, 2016, in purported exercise of powers under Regulation 24 of the SEBI Intermediaries Regulations, 2008 (Intermediaries Regulations) read with Section 19 of the SEBI Act, SEBI issued a Notice dated 28th October 2016 (Notice) to ARCL calling upon to show cause as to why appropriate recommendation should not be made against ARCL in terms of Regulation 27 of the Intermediaries Regulations, read with Section 12(3) of the SEBI Act, 1992, in relation to the application of the ARCL for registration as commodities derivatives broker. ARCL responded to the allegations set out in the Notice on January 6, 2017. Subsequently, on April 24, 2017, a show cause notice was issued by SEBI under Regulation 28(1) read with Regulation 7(2) of the SEBI (Intermediaries) Regulation (2017 SCN), based on an enquiry report dated April 11, 2017 submitted by a bench of designated authorities, which recommended rejection of an application submitted by ARCL for registration as a commodity derivative broker, and initiation of prosecution proceedings under the FCRA. Pursuant to personal hearings and submission of detailed written submissions, SEBI on December 27, 2018 issued another show cause notice (2018 SCN) calling upon ARCL to show cause as to why the information brought on record by the report filed by SFIO should not be considered while deciding the application for registration. Pursuant to personal hearings, the Whole Time Member, SEBI (WTM), vide order dated February 25, 2019 (2019 Order), declared that ARCL is not a fit and proper person to hold, directly or indirectly, the certificate of registration as commodity derivatives broker, and accordingly, rejected the application dated December 16, 2015, filed by ARCL for registration as commodity derivatives broker. The 2019 Order does not hold that any of the allegations and/or the recommendations contained in the recommendation report of the Designated Authority as proved and simply concluded that ARCL is guilty, by association, only on account of them being members of the said NSEL. ARCL challenged 2019 Order in appeal (SAT Appeal) before Securities Appellate Tribunal, Mumbai (SAT). NSEL also filed an Appeal no. 566 of 2019 to challenge the said order of WTM. SAT vide its order dated June 09, 2022 (SAT First Order) allowed the SAT Appeal and quash the 2019 Order (i.e. order dated February 25, 2019) passed by the WTM. Thereafter, SEBI issued a Supplementary Show Cause Notice dated July 07, 2022 (Supplementary SCN) under Regulation 25(1) of the Intermediaries Regulations. Further, SEBI pursuant to its letter dated August 02, 2022, provided to ARCL, the letter dated July 18, 2022 purportedly received by it from NSEL. ARCL received a Notice of Hearing dated August 04, 2022 (Notice of Hearing) under Regulation 25(6) of the Intermediaries Regulations in furtherance of the Supplementary SCN on August 08, 2022. ARCL filed its reply dated September 05, 2022, to the Supplementary SCN. The personal hearing on the Supplementary SCN was held before the Designated Authority of SEBI (Designated Authority) on September 06, 2022. Thereafter, Designated Authority issued its report

dated September 30, 2022 (the Report) and a Show Cause Notice dated October 11, 2022 (2022 SCN) was issued by the Designated Authority (along with a copy of the Report), purportedly under Regulation 27(1) of the Intermediaries Regulations. As per the Report, the Designated Authority had proposed/recommended that the Registration Application of ARCL as a commodity broker may not be considered for another 3 (three) years from the date of the SEBI order. By way of the 2022 SCN, ARCL was asked to show cause as to why action as recommended by the Designated Authority should not be imposed on ARCL in terms of Regulation 27 of the Intermediaries Regulations, as deemed fit by the 'Designated Member' of SEBI, i.e. the WTM. ARCL filed its reply dated November 09, 2022 to the 2022 SCN read with the Report. Pursuant to on personal hearing on November 15, 2022 and Written Submissions dated November 25, 2022, the WTM passed an order on November 29, 2022 (2022 Order) and decided to reject ARCL's application for registration as commodity derivatives broker and barred ARCL from making a fresh application seeking registration for a period of 6 months from the date of the 2022 Order, i.e. November 29, 2022 or till acquittal of ARCL by the courts pursuant to the chargesheet filed by the EOW, whichever is earlier. The debarment period of six months has already expired. ARCL has filed an appeal before the SAT (Second Appeal) to quash and set aside the 2022 Order of debarring ARCL from making a fresh application seeking registration for a period of 6 months.

- vii. A Delhi based NSEL client named M/s Technopark Maintenance Services Private Limited (**Petitioner**) has filed an Insolvency Petition no. 961 of 2021 before National Company Law Tribunal, Mumbai Bench (**Tribunal**) against ARCL alleging default by ARCL in relation to its NSEL unsettled trades amounting to Rs. 2,88,13,318/-. Vide order dated June 08, 2023, the aforesaid Insolvency Petition was dismissed in default. The Petitioner has filed a Miscellaneous Application dated June 25, 2024 (after around one year from the date of order) before the Tribunal to recall the order dated June 08, 2023. The aforesaid Miscellaneous Application (Recall Application) is pending.
- viii. The Directorate of Enforcement has filed a supplementary complaint before the Court of Hon'ble Judge, City Civil Court and Additional Sessions Judge, Greater Bombay (**Court**) in PMLA Special Case No. 4 of 2015 under Sections 44 and 45 of The Prevention of Money Laundering Act, 2002 (**PMLA**) against Anand Rathi Commodities Limited (**ARCL**), Pradeep Navratan Gupta and others on January 28, 2025 (**Supplementary Complaint**), alleging that ARCL, Pradeep Navratan Gupta (who at the relevant time was also a Director in ARCL) amongst others assisted National Stock Exchange Limited (**NSEL**) in the offence of money laundering under Section 3 read with Section 70 of the PMLA and are liable for punishment under section 4 of the PMLA. Pursuant to a notice issued by the Court for appearance on March 06, 2025, ARCL (through its authorized signatory) and Pradeep Navratan Gupta appeared before the Court and filed a Miscellaneous Application No. Exh. 1034 (**Bond Application**), under Section 88 of the Code of Criminal Procedure, 1973 with the Court. The Court through an order dated March 06, 2025, allowed the Bond Application and directed Pradeep Navratan Gupta to be released on execution of a personal recognizance bond of ₹ 50,000/- with one or two sureties in the like amount, with certain other terms and conditions. The matter is pending for further proceedings.

Phased implementation of UPI

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles by introducing an alternate payment mechanism using UPI. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by UPI Bidders through intermediaries with the objective to reduce the time duration from public issue closure to listing from 6 Working Days to up to 3 Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced and implemented the UPI payment mechanism in 3 phases in the following manner:

- a) **Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of 5 main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended until June 30, 2019. Under this phase, an RII also had the option to submit the ASBA Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be 6 Working Days.
- b) **Phase II:** This phase has become applicable from July 1, 2019. SEBI through its Circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019 (SEBI Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023 (to the extent applicable) decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Further, SEBI through its Circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 (as superseded by SEBI Master Circular no. SEBI/HO/MIRSD/POD-1/P/CIR/2023/70 dated May 17, 2023 (to the extent applicable) decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the physical ASBA Form by an RII through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be 6 Working Days during this phase.
- c) **Phase III:** Pursuant to SEBI circular no. SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023, Phase III has been notified, and accordingly the revised timeline of T+3 days (i.e., the time duration from public issue closure to listing of be 3 Working Days) has been made applicable in two phases i.e., (i) voluntary for all public issues opening on or after September 1, 2023; and (ii) mandatory on or after December 1, 2023 (**T+3 Circular**).

Pursuant to the UPI Circulars, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one Working Day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the

SCSBs being penalised under the applicable law. Additionally, if there is any delay in the redressal of investors' complaints, the relevant SCSB as well as the post-Issue BRLM will be required to compensate the concerned investor.

Further, in terms of the UPI Circulars, the payment of processing fees to the SCSBs shall be undertaken pursuant to an application made by the SCSBs to the BRLMs, and such application shall be made only after (i) unblocking of application amounts for each application received by the SCSB has been fully completed, and (ii) applicable compensation relating to investor complaints has been paid by the SCSB.

The Issue will be made under UPI Phase III of the UPI Circular.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders using the UPI.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public issues where the application amount is up to ₹ 0.50 million shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Foreign investment is permitted (except in the prohibited sectors) in Indian companies, either through the automatic route or the approval route, depending upon the sector in which foreign investment is sought to be made. The Government of India makes policy announcements on FDI through press notes and press releases. The regulatory framework, over a period of time, thus, consists of acts, regulations, press notes, press releases, and clarifications among other amendments. The DPIIT (formerly Department of Industrial Policy and Promotion) issued the Consolidated FDI Policy Circular dated October 15, 2020, with effect from October 15, 2020 (**Consolidated FDI Policy**), which consolidates and supersedes all previous press note, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. Under the current Consolidated FDI Policy, 100% foreign investment is permitted in 'Other Financial Services' sector under automatic route.

In terms of Press Note 3 of 2020, dated April 17, 2020 (**Press Note**), issued by the DPIIT, the Consolidated FDI Policy and the FEMA Non-Debt Instruments Rules has been amended to state that all investments under the foreign direct investment route by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank or fund in India. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar to the Issue in writing about such approval along with a copy thereof within the Issue Period.

Transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

For details of the aggregate limit for investments by NRIs and FPIs in our Company, see '*Issue Procedure - Bids by Eligible NRIs*' and '*Issue Procedure - Bids by FPIs*' on page 433 and 434, respectively.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

For further details, see '*Issue Procedure*' beginning on page 426.

The above information is given for the benefit of the Bidders.
